In order to get a pound of the new luminous metal, radium, 5,000 tons of mineral formations must be treated. The present quotation of radium is \$2,700,000 a pound, and the world's stock amounts to two and a half pounds.

It will not be the fault of St. Louis juries if justice is defeated in the boodle cases. Of the fifteen persons tried fourteen have been convicted, and the one acquitted was let free by the court without any deliberation on the part of the jury.

A St. Louis jury found Jere Hannigan, former member of the house of delegates, guilty of bribery, and fixed his sentence at five years in the penitentiary. Since March 27, 1902, fifteen persons have been convicted of bribery or perjury.

Walter Vrooman is interrupted in his work of uplifting mankind by a petition for divorce from the woman who has given him one-third of her fortune to aid him in his philanthropic schemes. Neither the course of true love nor the course of true philanthropy runs smooth.

Sneers are no longer heard in England or on the continent against the new diplomacy of which America is the chief exponent. The wholesome discovery has been made that there is one nation which will not tolerate deception or evasion of pledges by any power with which it has had dealings.

At a Lake Erie port the other day a cargo of 5,300 tons of ore was discharged in five hours and forty minutes, which is the greatest feat performed thus far with unloading machinery. Under the former system it would have taken 250 men two days to discharge a cargo of 5,000 tons. Thirty men can do it now in one-eighth the time.

With a reasonable certainty that immigration to the United States will reach a total of nearly 1,000,000 for the fiscal year now so near its close, the problem of our rapidly increasing alien population becomes more serious than ever. The class of immigrants coming to this country at the present time is not entirely desirable. It is not of the quality that makes good citizens.

"There is a great quantity of unfavorable nonsense perpetrated upon the question why the masses do not throng and crowd the churches," said Rev. Charles H. Parkhurst in a recent sermon. "It is not the fault of the masses. People will fill the churches as fast as God fills the ministers. They went away out in the wilderness in the days of John the Baptist, and they will still track a prophet anywhere."

Secretary Wilson now says that in certain districts of the south soil has been found which has been shown, by analysis, to possess the same qualities as that in Cuba on which the finest tobacco is raised. The land which he is convinced can be made to produce tobacco equal in quality to Cuban is in Alabama, South Carolina and Texas, and the secretary says he believes that it will be found also in Mississippi, Louisiana and Florida.

It is said there is an element of romance in Sir Thomas Lipton's persistence in endeavoring to "lift" the America's cup, in which a beautiful and accomplished woman occupies a conspicuous place. Rumor has it that Sir Thomas has received a conditional promise of the hand of the lady whenever he is able to lay at her feet the trophy carried away by the yacht America half a century ago. Here's success to you, Sir Thomas.

Each day's news confirms the story of terrible atrocities against the Jews in Russia. First reports were so horrible that they were not fully credited, but the details of the Kischineff massacre have grown worse as intelligent witnesses find an opportunity to describe them. It is stated that the leaders in the frightful riot of murder belong to the "cultivated class," who, for selfish reasons, spread the creed of insane hatred against the Jews and rejoice in barbaric outrages heaped upon the race.

The governor of Kischineff is said to have delivered an address to the Jewish people gathered around the newly-made graves of their relatives in which he declared that "there are too many Jewish people here. I could send you all away, but have decided not to do so under the circumstances. However, you must forget and forgive. I know that you are law-abiding citizens. It is not your fault that this terrible catastrophe has come on you but instead the fault of your ancestors, for whose sins you are compelled to suffer. It is God's will. You ought to be satisfied."

The relation of woman's nerves and generative organs is very close; consequently nine tenths of the nervous prostration, nervous dependency, "the blues," sleeplessness, and nervous irritability of women arise from some derangement of the organism which makes her a woman. Herein we prove conclusively that Lydia E. Pinkham's Vegetable Compound will quickly relieve all this trouble.

"DEAR MRS. PINKHAM:—I have been ailing from female trouble for the past five years. About a month ago I was taken with nervous prostration, accompanied at certain times before menstruation with fearful headaches. Pinkham's Vegetable Compound, experienced by lady sufferers, I commenced its use and am happy to state that after using a few bottles I feel like a new woman, aches and pains all gone. I am recommending your medicine to many of my friends, and I assure you that you have my hearty thanks for your valuable preparation which has done so much good. I trust all suffering women will use your Vegetable Compound."—MRS. MINNIE TIETZ, 620 First Ave., Eau Claire, Wis. (May 28, 1901).
