Rev. J. W. Sapp is having an addition built to his house

Congressman Pollard returned to Nebraska Wednesday to look after his political fences.

We had a cold rain Sunday and Monday—not very hard and not all the time, but enough to take off most of the snow.

The rural carriers have not been able to make all the routes for several days on account of the mud, which is getting no better.

The Rebekah lodge had a fine time Wednesday night. Four candidates were initiated—Mr. and Mrs. C. W. Fick, Miss Sadie Fick and Harry Harford. Supper was served after lodge.

According to statistics the snow fall this month has been far greater than any previous year since a record has been kept in Nebraska. The total snow, unmelted, has been a little over 20 inches. Last year it was only two tenths of an inch in March.

The carpenters are now putting in the shelving and counters for Earle Gilbert's store. Earle expects to get started in business next week. He will have an entire new stock, new building, new fixtures—everything new except one or two show cases and a counter.

Married—At Auburn, Nebr., Thursday, March 29, 1906, by County Judge McCarty, Mr. Walter L. Collin and Miss Ada Lambert. The young couple will go to housekeeping on the McCandless farm (the old Haith farm) as soon as the house is completed. May peace, prosperity and happiness be their portion through life.

F. L. Woodward has sold his drug store before he got it started. E. E. Hill of Lincoln has bought him out and will open a first class drug store as soon as he can get in the stock and fixtures. He is said to be a fine druggist and a good citizen. He formerly owned a drug store at Filley, selling out a few months ago.

If the Johnson News can show wherein Good voted or acted against the best interests of his constituents, it is the duty that paper owes to the people to tell it. If the editor doesn't know anything or doesn't tell anything people will believe that it is only a personal grudge or is trying to make believe that he is a watch dog for the people.

Disbarment proceedings have been commenced against John S. Stull and F. G. Hawxby of Auburn for alleged unprofessional dealings in connection with the Gandy case. Judge Kelliger appointed County Attorney French, R. F. Neal, and Edgar Ferneau as the committee to have charge of the proceedings. The case was set for trial April 4th.

We are glad to see that our old friend T. C. Hacker has been reappointed postmaster of Rad Cloud. Mr. Hacker has been postmaster two terms or eight years, under the McKinley and Roosevelt administrations, and was also postmaster four years during the Harrison administration. He was also postmaster at Brownville four years, during the Garfield-Arthur administrations, from 1881 to 1885. He makes a good postmaster.

A Table Rock correspondent says: Fruit experts in this vicinity claim that the peach crop is utterly ruined by the cold of the last few days, the buds having been swelled, almost to opening by the previous spell of warm weather.

J. R. Huffman stakes his reputation as a fruit grower, on the statement that the peach crop is killed and we will have no peaches. Frank Bedfern makes the same statement. These men are not to be doubted on a question like this. Although we would like some peaches, we will have to grin and bear it as we have before.—Auburn Republican.

The quality of the coal and the thickness of the vein in the Peru coal mine is still increasing. At last reports it was 44 inches thick and the increase was nearly an inch to the foot. The miners are in nearly sixty feet and will soon begin to make branches off to each side preparatory to taking out the coal in quantities. It looks as though Peru would soon be beyond reach of the threatened coal famine.—Peru Pointer.

Bro. Stuck of the Johnson News appears to be greatly worried over Good's candidacy for state treasurer, and also because he cannot get people to look seriously upon the opposition of the News to Good. It is said Mr. Stuck interviewed one of Johnson's citizens who had been to Auburn and asked him what the Auburn Good advocates thought of what the News was saying about Good. The friend replied: "They didn't say anything—they just laughed." And then Stuck wasn't any better satisfied than before.

Hon. E. M. Pollard will seek a renomination for congress by the republicans of the First district. He has made a good record during the short time he has been congressman, looking especially after the interests of the farmers and fruit growers, being an extensive farmer and fruit grower himself. He has also been an advocate of all reform measures advocated by President Roosevelt, is in favor of anti-pass legislation and other reform movements. As it has been the custom heretofore to give a congressman a second term at least and as Pollard is the only farmer member from this state, his friends do not see why he should not be renominated and reelected.

Attention is called to an article taken from the prohibition paper, The Nebraska News, published at University Place, Nebr. The article is entitled "The Republican's Opportunity". We would like to see the republican party and every other party endorse prohibition, but if that party did so the prohibitionists would fight it harder than ever—just as they did in Kansas after the republican party gave that state prohibition and twice elected St. John, one of the leading apostles of prohibition, to the governorship. As soon as St. John, who was nominated for the third time, but was defeated could no longer get office he turned against the party, and with the rest of the prohibition leaders has been denouncing the party that gave the state prohibition as an enemy of prohibition. It would be just the same in this state. All the same, we would like to have the republicans give us prohibition.

Judge John Raper of Pawnee City, member of the First district judiciary, is in the city for a brief visit with his daughter and incidentally to look up the law governing the election of district judges. Judge Raper was appointed to the First district bench by Governor Mickey last fall to fill a vacancy caused by the death of Judge A. H. Babcock. The appointment was until the next regular election, which will be in November. The judge to be elected at that time will hold for the unexpired portion of the term of Judge Babcock or until November, 1907, at which time the district judges are elected. Judge Raper will be a candidate for the election this fall and as he is extremely popular in the district, probably will have no opposition. However, at the election of 1907 a contest for the honor is expected, as a number of attorneys of the district are ambitious to succeed to the position. None desire to make the fight for the short term, but all are willing to take their chances on the full term of four years.—Lincoln Star.

**THE TRIBUTE TO THAYER**  
In the impressive and unusual tribute paid yesterday to Governor Thayer the young men of Nebraska may read a valuable lesson. It is that it is worth while to have lived such a life as did this man that at his death so signal an honor was paid him. A whole city stood silent as his funeral procession wended its way through the streets. Its schools were closed; its busy marts of trade were stilled, the whole course of official business was arrested. There were soldiers and citizens in the escort, there were sincere eulogists at his grave. Isn't it worth while to have so lived that a tribute such as this is paid at death?

General Thayer was scarcely a great man measured by the usual standards. He was possessed of more than average ability; he had courage, a strong sense of the right, a rugged honesty that characterized every act as a public officer. He held many positions in the public service. To enumerate them is unnecessary. He brought to each task the application of a sincere man, earnest in his desire to do the best he could for his constituents and he retired from each with a clean record and an honorable name.

General Thayer, after a long life spent in the public service, retired poor. This is so unusual a record that it is worthy of emphasized mention. Most men take advantage of the opportunities offered them while serving the public to make some money for themselves. Some do it by grafting, most of them by grasping at chances that open to them simply because they are public officers. Governor Thayer had too high a sense of honor to do either. And so we honored him yesterday.—Lincoln News.

Speaking of catalogue houses, a Chicago concern known as the "Cash Buyers' Union," recently failed with a large line of liabilities and only \$100 in the till. This concern was started by a man who had long been associated with one of the largest mail order houses in Chicago, but who saw a chance to better the condition of purchasers throughout the country, and incidentally himself. He showed how millions had been made by the big mail order houses and he proposed to endeavor himself to the hearts and pocket books of the buyers by letting them in on the ground floor, and making them participants in the profits. He succeeded in selling memberships, or blocks of stock, to many farmers in Iowa and Illinois, and was doing quite a business until the crash came. The moral to this is, trade at home.—Ex.

## The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

IF YOU WANT  
**Good Bread**  
TRY A SACK OF  
**Golden Rod Flour**

High patent. Every sack guaranteed to give full satisfaction in every respect or money refunded. Always the same. No better flour made.

If you want a cheaper flour you cannot do better than to buy the

**Red Seal**  
a straight grade flour. It has no superior in a grade flour. Many prefer it to a high patent.

For a still cheaper flour try the

**Gold Leaf**  
It is a good flour of that grade. These grades are manufactured by Jamason & Son, Stella, Nebr., and are on sale at the store of

**J. H. Vanderslice**  
NEMAHA, NEBR.

If you buy a sack of either of these grades and it is not just as represented, take it back and your money will be returned.

This great stock medicine is a money saver for stock raisers. It is a medicine, not a cheap food or condition powder. Though put up in coarser form than Theford's Black-Draught, renowned for the cure of the digestion troubles of persons, it has the same qualities of invigorating digestion, stirring up the torpid liver and loosening the constipated bowels for all stock and poultry. It is carefully prepared and its action is so healthful that stock grow and thrive with an occasional dose in their food. It cures hog cholera and makes hogs grow fat. It cures chicken cholera and roup and makes hens lay. It cures constipation, distemper and colds in horses, murrain in cattle, and makes a draught animal do more work for the food consumed. It gives animals and fowls of all kinds new life. Every farmer and raiser should certainly give it a trial. It costs 25c. a can and saves ten times its price in profit.

PITTSBURG, KAN., March 25, 1904.  
I have been using your Black-Draught Stock and Poultry Medicine on my stock for some time. I have used all kinds of stock food but I have found that yours is the best for my purpose.  
J. S. HASSON.
