## DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Birmingham, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

# THE FORD'S BLACK-DRAUGHT THE ORIGINAL LIVER MEDICINE

A sallow complexion, dizziness, biliousness and a coated tongue are common indications of liver and kidney diseases. Stomach and bowel troubles, severe as they are, give immediate warning by pain, but liver and kidney troubles, though less painful at the start, are much harder to cure. The Ford's Black-Draught never fails to benefit diseased liver and weakened kidneys. It stirs up the torpid liver to throw off the germs of fever and ague. It is a certain preventive of cholera and Bright's disease of the kidneys. With kidneys reinforced by The Ford's Black-Draught thousands of persons have dwelt immune in the midst of yellow fever. Many families live in perfect health and have no other doctor than The Ford's Black-Draught. It is always on hand for use in an emergency and saves many expensive calls of a doctor.

Mullins, S. C., March 10, 1901.  
 I have used The Ford's Black-Draught for three years and I have not had to go to a doctor since I have been taking it. It is the best medicine for me that is on the market for liver and kidney troubles and dyspepsia and other complaints.

### ALL RETURN HOME TO JAIL.

Convicts in Hawaii Do Not Make Any Effort to Escape from Durance.

"The most unique method for handling petty violators of the law," remarked a gentleman in Washington to a Post representative, "is in daily operation at Hilo, the capital of the island of Hawaii. I was seated on the porch of the Hilo hotel one day last winter trying to evade the mosquitoes and the sunshine, when I noticed a score of natives in striped canvas uniforms break into a dead run in the direction of the jail. The heavy iron doors swung open to admit them and they filed in one by one to become prisoners for the night. I learned later that these men were 'short-term' convicts, and that their hurry was inspired by fear that they might be 'locked out of jail.'

"But how did they escape?" he was asked.  
 "Escape?" repeated the narrator. "They did not escape, they were turned loose at seven in the morning and instructed to report behind the bars at five in the afternoon. Let me explain: An alleged criminal is tried, convicted and sentence passed upon him. Should his term exceed one year he is confined in a cell on the third floor of the jail, from which escape is practically impossible. If he is a 'short-term' man, however, he is fitted up with a blue and white striped canvas suit and hired out by the day to contractors or the managers of neighboring plantations. His wages, usually 25 cents per day, are paid to the city. These fortunate convicts are both fed and lodged in jail, and in addition to their clothes are allowed a small ration of tobacco. Every morning after breakfast they may be seen embarking on their duties. They are not guarded in any manner, shape or form—in fact, it resolves itself into an extreme case of honor among thieves."

"It isn't once in a year that escape is even attempted, and the records in the county jail show but one instance where such an attempt has been successful. It is amusing to see these belated culprits running at the top of their speed for fear the doors of this novel institution will be closed against them. Those that may arrive later are admitted through another entrance and an additional three or four days are added to their term as punishment for their tardiness."

"How do you account for this peculiar system being still in vogue?" was asked.  
 "It exists merely because of its efficiency. Hilo is a coast town; the Pacific ocean guards it safely on the east, while to the westward there is nothing but the high road and the jungle. The jungle and the sea mean death and the high road capture; so you see there is a stronger force than honor which impels the return of the convict to his prison home."

### PITH AND POINT.

To some people a small daily income is better than a large fortune.—Chicago Daily News.

First and Last.—Casper—"Among the ancient doctors bleeding the patient was the first operation in treating a case." Charlie—"And now it's the last."—Harvard Lampoon.

The man who is clever in scheming to get invitations in his youth, will find his cleverness valuable in scheming to get out of accepting them in his old age.—Atchison Globe.

He Was Easy—"It's easy enough to make friends," said Spenders, bitterly, "but pretty hard to keep them." "Oh, I don't know," replied Landers. "I've got a number of friends who seem perfectly willing to let me keep them."—Philadelphia Press.

Living Versus Rooming.—Stranger—"How many people live in this city?" Citizen—"About 200,000." "So? I had thought you had a population of at least 300,000." "Oh, so we have. But only two-thirds of them live. The rest room and board."—Baltimore American.

Mother—"Have you any waterproof boots for a boy?" Salesman—"We have waterproof boots, ma'am; but they are not for boys." Mother—"Why don't you have some for boys?" Salesman—"When somebody has invented a boot that has no opening for the foot to get into it, we may hope for boys' waterproof boots, not before."—Boston Transcript.

Still Useful.—"Yes, poor old sport, when he had money he had a good time, but he went broke." "Then starved?" "I should say not. He secured a splendid position in a swell boarding house." "What doing?" "Just has to sit around the boarding house parlor posing as the star boarder, meanwhile complaining loudly before prospective boarders about the bad case of gout contracted there."—Baltimore Herald.

### MODEL PHILIPPINE ROADS.

Forty-Mile Stretch Lately Completed by American Enterprise in Batangas Province.

The solution of roadmaking problems that is going on in the province of Batangas, on the island of Luzon, under the direction of Gen. J. Franklin Bell, has been thorough and rapid during the last season. Under Spanish rule the roads were entirely neglected, and during a large part of the year following the rainy season the thoroughfares were wholly impassable. The laboring people during this period were thrown out of work, and the whole province suffered severe loss in nearly every industry, says a Washington report.

Gen. Bell set to work early last season to remedy the situation, and has now completed more than 40 miles of macadamized road in one straight stretch, giving the region a thoroughfare over which communication with the outside world may be maintained the year through. This road runs from Calambas, in Laguna province, to Batangas, in Batangas province. There is a gap of ten miles, which will be built before the year is out, giving 50 miles of good roads such as the Philippines never saw before outside of Manila.

Gen. Bell has decided to use a novel means of transportation over his new road. That is, to run regular trains of wagons hauled by traction engines. Passengers and freight are to be taken at a nominal rate, and the trains will be run on schedule time. Two or three side lines will be built in the course of next year. The engines and cars will have wide tires, and so will improve the road with use. The speed to be made will be about five miles an hour. The road fund derived from the yearly taxes is to be applied to connecting these macadamized roads with the one already built.

Gen. Bell has asked the island government to procure and sell to the natives at cost price carts with wide tires and with wheels revolving on axles. The native cart has narrow tires and the wheels are solid on the axles, the latter revolving with the wheel in two wooden pins in the box of the vehicle. The effect of such carts on a roadbed is to cut and gouge it as if the cart were a plow. Gen. Bell asks that every old cart in the province be displaced by the new ones, which will be offered to the natives at a low price and on long time. Otherwise it is proposed to tax the narrow-tired carts heavily.

### SEVERE ATTACK OF GRIP

Cured by One Bottle of Chamberlain's Cough Remedy

"When I had the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry Editor of the Enterprise, Shortville, N. Y. "This is the honest truth. I at times keep from coughing myself to pieces by taking one teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would or could knock out the grip simply because I had never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bade me adieu." **Cures When Doctors Fail**  
 Mrs. Frank Chasson, Patterson, Ia., writes June 8th, 1901: "I had malarial fever in a very bad form, was under treatment by doctors, but as soon as I stopped taking their medicine the fever would return, I used a sample bottle of Herbine, found it helped me. Then I bought two bottles, which completely cured me. I feel very grateful to you for furnishing such a splendid medicine, and can honestly recommend it to those suffering with malaria, as it will surely cure them." Herbine, 50c bottle at Hill's.

**Spring Ailments**  
 There is an aching and tired feeling, the liver, bowels, and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite no ambition for anything and a feeling that the whole body and mind needs toning up. The trouble is, that during the winter, there has been an over-accumulation of waste matter in the system. Herbine will remove it, secure to the secretions a right exit, and give strength in place of weakness. 50c at Hill's.

### The Easy Pill

Dewitt's Little Early Risers do not gripe nor weaken the system. They cure biliousness, jaundice, constipation, and inactive liver, by arousing the secretions, moving the bowels gently, yet effectually, and giving such tone and strength to the glands of the stomach, liver and bowels that the cause of the trouble is removed entirely. These famous little pills exert a decided tonic effect upon the organs involved and if their use is continued for a few days there will be no return of the trouble.—W. W. Keeling.
