**GOOD FARMS AND LANDS CHEAP**  
There is absolutely better farm lands for the money, and more money to be made on increase in land, in South Dakota, than any other section of the United States for the next few years, as has been the case in the past few years. HASTINGS, NEBR., Aug. 14, 1905.

To Editor Advertiser, Nemaha, Nebr.:  
In the last issue of the Advertiser I saw a little item I wish to correct. As far as I am concerned I wish to say for myself that I am not in the least dissatisfied with the change I made last spring. Adams county, Nebr. is all right. We are going to have a big corn crop this fall. It has been a little too wet this summer for small grain but it made a fairly good crop. As for Mr. Russell being dissatisfied I cannot say but rather think not. Although we may sell out we won't come back east.

Yours respectfully,  
CLARK CARY.

Congressman Pollard was in Auburn last Friday listening to the pleas of the candidates for postmaster at the north side. He finally decided that W. P. Freeman was the choice of the majority of the patrons, and as he is fully qualified for the position he decided to recommend him for postmaster, and there is now no doubt of his appointment. Mr. Freeman has been a resident of Auburn for 25 years. We have no doubt but that he will serve the people acceptably.

Later—Mr. Freeman has been appointed postmaster, and will take possession Oct. 1. He has named his wife as deputy and she is now in the postoffice learning the duties thereof, while Mr. Freeman is closing up his business.

A good program is being prepared for the old settlers picnic next Thursday. The principal speakers will be Judge W. D. Oldham of Lincoln, supreme court commissioner, and Congressman E. M. Pollard of Nebraska. T. J. Majors will deliver an address on the deceased pioneers. There will be short talks by as many of the pioneers as can be persuaded to talk. The Peru band, the Auburn male quartette and local musicians will furnish excellent music, finishing the program with a concert at night. There will be two games of base ball, and many other attractions. In addition there will be an opportunity to visit old friends such as is not available at any other time or place. Come to Nemaha next Thursday and enjoy yourself.

A few practical suggestions to friends and patrons of the rural routes:

1. You will be doing the carrier a favor and the service a benefit by stamping your mail, thus avoiding unnecessary delay.

2. If you have no stamps, wrap the exact amount in paper and pin the same to your letter.

3. Before placing your mail box in position consult your carrier, who will gladly assist you in selecting the best location.

4. Mail boxes ought to have five feet of clear space from bottom of box to the ground, excepting where they have a top lid, in which case four and one-half feet will do. All boxes having a top lid should be set so that the lid will stay up when raised. Avoid having nails or bolts on the inside of your mail boxes. Face them towards the road, and have them extend two-thirds over the post. Boxes with top lids should be attached to face of post.

5. When addressing an envelope do not write the name above the middle of the envelope. Under the name write the number of the route to which addressed, and follow the same with the city and state. Names are often blurred by placing them too near the top of the letter, as it is in that part of the envelope that the impression of the postmark is placed.

6. Always place the stamp on the upper right hand corner. Whenever the route number is not known to the sender, it would be a great help to the postal clerks and carrier to mention the particular road on which the person lives to whom the letter is addressed, thus making the name of the road take the place of streets.

7. Mail boxes are for the use of mail matter only W. M. SMITH, Brownville Letter.
