

THREE FACTS

For Sick Women To Consider

FIRST.—That almost every operation in our hospitals performed upon women becomes necessary through neglect of such symptoms as backache, irregular and painful periods, displacements of the female organs, pain in the side, burning sensation in the stomach, bearing-down pains, nervousness, dizziness and sleeplessness.

SECOND.—The medicine that holds the record for the largest number of absolute cures of female ills is Lydia E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

For thirty years it has been helping women to be strong, curing backache, nervousness, kidney troubles, inflammation of the female organs, weakness and displacements, regulating the periods perfectly and overcoming their pains. It has also proved itself invaluable in preparing women for childbirth and the change of life.

THIRD.—The great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time published by permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Mrs. Pinkham's Standing Invitation to Women.—Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. From symptoms given, your trouble may be located and the quickest and surest way of recovery advised. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her decease she has been advising sick women free of charge. Out of the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

The site of the old Park Theatre, New York City, was on Park Row, opposite the president postoffice. It is now occupied by the Park Row Syndicate Building. The theater was destroyed by fire on the night of December 18, 1848.

Columbus died at Valladolid, Spain, May 20, 1506, and was buried at Seville. His body was afterward taken to St. Domingo, but was removed, in 1796, to the Cathedral of Havana, Cuba. In 1898 the remains were returned to Spain.

WASTED TO A SHADOW.

But Found a Cure After Fifteen Years of Suffering.

A. H. Stotts, messenger at the State Capitol, Columbus, Ohio, says:

"For fifteen years I had kidney troubles, and though I doctored faithfully, could not find a cure. I had heavy backaches, dizzy headaches and terrible urinary disorders. One day I collapsed, fell insensible on the sidewalk, and then wasted away in bed for ten weeks. After being given up, I began using Doan's Kidney Pills. In a couple of months I regained my old health, and now weigh 188 pounds. Twelve boxes did it, and I have been well two years."

WIFE-BEATERS WHIPPED.

Oregon's New Law for Bad Husbands Said to Work Well.

The whipping-post law enacted by the Oregon legislature of 1905 is believed by its friends to have accomplished its purpose. Wife-beating, they say, has almost been stopped in Oregon.

The law went into effect on May 18 last. Twenty lashes is the maximum penalty that can be imposed. It is optional with the court whether convicted wife-beaters shall be sentenced to the whipping post or confined in jail.

There have been three inflictions of the penalty since the law was enacted. A month after the law went into effect a Portland waiter was arrested for beating his wife. He was sentenced to receive twenty lashes.

He was taken to the Multnomah County Jail, the upper part of his body was bared and his hands were handcuffed together and tied to the top of the cell door. Then the jailer struck him twenty times. The whip used was a short cowhide stock with four buckskin thongs. This made every lash really four blows on the body.

The whipping, the first of its kind in the West, attracted wide attention, and it made troublesome husbands fearful. The man whipped left Portland as soon as he was at liberty.

An employe of the Southern Pacific car shops in Portland was sentenced in August to receive ten lashes. His wife sued for divorce while he was in jail awaiting trial, but after he had received the whipping and was at liberty he effected a reconciliation and the wife withdrew her complaint. The wife-beater was discharged from his employment, and being unable to get other work, left the city.

The only other man to be whipped was a former postmaster of Baker City, Ore., and the penalty was imposed in Baker County. He received twenty lashes.

An attempt was made under the terms of the law to whip a man who had assaulted his divorced wife, but as the woman was not then his wife the courts held that the penalty could not be inflicted. He was sentenced to one year on the rock pile.

Judge George J. Cameron, of the Municipal Court of Portland, says that men were frequently charged with wife-beating a few months ago, but now it is a rare occurrence. He believes the whipping post law is responsible for the change.—Washington Post.

Queer Foods for Animals.

It is well known that considerable liberty is now taken with the rations of man's domesticated animals. It has been proved that horses and cows will thrive on a large variety of foods which at first sight appear to be unnatural rations.

It is only necessary that these rations should be proportioned so that the animals receive the proper allowance of each of the several elements constituting their assimilable requirements.

Recent investigation of the Louisiana Planter and Sugar Manufacturer discloses the fact that molasses is widely used as a feeding stuff for horses and mules on the sugar plantations in that State. The average consumption on forty-two plantations in the sugar belt is a little less than ten pounds a head in a day, the range being from two to twenty-one pounds.

When fed in connection with an absorbent foodstuff (such as ground, unhusked corn, molasses constitutes a wholesome and easily digested, as well as economical, constituent of a ration for draft animals. For many years steers have been fed on sugar beet pulp, a by-product of the sugar factories, and on oil cake, a residue of cotton seed oil manufacture.

Unanimous.

European diplomacy, observing an American at the Morocco conference, demanded the reason for his presence, saying: "This is none of your affair."

The American was not rattled. "Of course it isn't," he responded, suavely, "and I thought I'd just run over and tell you that was the way I felt about it."

Diplomacy was perturbed at this manifest failure to stir up a row.—Philadelphia Ledger.

Courtesy.

"I suppose you will be to the will of the people," said the Mend.

"Of course I will," answered Senator Sorghum; "I'll bow and take off my hat all they want me to. As long as there's no chance of their having their own way it's as little as I can do to be polite."—Washington Evening Star.

Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and A FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. **CASTORIA DOES NOT CONTAIN NARCOTICS**, if it bears the signature of Chas. H. Fletcher.

A Big Label Action.

The criticisms against so-called patent medicines which have appeared in some eastern magazines are not being allowed to pass unchallenged by the manufacturers, as is shown by several recent law suits. Now the proprietors of Dr. Williams' Pink Pills have brought an action against the publishers of Collier's Weekly for malicious libel in the publication of alleged false and defamatory statements regarding their remedy. There are, perhaps, some unscrupulous people in the proprietary medicine business as there are in every other business or profession, but an unreasoning attack which includes standard household remedies, whose value has been universally recognized for a generation or more, can only result in placing the crusaders themselves on the defensive.

BOY'S HEAD ONE SOLID SORE.

Hair All Came Out—Under Doctor Three Months and No Better—Cuticura Works Wonders.

Mr. A. C. Barnett, proprietor of a general store in Avarad, Oklahoma, tells in the following grateful letter how Cuticura cured his son of a terrible eczema: "My little boy had eczema. His head was one solid sore, all over his scalp; his hair all came out, and he suffered very much. I had a physician treat him, but at the end of three months he was no better. I remembered that the Cuticura Remedies had cured me, and after giving him two bottles of Cuticura Resolvent, according to directions, and using Cuticura Soap and Ointment on him daily, his eczema left him, his hair grew again, and he has never had any eczema since. We use the Cuticura Soap and Ointment, and they keep our skin soft and healthy. I cheerfully recommend the Cuticura Remedies for all cases of eczema. A. C. Barnett, Mas. 30, 1906."
