

## BUCKSHOT FOR MOB.

Sheriff at Danville, Ill., Protected Life of Negro Prisoner.

James Wilson, Who Assaulted a White Woman, Saved for a Time at Least, But Another Negro Was Lynched and Incarcerated.

Danville, Ill., July 27.—A mob Saturday tried to batter down the doors of the jail in order to lynch James Wilson, a negro, who attacked Mrs. Thomas Burgess, a farmer's wife, at Alvan, Ill. The sheriff and his guards fired into the mob and several were wounded. One negro, J. D. Mayfield, who was on the street, was set upon by the mob on its way to the jail. He was lynched and his body burned. He shot and killed one of those who attacked him. Four other negroes caught upon the street were beaten into unconsciousness in the gutter.

Company K, a negro troop, has its headquarters here and the officials prepared to call it out. Leaders of the mob declared they would try to kill the entire company if it came out. Half of the company assembled and barricaded for fear of an attack.

Two killed and 22 wounded, the police station wrecked, the county jail with few of its windows left unshattered, the city in the hands of the state troops and a feeling of uneasiness and dread prevailing everywhere is the situation left by the race riots of Saturday night and early yesterday morning. After daylight appeared yesterday morning there were restless crowds on the streets. Hundreds of farmers peered into the city and each surrounding town continued to swell the crowd. There were many miners seen on the streets. Great unrest and a threatening attitude was reported from Westville, five miles away. Early in the morning Wilson, the alleged negro assailant of Mrs. Burgess, was secretly taken from the county jail, but was returned shortly afterwards.

He first entered the rooms over the restaurant of O. E. Houck where the latter was taking a bath. He commanded Houck to make no outcry and rifled his pockets of \$7.50. The thief then went to Rehlender's drug store and broke in the rear door while the clerks were watching the parade of Ringling's circus, opened the safe and got \$38. A clerk was standing behind the soda water fountain at the time but the robbery was not discovered until ten minutes later when the robber had disappeared. The police are baffled.

Japan has not the least intention of taking that course."

Lee became involved in a quarrel with Ellis Woods and the latter's son and the shooting followed, in which the preacher proved himself more than a match for both of his opponents, for he succeeded in killing Woods and fatally wounding his son. The "fighting parson" was then arrested and taken to the jail at Liberty, where he peacefully returned thanks at the table with the other prisoners.

## Hungry and Penniless.

St. Louis, July 25.—Fred Nuttall, an Englishman living in New York city with his wife and two children, who recently went to Kansas because of the alluring offers of high wages for harvesters, arrived in St. Louis last night on his return trip, hungry and penniless. He asserted that the plight of the eastern college students who also went to Kansas as temporary harvesters is extreme. His last knowledge of them is that they were out of money and there was no employment in sight. They looked like tramps and some wept in distress.

## HERE AND THERE.

Germany exports about \$5,000,000 worth of electrical goods to Russia annually.

Mexico raises 50,000 bales of the 100,000 bales of cotton used each year in that country.

Capital punishment was abolished in Italy since 1875. Since then murders have increased 42 per cent.

There are 107,845 dressmakers employed by firms in London. The highest wages obtainable—except in the case of about a dozen heads of departments—are 18 shillings a week.

The French colonial party wish the port of Diego-Sauriez, a fine natural harbor at the extreme north of Madagascar, made a Gibraltar, from which France could dominate the Indian ocean.

Biebrich-on-the-Rhine is becoming a great rival of Italy in the manufacture of macaroni, the Germans claiming cleanliness and nutritive value as the chief recommendations for the Biebrich article. Formerly Italy's climate, cheap wheat and air-drying facilities aided the Italian manufacturer, but superior labor-saving machinery has brought the Biebrich article a great competing trade.

Paris now boasts a "man with steel hands." Admitted to a hospital the other day at his own request, he was examined by a student, and pronounced to be absolutely well. He thereupon seized the student's hand and squeezed it till he literally crushed the fingers to show his appreciation of the welcome intelligence. On being removed to a police station he broke a thick log of wood in two, bent a pair of pincers with his fingers, and burst a rope wound ten times round a barrel.

## HOUSEHOLD SUGGESTIONS.

String beans make an acceptable salad.

Dry flour and an old newspaper will polish up tinware.

Water should be used when it first boils, or it becomes flat.

Marinate or marinate means to pickle or cover with vinegar for a certain time.

Use hot instead of cold milk for your mashed potatoes and note the difference.

Potatoes au gratin are simply potatoes cut, mixed in cream sauce, baked in the oven and served in the dish in which they are cooked.

Children's soft felt hats that have become soiled may be put through the tubbing process with manifest advantage. Wash on the board just the same as you would a pair of stockings, rinse in water of the same temperature and lay on the grass or a bush to dry.

Mirrors are never so well cleaned and polished as when wet newspapers are used for the first process and soft, dry, crumpled papers for the last. If the mirrors are very much soiled, with fly-specks, for instance, but ammonia in the water. Soap should not be used at all.

## TRADE TOPICS.

For the first time in 25 years, cane sugar is being exported from Cuba to England.

Sixty million barrels of kerosene were produced in the United States. The proceeds from the sale of this and the byproducts obtained from petroleum are estimated at \$500,000,000.

Six million dollars' worth of shoes have been sold abroad by American shoemakers within a year. This shows the exports in that line to have multiplied by 12 in ten years. Mexico, Cuba and Canada each bought about \$500,000 worth, and nearly all the remainder went to Great Britain.

## FOR TWENTY YEARS MAJOR MARS SUFFERED FROM CATARRH OF THE KIDNEYS.

## DANGEROUS KIDNEY DISEASES CURED

Per-una Creating a National Sensation in the Cure of Chronic Ailments of the Kidneys.

Major T. H. Mars, of the First Wisconsin Cavalry regiment, writes from 1425 Dunning street, Chicago, Ill., the following letter:

"For years I suffered with catarrh of the kidneys contracted in the army. Medicine did not help me any until a comrade who had been helped by Per-una advised me to try it. I bought some at once, and soon found blessed relief. I kept taking it four months, and am now well and strong and feel better than I have done for the past twenty years, thanks to Per-una."

At the appearance of the first symptom of kidney trouble, Per-una should be taken. This remedy strikes at once the very root of the disease. It at once relieves the catarrhal kidneys of the stagnant blood, preventing the escape of serum from the blood. Per-una stimulates the kidneys to excrete from the blood the accumulating poison, and thus prevents the convulsions which are

sure to follow if the poisons are allowed to remain. It gives great vigor to the heart's action and digestive system, both of which are apt to fail rapidly in this disease. Per-una cures catarrh of the kidneys simply because it cures catarrh wherever located. If you do not derive prompt and satisfactory results from the use of Per-una, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.
