For every age God prepares His agencies. As the bee is made for the flower, as the bird's wing fits the air and the fin of the fish of the yielding water.

But something more insidious and harmful a thousand times than blatant infidelity is the foe of the church of the twentieth century.

The report of General Secretary John Willis Baer was, in part, as follows: In 1891, the close of the first decade of the Christian Endeavor, there were 16,274 societies, and we returned hearty thanks to God for what He had wrought.

Very naturally the increase in Junior and Intermediate societies continues to be interesting. There are now over 16,000 Junior societies and 1,285 Intermediate societies.
