W. W. SANDERS, Prop.

NEMAHA, NEBRASKA

In order to balk the muckrakers, the man who gave \$1,200,000 to Princeton university concealed his name.

Paris cab horses work only every other day and are fed on the days they work only, not on the days they "rest."

A New York woman has been paralyzed while listening at the telephone. Some one must have cut loose at central for sure.

It has been computed that there are \$2,000,000,000 in gold and jewels at the bottom of the sea on the route between England and India.

A marriage epidemic in a Pennsylvania town threatens to close the schools for lack of teachers who have succumbed to its ravages. And there is no amount of theory, educational system of legislation which will keep Cupid from interfering with the best laid plans of school boards and pedagogical experts.

A Frenchman has invented a process of subjecting oats, wheat, rye and other cereals to currents of hot air, which preserves them from mold. French scientists claim that the invention has great practical value in wheat producing countries, where mold causes immense loss during transportation.

The cold weather which prevailed all over Europe last winter is making a tremendous demand for fuel. It is not merely in Russia and North Germany, says the London Statist, that the cold has been intense. In southern Italy, southern Russia and at Constantinople the frost has been unusually severe.

Consul W. H. Bradley of Manchester sends a statement signed by the officials of the British United Textile Factory Workers' association, warning laborers not to flock to that city for employment, as every department in the several mills is working to its fullest capacity, and there is no scarcity of adult mill labor.

According to the report of the minister of mines and forests, the yield of gold in Victoria for the year 1905 amounted to \$10,050 ounces gross, or 747,186 ounces fine, representing a value of approximately \$45,900,000. The total output since the first discovery to the end of 1905 amounts to 68,367,403 ounces gross, with an estimated value of \$1,370,000,000.

The only English woman admitted by royal decree in recent years to any of the ancient orders of chivalry is Queen Alexandra, who is a Lady of the Garter. As such her majesty wears the broad ribbon of the Garter over her left shoulder on state occasions, the star upon the left shoulder, and when the Garter is worn at all it is clasped upon the left arm.

Not only does Henry Vanness of Rockville, Conn., enjoy the distinction of being the only negro railroad conductor in the country, but he has also the honor of being one of the men who have been longest in continuous railroad service in the country, having been employed as a conductor for 43 years without a break. He has been employed on the New York, New Haven & Hartford railroad since it was opened to traffic in 1863.

The telegraph does not reach everywhere. News arrived in London early in April that there had been a fight last December between British soldiers and natives on the west coast of Lake Tchad, in central Africa, during which 11 men were killed and 42 wounded. It took more than three months for the particulars of the struggle to reach civilization and a telegraph line.

Salvador has sent a sensible man to represent it in Washington. The new minister said the other day that the Salvadorean and the citizens of the other Central American countries are getting tired of war. They realize, he says, that if all the money spent for slaughter and the gratification of selfish ambitions of some individuals had been turned to the building of good roads, schools and other instrumentalities of civilization, Central America would comprise one united, prosperous and happy nation to-day.

Though she is not yet a social "bud," Miss Helen Taft has been nicknamed "the tulip girl" by her close friends. The title had its origin in her fondness for a certain style of dressing. The daughter of the secretary of war is almost 17 and will "come out" in the last winter of the Roosevelt administration. She is a classmate of Miss Ethel Roosevelt in the cathedral school. Miss Taft has been in the orient and can rattle off Filipino phrases.

BACK TO TEXAS!

OUR FINE WINTER WEATHER

Lowest Temperatures for Season in Many Years Recorded.

The Weather Bureau issues an Explanation of the Unusual Conditions Which Fail to Explain.

Washington, D. C. — Remarkably unseasonable weather with a cold wave extending throughout the country east of the Rocky Mountains, thermometers in some sections registering the lowest temperatures for the season in many years, is reported by the weather bureau.

Weather bureau officials say that there is no immediate prospect of any summer weather anywhere. Heavy frosts are reported to the bureau from Michigan and other states of the Lake region. The cold wave is particularly severe in the southwest and is due, according to the weather experts, to the heavy rains in that part of the country.

Forecaster Harry C. Frankenfeld of the weather bureau Tuesday night said:

"The reason for the cold weather we have had during the past two or three months is that the high areas of pressure have moved eastward from the northern portion of the country almost continuously and these have caused cold north winds. That is the only reason I can give for the cold weather areas. As to what makes these high areas keep up all this season is more than I can tell."

Not since 1882 has the abnormal weather been approached in this part of the country. It is five degrees below the normal temperature for this month.

To Sell Zion City Property.

Chicago. — Over the objections made by Mrs. Jane Dowie and her son, A. J. Gladstone Dowie, Judge Landis in the Federal court Friday afternoon entered an order granting authority to John C. Hatley, receiver of the Zion City property, to sell the property immediately. As soon as the contests of John Alexander Dowie's widow and son are overcome, and it is believed this will be effected by compromise soon, the trust estate of Dowie will be disposed to the creditors, most of whom are connected with the church establishment by Dowie.

Quarantined Against Havana.

Havana, Cuba. — The sudden declaration of quarantine by all the southern states against Havana, news of which reached here Tuesday afternoon, has caused much consternation and has resulted in hardship to hundreds of persons. The steamer Mobile, with 100 passengers on board was stopped while in the act of leaving this port for Mobile and all her passengers were sent back on shore. There are only two cases of yellow fever in Havana and both come from the interior.

La Follette a Candidate.

Milwaukee, Wis. — Definite steps were taken Friday night toward promoting the candidacy of Senator LaFollette for the presidential nomination at a meeting of 150 of his supporters in the club rooms of the Plankinton house. Resolutions were adopted declaring Senator LaFollette the strongest and most logical candidate for the presidency and stating that work should be started at once towards securing LaFollette delegations from other states.

FUNERAL OF MRS. MCKINLEY.

Distinguished Gathering Witnessed Final Ceremony—Body Beside That of Her Husband.

Canton, Ohio. — The body of Mrs. Ida Sexton McKinley now rests by the side of that of the late President McKinley in the receiving vault at Westlawn cemetery.

The simple funeral services held at the McKinley residence on Market street Wednesday afternoon were witnessed by a distinguished company, including President Roosevelt, Vice President Fairbanks, Gov. Harris and many high officials both of the nation and state.

During the funeral and the progress of the cortege to the cemetery all business in Canton, not absolutely necessary, ceased, banks, stores, factories, amusement houses, and parks, all closed in honor of the distinguished dead and school children were dismissed from the day's tasks.

The sombre black casket rested in the library surrounded by flowers, in the same place that the body of President McKinley was placed after the tragedy at Buffalo.

The services were conducted by the Rev. Dr. Buxton, pastor of the First Methodist Episcopal church, and the Rev. D. Holmes, former pastor of that church.

The receiving vault which is still guarded by United States regulars, will be the resting place of the body of both Mr. and Mrs. McKinley until the magnificent McKinley mausoleum built by public subscription is completed, probably in September.

Railroads Accept Liability.

Chicago. — It is reported that an agreement has been reached between western railroads and the shippers whereby the latter will ask the Interstate Commerce commission to dismiss the bill of lading case which has been before that body since December 1908. On the other hand, the railroads have agreed to present to the commission a new uniform bill of lading providing for only one rate, therefore accepting without question the common law liability for loss and damage which attaches to the carriers. The entire question was one of liability on the part of the carrier for loss and damage to shipments.

Harriman Protects Hill.

New York. — Frank W. Hill, formerly secretary of E. H. Harriman, who some time ago sold to a newspaper the now famous Sidney Webster letter, written by Mr. Harriman, and the publication of which drew a heated denial from President Roosevelt, Wednesday pleaded guilty. On the recommendation of the district attorney's office and at the request of Mr. Harriman, the sentence was suspended.

To Germany on Peace Mission.

Berlin. — Thirty-nine British journalists, representing as many important newspapers and reviews, arrived at Bremen Monday on their way to Berlin as unofficial peace and conciliation envoys, returning the visit which the German newspaper men paid to England last year.

Gunboat to Protect Foreigners.

Washington. — Instructions have been cabled to the commander of the gunboat Helena, which arrived at Fouchow, China, a few days ago, to return at once to Amoy, the nearest port to the scene of the armed uprising against the Chinese local officials.

TAKES NO BACKWARD STEP

President Forcefully Reasserts His Position Regarding Railroads.

They Should Be as Completely Under Governmental Control As Are the National Banks.

Indianapolis, Indiana. — President Roosevelt delivered the principal address in this city Thursday at the unveiling of the statue to Gen. Lawton, a veteran of the civil war, who died in the service of his country in the Philippines. The address had been looked forward to for weeks as being the first authoritative expression of the president's views regarding the relationship of the government to the railroads of the country.

After delivering an eulogy on Gen. Lawton and the veterans of the Civil war Mr. Roosevelt said among other things:

"One great problem that we have before us is to preserve the rights of property and these can only be preserved if we remember that they are in less jeopardy from the socialist and the anarchist than from the predatory man of wealth. The power of the nation must be exerted to stop crimes of cunning no less than crimes of violence. There can be no halt in the course we have deliberately elected to pursue, the policy of asserting the right of the nation, so far as it has the power to supervise and control the business use of wealth, especially in its corporate form. Today I wish to say a word to you about the first and most important feature of this task, the control of the common carriers doing an interstate business; a control absolutely vested in the nation. There must be vested in the federal government a full power of supervision and control over the railways doing interstate business; a power in many respects analogous to and as complete as that the government exercises over the national banks. It must possess the power to exercise supervision over the future issuance of stocks and bonds, either through a national incorporation (which I should prefer) or in some similar fashion.

The movement to regulate railways by law has come to stay. The people of this country have made up their minds—and wisely made up their minds—to exercise a closer control over all kinds of public service corporations, including railways. Every honestly managed railway will gain and not lose by the policy. The men more anxious to manipulate stocks than to make the management of their roads efficient and honest are the only ones who have cause to oppose it.

Creating Naval Vacancies.

Washington. — Admiral Evans will preside Saturday at the Navy department at a meeting of naval officers of high grade, appointed "to weed out" a sufficient number of officers to meet the needs of the naval personnel act and prevent stagnation in promotion. Naturally there is great anxiety among a number of officers as to the outcome of the meeting of this board though the result will not be announced before July 1, when the vacancies must be made. Altogether the act requires this year that 22 vacancies be created.

Would Admit Press to The Hague.

Berlin. — The Vossische Zeitung says it learns that although no exchange of views has taken place between the powers on the subject, the German government is unreservedly in favor of admitting the press to the sessions of The Hague peace conference and thus, by publicity, "rendering impossible stories of discord among the powers and imaginary scenes at the sittings, such as were telegraphed from Algeiras to European papers.

Child Fell From Moving Train.

Waterloo, Iowa. — The five-year-old son of a woman named Kate Kartinelli fell out of a car window of an Illinois Central limited westbound train, running at 50 miles an hour Wednesday night between Post and Epworth, while his mother was asleep. The child was found walking on the tracks at 5 o'clock Thursday morning by the train crew of an eastbound train. Except for a slight cut on the face the boy was unhurt.

A Defeat for the Standard.

Findlay, O. — The circuit court Friday unanimously decided that the Buckeye Oil company, a Standard subsidiary concern, was organized under the corporate laws of Ohio and as such must carry all oil offered it by the independent producers at a fair remunerate rate. The decision is considered a great victory by the independent producers.

Will Live in Paris.
The widow of Collis P. Huntington has informed friends in Washington of her purpose to reside permanently in Paris. With this object in view she is preparing to close her house in New York and go to the French capital, where there will soon be completed a mansion for her costing nearly \$1,000,000. Mrs. Huntington was many years younger than her great husband, who left her the bulk of his millions to do with as she might see fit.

That an article may be good as well as cheap, and give entire satisfaction, is proven by the extraordinary sale of DeLancey Starch, each package containing one-third more Starch than can be had of any other brand for the same money.

An Anarchist.

"That air thin chicken with th' dragged feathers," remarked the old farmer, "I call th' anarchist."

"Why do you call him that?" queried the summer boarder.

"Cause he spends so much time chasin' th' other chickens t' git their vittles away from 'em he ain't got no time t' hustle fer none fer hisself," explained the old granger.

By following the directions, which are plainly printed on each package of DeLancey Starch, Men's Collars and Cuffs can be made just as stiff as desired, with either gloss or domestic finish. Try it, 16 oz. for 10c, sold by all good grocers.

Outspoken Criticism.

Somewhat outspoken is the Penang Gazette. It remarked recently: "Never has there been in the world's history such a flabby, herring-gutted parody of an administration as that which is feebly trying to control the destiny of the British empire to-day."

Weak men tremble at the world's opinion, fools defy it, wise men judge it.—La Rochefoucauld.

Don't Use "Practically Pure" White Lead

There is no other pigment that is "practically" White Lead—no other paint that has the properties of Pure White Lead Paint.

Pure White Lead, good paint that it is, cannot carry adulterants without having its efficiency impaired. To get Pure White Lead durability, see to it that every keg bears the Dutch Boy trade mark—a guarantee that the contents are absolutely Pure White Lead made by the Old Dutch Process.
