## TO PREVENT EPIDEMICS

"Smallpox is a disease that can be blotted out," says Dr. Giffen, in the Lincoln Journal, "and now is the time to do it. True, it is of a mild form in this state, but deaths have resulted from it, and it has kept on increasing from year to year. I am reliably informed that the mortality rate among the cases in the Indian reservation is about 10 per cent. It should be no higher than one-tenth of 1 per cent. Approximately 600 cases of the disease have been reported to the secretaries of the state board of health since October 15th, and it is reasonable to suppose that there have been and are a great many more that have not been reported.

"The only possible way to blot out the disease is by vaccination and the enforcement of quarantine regulations. If we prevent the spread of the disease and cure the existing cases we will have eliminated it from the state. The seriousness of this matter should strike home to every official and every person who has anything to do with the preservation of the public health.

"I would favor compulsory vaccination, not only of school children but of everybody. It may not be possible to do this, but the law we now have gives authority to prevent the unvaccinated from attending school. That statute should be enforced to the letter in every school where there has been any sign of the disease."

The Christmas number of The Delineator is about the first of the special Christmas issues. It is a beauty. The cover is a most artistic production, showing a beautifully gowned woman, standing gracefully in a brilliantly lighted salon. Two charming love stories, one by Cyrus Townsend Brady, plenty of advice regarding Christmas Gifts, timely pointers on Cookery, Winter-time care of Plants, all the fashions of the day interpreted into simple language, can be found in the Christmas number of The Delineator. It is a splendid magazine, satisfactory inside and out. There is no magazine for women at present published that is more practical in all its pages. As a Christmas gift itself, it bears its own recommendation.

## Good Reading for Everybody

In addition to its special articles by famous men and women and its stories by the most popular living writers of fiction The Youth's Companion presents from week to week many regular features of great value.

The editorial page discusses the public questions of the day in a spirit of impartiality, the aim being to give the reader the material for forming his own opinions.

The article on the care of the health which has been published every week for many years is of the greatest value.

The departments of Current Events and Nature and Science give the important news of the world in condensed form.

The children's page provides diversion for the little ones, and the anecdotes and miscellany have their share in making the paper a complete treasury of good reading.

An illustrated prospectus of the new volume for 1902 will be sent to any address free.

Every new subscriber who sends \$1.75 for the 1902 volume now will receive free all the issues for the remaining weeks of 1901 and The Companion Calendar for 1902, lithographed in 12 colors and gold.

## 'The Best is the Cheapest.'

Not how cheap, but how good, is the question.

The Twice-a-Week Republic is not as cheap as are some so-called newspapers. But it is as cheap as it is possible to sell a first class newspaper. It prints all the news that is worth printing. If you read it all the year round, you are posted on all the important and interesting affairs of the world. It is the best and most reliable newspaper that money and brains can produce—and those should be the distinguishing traits of the newspaper that is designed to be read by all members of the family.

Subscription price, \$1 a year. Any newsdealer, newspaper or postmaster will receive your subscription, or you may mail it direct to

My little son had an attack of whooping cough and was threatened with pneumonia; but for Chamberlain's Cough Remedy we would have had a serious time of it. It also saved him from several severe attacks of croup.—H. J. Stikfaden, editor World-Herald, Fair Haven, Wash. For sale by W. W. Keeling.

Druggist Morgan, of Crawfordsville, Ind., says: Dr. Caldwell's Syrup Pepsin is a medicine I can conscientiously recommend as it does just what you claim. It is the best laxative I ever saw." Sold by Keeling, the druggist.

Call at Keeling's drug store and get a free sample of Chamberlain's Stomach and Liver Tablets. They are an elegant physic. They also improve the appetite, strengthen the digestion and regulate the liver and bowels. They are easy to take and pleasant in effect.

## A Big Lot for the Money.

A newspaper every Tuesday and every Friday of each week from now until January 1, 1903, together with the Western Poultry News a whole year, and all for a dollar, is what is offered by The Semi-Weekly State Journal, published at Lincoln. It's the biggest bunch of good reading matter ever offered by this great state paper, and the prediction is made that it will result in introducing The State Journal to thousands of new homes. The Journal is a newspaper giving its readers all the telegraphic news of the world, interesting special correspondence from Washington about Nebraska's senators and congressmen, and all the items of interest from the state capital, making it particularly a paper for Nebraskans. If you can find a dollar about the house, this is the place to spend it. Its markets twice a week are worth what is asked for all of it. You get the news fresh from the wires when you get The Semi-Weekly Journal.

## Paid Dear for his Leg.

R. D. Blanton of Thackerville Texas in two years paid over \$300 to doctors to cure a running sore on his leg. Then they wanted to cut it off but he cured it with one box of Bucklen's Arnica Salve. Guaranteed cure for Piles. 25 cts a box. Sold by Keeling the druggist.

The North Platte valley in northwest Nebraska, offers some wonderfully good opportunities to the man or woman with a little money to invest in irrigated lands.

Excellent irrigated land can be had for \$12 to \$15 an acre, but it is plain to those watching the development of the North Platte valley that this low price is just about to fade away.

The farmers of this valley are now reaping an abundant harvest. Alfalfa, corn, wheat and garden vegetables yield good profits. There are also good openings in the live stock business.

If you are interested in the North Platte valley, write for our booklet describing it. It is free.

## He Didn't Care.

Housewife—My dear, I see a two-column article in the Sunday paper about how even flour is being adulterated.

Husband—Well, I don't care, nor need you. We can't get nothin' wrong with our stomach if we take Dr. Caldwell's Syrup Pepsin.

All druggists sell it, or see Keeling.

You may as well expect to run a steam engine without water as to find an active, energetic man with a torpid liver, and you may know his liver is torpid when he does not relish his food or feels dull and languid after eating often has headache and sometimes dizziness. A few boxes of Chamberlain's Stomach and Liver Tablets will restore his liver to its normal functions, renew his vitality, improve his digestion and make him feel like a new man. Price, 25 cents. Sample free at Keeling's drug store.

THE NORTHWESTERN AGRICULTURIST is the leading farm, livestock and home paper in the West. It interests every member of the family, having departments devoted to the interests of women as well as of men, on the farms in the Northwest. It is filled with instructive and interesting reading matter from beginning to end. Its various departments are under the charge of practical men, who have made a success of themselves on their particular line on which they are writing. Among the department editors who contribute regularly to The Agriculturist, are Prof. Thomas H. Harvey, Professor of Animal Husbandry at the Minnesota State Agricultural College, Professor Shaw edit the sheep, beef cattle and horse departments; A. K. Hayes, a dairyman from all over America as a practical and experienced dairy writer; Forest Henry, editor of the swine department, a man who has paid off mortgages by raising swine in Minnesota, and who is himself making money in swine raising now, not as a breeder but as a feeder of swine for market; A. B. Bush, in charge of the horticultural department, State Lecturer on Horticulture at the Minnesota Farmers' Institutes. These are only a few of the more important departments of the paper. Sample Copies will be sent free to all who are interested. The Northwestern Agriculturist is published semi-monthly, and already reaches over 50,000 farm homes twice a month.
