Although the Missouri river, where there is plenty of sand, is close to Nemaha, yet the contractor for the Peabody residence had to ship sand in from Louisville, Nebr. It so happened that when sand was wanted the road to the sand bank was impassable on account of frequent rains. The sand cost \$6 and the freight was \$34. We received a very pleasant call Monday from Mr. E. Lyanna, one of the wealthiest land owners living near Prairie Union. Mr. Lyanna although 73 years of age is still hale and hearty and no one would take him to be so old. Mr. Lyanna is an old time printer and in his younger days had quite a varied experience in this state. In the year 1854, the first paper in Nebraska called "The Nebraskan," was published at Omaha, then a little village about the size of Shubert. Mr. Lyanna set the type for the first issue of the paper and staid with the paper for some time. Then he came to Nebraska City and helped Thos. Morton on the first paper printed there, staying until the Press was upon its feet. Sometime later, Gov. Furnas, then a young man, became desirous of newspaper experience, established the Advertiser, the first paper printed in Brownville, and of course Mr Lyanna was secured as the typographical artist to set the first type on the same and place it upon its feet. There he staid for quite awhile, only quitting to become a farmer. Mr Lyanna is a genial, sociable old gentleman and in conversation often recalls the time when he was only a printer boy on the desert side of the Missouri river.—Shubert Citizen.
