N. C. JARVIS.
School Begins.
The Nemaha public schools opened Monday morning with a fairly good enrollment, which will be increased. The enrollment is now 42 in the high school, 34 in the intermediate department, and 38 in the primary, making a total of 114.
The school building and ground are in good condition, and when the new seats are received and put in place, and the old stoves taken out things will look quite different. The teachers are Mrs. C. H. Kindig, principal, Miss Ella Bellas, teacher of the intermediate department, and Miss Nettie C. Bunn, primary, with W. W. Liebhart as janitor.
C. G. Milam, living just southwest of this city has successfully demonstrated that most excellent celery can be grown west of the Missouri and four acres of his farm looks like a suburb of Kalamazoo. Although the season has been dry for the product, Mr. Milam has 1200 fine plants growing nicely and is already marketing some of it.
They have only been given one hilling but even with only this, the plants are nicely bleached to the height of six inches. Those who have said that celery cannot be successfully grown in Nemaha county should pay a visit to this farm.—Auburn Herald.

A Surprise.
Mrs. Mary J. Hoover on Monday arrived at the 66th mile stone of her journey through life, and her daughter and daughter-in-law, Mrs. J. E. Crother and Mrs. Chas. C. Clark, arranged a little surprise for her. They got up a fine supper and invited a few of her friends in. The supper was served at the home of Mrs. Crother. It was a total surprise to Mrs. Hoover—so much so that she did not at first recognize her own daughter, Mrs. J. D. Rainey of Auburn, who had come in for the occasion. Those present, in addition to the families of Mrs. Crother and Mrs. Clark, were Dr. and Mrs. W. W. Keeling, Mrs. Ellen Howe, Mrs. Mary Chambers, and the editor.
The Holiness Campmeeting
The campmeeting in the park is attracting fair audiences and considerable interest is manifested, although at this writing no converts have been made. The ministers are very earnest workers. They preach their doctrine but say they do not come here to tear down any other church. They believe in entire sanctification and in divine healing of all diseases. They are opposed to jewelry of all kinds, feathers in ladies' hats, and in general to fine clothing. The following have been present during the meetings: Elders J. C. Shafer, S. S. Orr, A. J. Rumbaugh, T. A. Vice, T. J. McCracken, T. D. Lane, J. D. Force, E. D. Beeson, Frank Kern, Chas. Tuttle, S. S. James and Gillman Waldron.
The church organization is entitled the Holiness Church of Christ. They believe in church organization, thus differing from the "come-outers."
Health in the Canal Zone
The high wages paid make it a mighty temptation to our young artisans to join the force of skilled workmen needed to construct the Panama Canal. Many are restrained however by the fear of fevers and malaria. It is the knowing ones—those who have used Electric Bitters, who go there without this fear, well knowing they are safe from malarious influence with Electric Bitters on hand. Cures blood poison too, biliousness, weakness and all stomach, liver and kidney troubles. Guaranteed by Hill Bros., druggists. 25c.

Because some of the editor's preferred candidates were not nominated at the primaries, the Jonnson News makes a roar, and supports part of the candidates on the other ticket. This would be all right if the republican candidates were unfit for the office or were not as well qualified as the other fellows, or had got the nomination by unfair means.
But nothing of this kind is charged. Bro. Stuck simply feels sore because a majority of the republicans thought some other candidate was better for the office than the man he was supporting. He doesn't even charge that his favorites were better than the ones chosen.
Keep sweet, Bro. Stuck. If your candidates had been chosen you would have been very indignant if any republican had kicked out of the traces. Do as you would be done by.
Last Friday railroad men working in the Missouri Pacific yards and employes of the canning factory were started at hearing a terrific crashing noise and seeing a great cloud of dust emanating from a freight train which had just pulled out of the yards. The train was going at the rate of twenty-five miles an hour and when an examination was made it was found that a car had jumped the track, had ripped up a guard rail and crunched through rotten ties, breaking a fish plate and frog, in a quarter of a mile running on the ground.
It finally bounced on the track again and went along as smoothly as if nothing had happened.
The members of the train crew were not aware that anything had happened or that the train had narrowly escaped an awful wreck. It is a common saying among the Missouri Pacific employes that it is only the foreign cars that jump the track.
The Missouri Pacific cars are as dilapidated as the road and readily adapted themselves to the awful conditions that prevail.
Were this not a fact, they contend, it would be impossible to run a train over the road.—Auburn Republican.
