One thing that consoles the editor of this paper in having to pay railroad fare is that the politicians have to do the same thing. But it looks a little odd to see V. P. Peabody, F. L. Woodward and G. N. Titus buying tickets or paying on the train.

We had a sleet storm Sunday night. The next morning everything out doors was coated with ice. The trees and shrubbery looked beautiful in their icy covering, but not many looked at them, as they were kept busy watching their footsteps to keep from falling.

Although we printed a large number of extra copies of last week's Advertiser, the demand was so much larger than we anticipated that we did not have enough to go around. We print more this week. If you want sample copies sent to your friends the remainder of this month let us know.

When the editor of the Johnson News goes away he leaves the paper in charge of the devil. When the editor of the Advertiser goes away he leaves the paper in charge of the angels. The readers of the News say the paper is even better than usual when the editor is away, and we have heard the same remark about the Advertiser.

Rev. W. H. Prescott, the evangelist, arrived in Nemaha last Friday evening and now has charge of the revival meetings at the Methodist church. Burlington Station at Bracken Closed

Agent Bamer at Bracken goes to Iowa Point, Kansas, Thursday of this week to take charge of the Burlington office there. The office at Bracken will be closed. Mr. Bamer, who is the postmaster at Bracken, has sent in his resignation and it is altogether probable the office will be closed, as no one can be found who will take it. The office has very few patrons and pays only about \$30 a year.

Saturday night one of Ed Knapp's ponies got sick and Ed thought there was a mighty slim show of its getting well. Richard asked him what he would take for the pony and Ed said fifty cents. Richard paid the money and was the proud owner of a horse, but the next day it died. Richard felt pretty blue over losing his investment and said it made him feel even worse to think he would have to haul it away. The boys sympathized so much with him that they started a subscription sayer, subscriptions being limited to five cents each, and raised the magnificent sum of 70 cents. They gave it to Richard and then made him spend it all treating the contributors, so he lost out again.
