It is of the order of oats or barley, so far as feed is concerned, and if it does well will certainly be a valuable addition to our small grain crops.

Every housekeeper should know that if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz.—one full pound—while all other Cold Water Starches are put up in ½ pound packages and the price is the same, 10 cents. Then again because Defiance Starch is free from all injurious chemicals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that the Defiance Starch has printed on every package in large letters and figures "16ozs". Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance never sticks.
