Mrs. A. L. P. Thompson's Sunday school class, the infant class in the Champion Sunday school, went home with Mrs. Thompson and spent several hours at the pleasant home of their teacher. They gave her a number of nice little presents to show their appreciation for her work. Master Johnnie and Clyde Argabright, Floyd and Warren Stephenson, Jean and Charlie Russell, Johnnie Hawxby, and Misses Nannie Day, Muri Argabright, Helen Hawxby and Winnie Colerick were present. All had a pleasant time.

Nemaha Chapter No. 76, Order of Eastern Star, had a special meeting last Friday night, on the occasion of the visit of the Grand Matron, Mrs. Mary E. Haggard of Nebraska City. Mrs. Haggard examined the lodge as to proficiency in the lodge work and familiarity in the constitution, laws, usages, etc., and then gave a fine talk on the order. After adjournment of lodge an oyster supper was served. The members enjoyed the visit of the Grand Matron very much, and will benefit by virtue of her instructive and encouraging talk.

Some discussion is being indulged in as to what is best to do about keeping the little tots in to study at school. The primary teacher has been dismissing the younger scholars at recess forenoon and afternoon. There are over fifty pupils in a small room, and it is claimed by the teachers that better work can be accomplished by giving the little ones their work before recess and then dismissing them and giving all the time and attention to the older pupils. Some of the parents differ from this opinion and believe more good could be done and the children would learn faster by having longer school hours. As we are not an expert and have made no study of these conditions, we will not express an opinion as to which opinion is correct.

Bucyrus, O., Jan. 5.—Postmaster Hall of this city has a ruling from the government which is of interest to every community where the rural free delivery system is in force.

A local carrier found in a mail box on his route two letters that were intended for owner of the box and had been put in there by some one in passing. The letters were confiscated and sent to the government at Washington for a ruling. The government approved the action of the carrier and said that all mail found in any box without stamps or the proper amount of money for postage must be collected and taken to the postoffice from which the route is taken and held for postage. This ruling means that the owner of the mail box has absolutely no control over it.

The most practical article on the subject of farm drainage we have ever read was published in this week's Homestead. It is entitled "Location of Tile Drains," and is from the pen of Prof. W. H. Stevenson, soil specialist of the Iowa Agricultural College. Professor Stevenson points out the errors that men fall into in draining their land and gives directions for the location of drains so that water is removed with the least possible outlay for labor and for tile. Special attention is given to adequate outlets and to the location of drains in draws and sloughs. The Homestead, which prints a number of such special articles by experts in each of its issues, is making itself indispensable to the up-to-date farmer. We are glad to see its circulation increasing in Nemaha county; for it is the best and most practical farm paper in the United States, especially for farmers in the corn belt. We are glad to help along the cause of good farming by receiving Homestead subscriptions at this office. Subscribe today.

We will send the Advertiser, the weekly Lincoln State Journal, the Iowa Homestead, the Farm Gazette and the Homemaker, all one year for only \$1.50. The regular price of these papers is \$3.25.

SUGGESTIONS TO SCHOOL BOARDS

The average salary of the teachers in the rural schools of this county is \$35.87. Is this enough? The best teachers buy new books, take educational journals, attend teachers' meetings and associations, attend summer schools, travel for educational benefit, etc., all costing considerable money. Can they maintain a high professional standard on \$35.87 per month? There is certainly no occupation requiring so great responsibility as that of teaching children. School boards should offer from \$50 to \$75 per month for teaching and require the best of services. Men and women with better training and greater experience would then apply for schools.

There is no reason why the country child should not have the same school advantage as the best favored city child. As a matter of fact he has not and the reason is this: the city spends a much greater amount of money for teachers, and equipment.

We hope to have one or two Rural High Schools in Nemaha county in the near future. This will mean consolidation of school districts, better school buildings and equipment with better teachers and higher salaries for them.

It will mean free transportation of children to school, no tardiness, no fighting and quarreling to and from school, no frozen fingers, etc., in winter time and an increased attendance.

This will cost something in the beginning but counting out the cost of the building, school can be maintained at a lower cost per child than under the present system.

This is not a theory but is in actual practice in many states of the Union. Why not Nemaha county lead in education in Nebraska? Lend us your good will and support.

GEO. D. CARRINGTON, Jr.
County Superintendent.

Grave Trouble Foreseen

It needs but little foresight, to tell that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters, I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. Sold under guarantee by W. W. Keeling, druggist, at 50c a bottle.

Fraud Exposed

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit, through stealing the reputation of remedies which have been successfully curing disease, for over 35 years. A sure protection, to you, is our name on the wrapper. Look for it, on all Dr. King's, or Bucklen's remedies, as all others are mere imitations. H. E. BUCKLEN & Co., Chicago, Ill., and Windsor, Canada.
