**SEVERE ATTACK OF GRIP**  
Cured by One Bottle of Chamberlain's Cough Remedy

"When I had the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry Editor of the Enterprise, Shortville N. Y. "This is the honest truth. I at times keep from coughing myself to pieces by taking one teaspoonful of this remedy, and when the coughing would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I had never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bade me adieu." **NOTICE TO MOW WEEDS.**  
All land owners are notified to mow weeds on roadsides in accordance with law, or overseer will have same mowed and charged up against land.  
J. M. CLARK,  
Road Overseer, Dist. 32.

The fourth quarterly meeting of the Brownville and Nemaha charge of the M. E. church was held at Nemaha Saturday night and Sunday morning. The business meeting was held Saturday night. Sunday morning the presiding elder, Dr. J. S. W. Dean, preached a fine sermon.

President Christy of the state horticultural society was in town yesterday, and brimming over with smiles and graciousness as he stopped off at the state house to stir up enthusiasm for the state meeting, which will be held at Fremont today. The cause of his satisfaction is his ability to raise strawberries of such mammoth proportions that eighteen of them sufficed to fill the ordinary quart basket of commerce. This is only a beginning, he says. For the honor of Nebraska and for the purpose of checking the arrogance of the strawberry growers of Missouri, who have grown berries that would fill the basket when eleven had been placed therein, Mr. Christy is now grooming some of his record breaking plants for the production of berries of such magnitude that nine will suffice to fill a basket. These berries will be exhibited at the St. Louis exposition.

According to the statement of the Nemaha county man the small fruit growers of Nemaha county have had a very prosperous season. He said that the late frost during the spring had killed forty per cent of his blossoms, with the result that the thinned blossoms produced berries so much larger in size that he realized a 110 per cent crop. Growers have found a ready market for everything they could raise of good price. —Lincoln News

It is concluded that the present county officials will be renominated, with the exception of County Treasurer Geo. E. Codington, who has served four years and is not eligible to reelection, the exception of County Judge R. F. Neal and the probable exception of County Superintendent Parriott. The fusionists will nominate for treasurer Chas. Anderson, who has been deputy for the past four years. There are several candidates for the republican nomination—L. N. Kuper, D. J. A. Dirks and Dick Rogge that we have heard mentioned, all from the west part of the county.

For county assessor, the new office created by the last legislature, E. J. Maxwell is the only candidate we know of outside of Auburn, and stands a good show for the nomination.

For county superintendent the republicans will probably renominate Geo. Carrington, the candidate two years ago. He made an exceptionally good race under the circumstances. We understand the present incumbent, W. C. Parriott, will not be a candidate for reelection. Prof. Hydebrand of Johnson is the probable fusion candidate.

County Judge Neal could easily be renominated and reelected, but he has decided on retiring. B. F. Neal and M. S. McNinch are aspirants for the republican nomination. F. G. Hawxby has been spoken of as the fusion candidate.

**THE MISSOURI CHANGES AGAIN**  
SIOUX CITY, Ia., July 22.—The Missouri river has again robbed Nebraska to pay Iowa. This time Liberty township, in this county, has been made \$100,000 richer by the addition of a big peninsula of land. This was accomplished by an act of evulsion by the river, which scorned longer to run around the bend. It was but a few rods across the neck of the land and several miles around. The river, which has been high, went through the neck in a single night. As a result the thousands of acres inside the bend are now on the Iowa side, and a lake seven miles long has been created. This has already been named Lake McLaughlin.

Because the Missouri changes its channel suddenly, all this land inside the bend continues to belong to Nebraska. Accretion and not evulsion transfers land from one state to another. As a matter of fact, it is the Nebraska farmers who have been enriched, for the bend has been formed from accretions to their land. Now it is thrown back in Iowa, but by evulsion, so it continues to belong to the Nebraska owners. —Nebraska City News.

**Cures When Doctors Fail**

I feel very grateful to you for furnishing such a splendid medicine, and can honestly recommend it to those suffering with malarial, as it will surely cure them." Herbine, 50c bottle at Hill's.
