We notice by the Falls City Journal of last week that a marriage license has been granted to James T. Cozard and Miss Mary Majors, both of Verdun. The bride was formerly the wife of Will Flack, getting a divorce a few months ago and resuming her maiden name.

Group No. 1 of the Nebraska Bankers' association, comprising Richardson, Pawnee, Nemaha, Johnson, Otoe and Cass counties, was to have met at Falls City on Wednesday, but Elmer E. Allen could not attend, and the meeting was postponed until in July. Elmer had more important business on hand.

The meeting of those interested in having the channel of the Nemaha river straightened, held at Auburn Monday, did not do anything except talk and find out the differences of opinion, the various plans and the difficulties presented. Some were in favor of making a straight channel from the Otoe county line to the mouth of the Nemaha. The present course of the river is one hundred miles, with a fall of one foot to the mile. The proposed course would be only twenty-one and one-half miles, with a fall of nearly five feet to the mile. But this would cost an immense sum and would necessitate the county rebuilding all the bridges across the river with two exceptions. The most feasible plan is to cut across the neck of land where the river makes large bends. This would not cost a great amount and would shorten the course a great deal. We suppose other meetings will be held and some decision arrived at.

One Minute cough cure gives relief in one minute, because it kills the microbe which tickles the mucous membrane, causing the cough, and at the same time clears the phlegm draws out the inflammation and heals and soothes the affected parts. One Minute cough cure strengthens the lungs, wards off pneumonia and is a harmless and never failing cure in all curable cases of coughs, colds, and croup. W. W. Sanders, editor of the Nemaha Advertiser, has been appointed postmaster, vice Miss Minick, resigned. Mr. Sanders is a most agreeable and courteous gentleman and will undoubtedly make an ideal postmaster.—Auburn Herald.

I. N. Cooper last Saturday resigned as a member of the board of village trustees and street commissioner. His resignation was accepted and Miles Knapp was appointed to fill the vacancies, but he thought he had troubles of his own and refused to accept.

It rained almost every day last month. Monday and Tuesday of last week there was an inch and a half of rainfall, and then a shower Wednesday evening, and yet farmers were in their fields plowing Thursday afternoon of last week. What country can equal Nebraska?

A large farm house in the extreme southeastern part of the county, on the Ludwig farm, came near going into the Missouri river on account of the banks caving in. F. L. Woodward, who is agent for the place, sent James M. Burns down to have it moved back from the river.

The editor had some experience with mud last Saturday. In company with A. F. Walsh we drove down to Alf B. Kinton's farm. Alf was plowing corn across the creek from the house and we waded through the low land to see him, going in mud over our shoe tops. Alf seemed quite pleased to see us—at least he smiled audibly when he looked at our shoes. From there we drove over to J. H. Seid's. From Henry's house to the small bridge east is about the worst mud hole we ever saw. We got through all right but on coming back the harness broke in three places while we were in the worst part of the mud hole. We got out in mud half way to our knees, got the horse out to dry land, patched up the harness a little, waded back to the buggy and got it out, and went on our way rejoicing that things were no worse. Then we drove around to Seymour Howe's, and were coming back when one shaft gave way. It had evidently been broken in the wreck near Henry Seid's. After patching this up we got home without any more accidents, and proceeded to wash off the mud and change clothes.

Foley's Honey and Tar is peculiarly adapted for asthma, bronchitis and hoarseness.—M T Hill.

The Easy Pill

Dewitt's Little Early Risers do not gripe nor weaken the system. They cure biliousness, jaundice, constipation, and inactive liver, by arousing the secretions, moving the bowels gently, yet effectually, and giving such tone and strength to the glands of the stomach, liver and bowels that the cause of the trouble is removed entirely. These famous little pills exert a decided tonic effect upon the organs involved and if their use is continued for a few days there will be no return of the trouble.—W. W. Keeling.

The news on the "patent" side of The Advertiser is stale again this week. We get the patent part of the paper printed at Kansas City, but on account of the flood in that city the company ordered the edition for last week printed and shipped from St. Louis. This paper, which should have arrived Wednesday of last week, did not get here until Monday evening of this week. We hope this is the last week of our troubles in this line, as the trains are now running regularly.

For Those Who Live on Farms

Dr. Bergin, Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommend it to my friends, and I am confident that there is no better made. It is a dandy for burns. Those who live on farms are especially liable to many accidental cuts, burns and bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency. 25c, 50, and \$1 00 at Hill's."
