

Women who work, whether in the house, store, office or factory, very rarely have the ability to stand the strain. The case of Miss Frankie Orser, of Boston, Mass., is interesting to all women, and adds further proof that woman's great friend in need is Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I suffered misery for several years. My back ached and I had bearing down pains, and frequent headaches. I would often wake from a restful sleep in such pain and misery that it would be hours before I could close my eyes again. I dreaded the long nights and weary days. I could do no work. I consulted different physicians hoping to get relief, but, finding that their medicines did not cure me, I tried Lydia E. Pinkham's Vegetable Compound, as it was highly recommended to me. I am glad that I did so, for I soon found that it was the medicine for my case. Very soon I was rid of every ache and pain and restored to perfect health. I feel splendid, have a fine appetite, and have gained in weight a lot."—MISS FRANKIE ORSER, 14 Warrenton St., Boston, Mass.

Surely you cannot wish to remain weak, sick and discouraged, and exhausted with each day's work. Some derangement of the feminine organs is responsible for this exhaustion, following any kind of work or effort. Lydia E. Pinkham's Vegetable Compound will help you just as it has thousands of other women.

The case of Mrs. Lennox, which follows, proves this.

"DEAR MRS. PINKHAM:—Last winter I broke down suddenly and had to seek the advice of a doctor. I felt sore all over, with a pounding in my head, and a dizziness which I had never experienced before. I had a miserable appetite, nothing tasted good, and gradually my health broke down completely. The doctor said I had female weakness, but, although I took his medicine faithfully, I found no relief.

"After two months I decided to try what a change would do for me, and as Lydia E. Pinkham's Vegetable Compound was strongly recommended to me I decided to try it. Within three days I felt better, my appetite returned, and I could sleep. In another week I was able to sit up part of the day, and in ten days more I was well. My strength had returned, I gained fourteen pounds, and felt better and stronger than I had for years. I gratefully acknowledge its merits. Very sincerely yours, Mrs. BERT E. LENNOX, 120 East 4th St., Dixon, Ill."

MASSAGE HEART TO LIFE.

Death from Anaesthetic Thrice Defeated by Marvelous Operation.

Massaging back to life a human heart that has ceased to beat is the marvelous operation three times successfully performed by modern surgery. A Philadelphia physician, Dr. W. W. Keen, is authority for the statement that two of the people thus brought back from the gates of death are now alive and healthy.

If this operation is finally established as a successful feature of surgery, both laymen and scientists look forward to the following important results:

1. A material lessening of the number of deaths which occur while the patient is under the influence of ether or chloroform.

2. The possibility of a remedy and a cure for that dreaded and mysterious ailment known to science as catalepsy.

3. A removal of the awful dread of being buried alive.

Dr. Keen does not stand sponsor for all these claims. But he does assert that life apparently extinct has been renewed by continuing the heart's closed pulsation through massage. In a case recently reported the patient was to all intents and purposes dead. The heart had ceased to beat, breathing had stopped, and the collapse from chloroform was apparently complete. Death had been apparent to the physicians and nurses for five minutes before an operation was undertaken. Then the surgeon in charge deliberately cut open the diaphragm, reached for the heart, and employed the massage treatment. At the end of five minutes, after repeated chatting, the heart resumed its beating, and respiration was restored by artificial means. In two other recorded cases the patients were brought back to life and the operation was entirely successful.

It is related that some of the great surgeons of Europe who have been working upon this theory have spent many years in experimenting on dumb animals. In quite a number of their cases the hearts of dogs that have been frozen for fifty hours after the supposed death have had their pulsation restored by massage.

Physicians shake their heads over the possibility of the new treatment being applied to restore those attacked by catalepsy. But if it could be employed in this way it would remove one of the awful terrors of that disease, the fear of being buried alive. So great is this terror that men have asked that a knife be plunged through their heart to make death absolutely certain.

GET "SEA SICK" ON LAND.

People Traveling Affected by the Action on Eye Muscles.

"It's strange," said the sage of Lincoln park, who had been looking at some of the animals just recovering from their long voyage across the Atlantic, "how little it takes to make some folks sea sick. There is reason to believe that the action upon the eye muscles of the rapidly changing parallax and the quick passage of objects that are met and left have much to do with the production of tired feelings and of headaches caused by long journeys, and great relief is often experienced by simply closing the eyes or by refraining from looking out of the windows.

"Road legs have to be acquired as much as sea legs and in the various forms of locomotion, from the jolting omnibus to the quick-stopping air-braked trains, frequent opportunities arise for estimating the varying amounts of agility, clutching of stray straps and compensating bodily movements made by the cognoscenti in the particular class of vehicle of which they are for the time endeavoring to form an integral part. That all forms of traveling are tiring is evident from the common tendency to sleep in railway carriages.

"The vagaries of the traveling public are curious; some cannot ride except facing the engine or the horses, others cannot travel at all by railway, some have faint feelings when going at a high speed, others are made actually sick, and we have known the utmost confusion caused to some unfortunates by the seats opposite the direction in which the train is moving being occupied, though, curiously enough, the same feeling is not set up when the passenger can have a seat placed parallel with the direction of progress."

Somewhat Different.

"Riches," remarked the man with the quotation habit, "have wings." "Oh, I don't know," rejoined the contrary party. "My money seems to have feet." "Feet?" echoed he of the prelude. "Yes; at least it frequently runs but," explained the other.

Strong Language.

Fredericksburg, Ind., June 20.—Rev. Enoch P. Stevens of this place uses strong language in speaking of Dodd's Kidney Pills, and he gives good reasons for what he says:

"I can't praise Dodd's Kidney Pills too much," says Mr. Stevens. "They have done me so much good. I was troubled with my Kidneys so much that I had to get up two or three times in the night and sometimes in the day when starting to the water house the water would come from me before getting there. Two boxes of Dodd's Kidney Pills cured me entirely."

"I have recommended Dodd's Kidney Pills to many people and have never yet heard of a failure. Dodd's Kidney Pills are the things for Kidney Disease and Rheumatism."

Dodd's Kidney Pills always cure the Kidneys. Good Kidneys ensure pure blood. Pure blood means good health.

FOOD FACTS.

What an M. D. Learned.

A prominent physician of Rome, Georgia, went through a food experience which he makes public:

"It was my own experience that first led me to advocate Grape-Nuts food, and I also know from having prescribed it to convalescents and other weak patients that the food is a wonderful builder and restorer of nerve and brain tissue, as well as muscle. It improves the digestion, and sick patients always gain just as I did in strength and weight very rapidly.

"I was in such a low state that I had to give up my work entirely and go to the mountains of this State, but two months there did not improve me; in fact I was not quite as well as when I left home. My food absolutely refused to sustain me, and it became plain that I must change; then I began to use Grape-Nuts food and in two weeks I could walk a mile without the least fatigue, and in five weeks returned to my home and practice, taking up hard work again. Since that time I have felt as well and strong as I ever did in my life.

"As a physician who seeks to help all sufferers I consider it a duty to make these facts public." Name given by Postum Co., Battle Creek, Mich.

Trial 10 days on Grape-Nuts when the regular food does not seem to sustain the body will work miracles.
