DEHORNING

John Flack has bought dehorning clippers and fitted up a chute and is now prepared to dehorn any number of cattle on short notice. He has the chute on wheels, so he can take it right with him. Give him a trial if you want any dehorning done. Satisfaction guaranteed.

'The Best is the Cheapest.'

Not how cheap, but how good, is the question.

The Twice-a-Week Republic is not as cheap as are some so-called newspapers. But it is as cheap as it is possible to sell a first class newspaper. It prints all the news that is worth printing. If you read it all the year round, you are posted on all the important and interesting affairs of the world. It is the best and most reliable newspaper that money and brains can produce—and those should be the distinguishing traits of the newspaper that is designed to be read by all members of the family.

Subscription price, \$1 a year. Any new dealer, newspaper or postmaster will receive your subscription, or you may mail it direct to

THE REPUBLIC,
St. Louis, Mo.

All our farmer readers should take advantage of the unprecedented clubbing offer we this year make, which includes with this paper The Iowa Homestead, its Special Farmers' Institute editions, and The Poultry Farmer. These three publications are the best of their class and should be in every farm home. To them we add for local, county and general news our own paper and make the price for the four for one year \$1.35. Never before was so much superior reading matter offered for so small an amount of money. The papers named which we club with our own are well known throughout the west and command themselves to the reader's favorable attention upon mere mention. The Homestead is the great agricultural and live stock paper of the west. The Poultry Farmer is the most practical poultry paper for the farmer published in the country, and the Special Farmers' Institute editions are the most practical publications for the promotion of good farming ever published. Take advantage of this great offer.
