On account of high water at Beatrice the passenger train only ran as far as Rockford Thursday. Both trains were about three and a half hours late.

W. H. Barker's seven-year-old son is very sick with acute Bright's disease of the kidneys—nephritis—caused by the after effects of an attack of scarlet fever.

The rainfall Monday and Tuesday amounted to 1.35 inches. Tuesday night and Wednesday morning it amounted to 2.85 inches—a total of 4.20 inches.

Miss Minnie Yates gave a party to some of her friends Wednesday evening. Fifteen guests were present and express themselves as having a delightful time.

W. H. Rider had a queer experience with a pig recently. He had a young sow in a pen by herself. A few days ago he noticed that the pig in that pen was a male and the sow pig had disappeared. As the pen was a tight board one with an opening in the side to pour slop into the trough, Mr. Rider had not paid any particular attention to the pig and does not know when the change was made, and has no idea who would do such a trick.

TECUMSEH OHAUTAUQUA

Opens July 12th and continues until July 20th. An excellent program has been prepared and the grounds are in excellent condition, but two blocks from the public square and but four blocks from the depot. Reduced rates over the railroads. The exercises each day will be diversified, instructive, entertaining and enjoyable. Secure a catalogue for information.

The Nemaha river is higher than it has been this season and is still rising this (Friday) morning. It is over the bottom south and west of Nemaha. Seymour Howe has lost 75 acres of wheat, all but seven acres of which was in the shock, and 50 acres of corn. Part of Mrs. Gilbert's wheat south of town is also gone, and August Quiller, Wm. Hawxby, Marshal Pryor and many others are losers. Harry Cole has lost his whole crop of wheat and corn, and Frank Hawxby is also a heavy loser.

Last Friday Mrs. Albert Sampson tied her horse to a freight car west of the depot while she went inside the depot. When the west bound passenger train started out it backed on the sidetrack, coupled on to the freight car and started backing it up to the elevator to get another car before any one noticed that a horse was tied to it. Eli Knapp saw the horse following the train and ran and untied the hitchstrap. A broken shaft was the only damage done. This is the second occurrence of the kind within a month.

J. B. Hoover says he attended his first Fourth of July celebration in Nebraska at Brownville forty-seven years ago last Friday. The celebration was held southeast of where the depot is now located, on ground that has long since been swallowed up by the Missouri river. Few are now living that attended that celebration. Mr. Hoover was then living with his father, Dr. Hoover, in a hewed log house located just north of where his present brick house stands. The brick house was built by Dr. Hoover in the summer of 1857—forty-five years ago. It is one of the best houses in Nemaha today. Mr. Hoover is probably better posted on the early history of Nemaha county than any other person, and could write an interesting story. He has promised us that if he ever gets time enough he will write a history of the settlement of Nemaha county. We hope he will soon find the time to do so.

This section was visited by the heaviest rain of the season Tuesday night, about four inches falling, which will make it very hard to save the wheat crop.
