

W. W. SANDERS, Prop.

NEMAHA, NEBRASKA

Japanese art is running too strongly to the drawing of fortifications.

There is a failure of the grape crop in Hungary. Perhaps this will cheer up the French wine growers.

A scientist declares that kissing will kill freckles. Take this home and try it on your freckle-faced girl.

The young woman who took her wedding trip and left her husband at home was merely starting in early to train him.

Take your slate and pencil and figure it out. If the wife is the better half and a man marries three times, isn't he 50 in the hole?

Paris is feeling much disturbed because its skyline is likely to be marred by skyscrapers. Paris overlooks the Eiffel tower, evidently.

A Long Island woman says she would not take August Belmont's word for one dollar. Would she take one of Mark Twain's for 30 cents?

To prepare the people of China for their duties under constitutional government, an Imperial decree has been issued granting provincial self-government to the provinces of Pechili and Kiangsu. The Chinese are moving slowly, but that they are moving at all is the remarkable thing.

John Gresham Brooks, who says that race suicide is encouraged because it costs so much to bring up children in town, should take a trip through the rural neighborhoods and explain why they are closing up some of the district schools for lack of children.

People who are afraid of lightning ought to be reassured by the statistics showing that on an average only 800 people are killed in the United States each year by lightning strokes. This makes the average person's chance of being killed by lightning in any year about 1 in 100,000.

Locomotive drivers in all countries are obliged to pass tests for color blindness. In Germany the drivers of automobiles are now required to submit to examination of their color vision. A color-blind chauffeur may be quite as dangerous as one who is reckless.

A New York millionaire is reported to have gone to his boyhood home in Indiana, bought the old barn door on which in youth he had carved his initials, and moved it to New York, to be set up somewhere in his city house. His reminiscences must be of an unusually cheerful kind. To most men the old barn door of their youth was the drop-curtain to scenes which they do not care to recall.

The gunboat Wolverine, which is said to be the first iron ship ever constructed, was present at Put-In-Bay, on Lake Erie, when the monument to Commodore Peary was dedicated there on August 5. Since that ship was built, iron has been used for bridges and buildings, displacing stone and wood to such an extent that iron making has become a far greater industry than lumbering ever was.

Fashionable women in Washington are planning a hotel for cats. The women, in the kindness of their hearts, are unwilling to leave their pets without care when they go away for the summer. They think that there would be patronage enough for such a hotel to make it profitable. Boston already has an endowed cat home, not only for the care of pet cats, but for the rescue of such aged and indigent cats as have been turned loose in the world.

Cooperation is invited by the mayor of Litchfield, England, in repairing the house of Michael Johnson, where the son, Samuel—the great Dr. Johnson—was born. In the house was the bookshop where proud young Samuel refused to stand behind the counter. Years later, after his father's death, Johnson made a pilgrimage of repentance to Litchfield, and with head uncovered, stood for an hour in the rain before the shop.

President Buchanan had the misfortune to be in a position which required qualities which he did not possess, yet he had some fine traits. It has recently been disclosed that in 1859 a railroad company sent him a pass over its lines. He returned it with the statement that it had been the practice of his life to pay his fare because he was opposed to the whole system of granting privileges to persons not connected with the railroads. It has taken more than 4 years for this feeling to become strong enough to induce congress to prohibit the issuing of passes on interstate railroads.

WORN TO A SKELETON.

A Wonderful Restoration Caused a Sensation in a Pennsylvania Town.

Mrs. Charles N. Preston, of Elkland, Pa., says: "Three years ago I found that my housework was becoming a burden. I tired easily, had no ambition and was falling fast. My complexion got yellow, and I lost over 50 pounds. My thirst was terrible, and there was sugar in the kidney secretions. My doctor kept me on a strict diet, but as his medicine was not helping me, I began using Doan's Kidney Pills. They helped me at once, and soon all traces of sugar disappeared. I have regained my former weight and am perfectly well."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

**Saw Chance to Economize.**  
After weeks of waiting and longing for the sport, rods, reels, gaff, creel—everything was in readiness for a week's trout fishing.

The young wife, smiling joyously, hurried into the room, extending towards her husband some sticky, speckled papers.

"For goodness' sake," he exclaimed, "what on earth are you doing with those old fly papers?"

"I saved them for you last summer, dear," she answered. "You know you said you always had to buy flies when you went fishing."

Tripped.

Gunner—So you think the DeBlowers are faking about their extended European tour?

Gayer—I should say so. They said there were so many Americans in Venice that many had to walk in the middle of the street.

Gunner—Well?

Gayer—Why, the streets of Venice are canals.

Products of Ton of Peat.

By experiments recently made at the Institute of Technology one ton of peat taken from a bog within 20 miles of Boston produced 100,000 feet of gas, 15 gallons of tar and five gallons of paraffin, and it is claimed from the six per cent of ash innumerable by-products could be obtained.

New Zealand's Good Work.

New Zealand has set aside 9,000,000 acres of land for endowment for the purposes of education and old age pensions. Custom duties have been reduced on necessities of life, and increased in other lines to protect industries.

Aids English Government.

A Mohammedan army schoolmaster has addressed a loyal appeal to the native army in India pointing out that as soon as common sense is exercised the accusations against the Indian government fall to the ground.

Ready If Needed.

A Chicago office boy, looking for a job, was asked whether he used profane language. He replied: "I kin if necessary."

The easiest way to get popular with people is to let them bore you.

FAMILY FOOD.

Crisp, Toothsome and Requires No Cooking.

A little boy down in N. C. asked his mother to write an account of how Grape-Nuts food had helped their family.

She says Grape-Nuts was first brought to her attention on a visit to Charlotte, where she visited the Mayor of that city who was using the food by the advice of his physician. She says:

"They derive so much good from it that they never pass a day without using it. While I was there I used the Food regularly. I gained about 15 pounds and felt so well that when I returned home I began using Grape-Nuts in our family regularly.

"My little 18 months old baby shortly after being weaned was very ill with dyspepsia and teething. She was sick nine weeks and we tried everything. She became so emaciated that it was painful to handle her and we thought we were going to lose her. One day a happy thought urged me to try Grape-Nuts soaked in a little warm milk.

"Well, it worked like a charm and she began taking it regularly and improvement set in at once. She is now getting well and round and fat as fast as possible on Grape-Nuts.

"Sometime ago several of the family were stricken with LaGrippe at the same time, and during the worst stages we could not relish anything in the shape of food but Grape-Nuts and oranges, everything else nauseated us.

"We all appreciate what your famous food has done for our family." "There's a Reason." Read "The Road to Wellville," in pkgs.

DIE IN A MINE FIRE

ESPERANZAS DISTRICT OF MEXICO SCENE OF HORROR.

TWENTY-SEVEN MEN KILLED

Fatalities Take Place in the No. 1 Drift—Firedamp Supposed Cause—Physicians on Hand to Give Aid to the Wounded.

A special dispatch from Monterey, Mexico, says:

News reached this city from Mazuz, Coahuila, that another terrible mine fire occurred at the Esperanzas mines, in which twenty-seven men were killed. The fire originated in No. 1 drift, and is supposed to have been caused by firedamp.

A large force of medical men are at work doing all in their power to alleviate the suffering of the wounded, while every effort is being made to get the bodies of the dead out of the mine.

Consternation reigns among the miners employed at Esperanzas on account of the number of mine fires that have occurred there of late.

MUCH PLEASED WITH TEST.

Members of Naval War College Return From Maneuvers.

Members of the naval war college who arrived in Newport after several days spent on board the ships of Rear Admiral Evans' battleship fleet during the maneuvers in southern waters and on the trip up into Massachusetts water, speak in terms of high commendation of the work of the ships. They said that in all the evolutions the distances were kept admirably and all the movements were carried out with great precision. While off Nantucket shoals the ships ran into a thick fog and the new submarine signal bell system was given a severe test. The officers of the war college said it was thoroughly successful. The fleet's speed was reduced, but although they could not see each other in the mist, the distances were maintained perfectly.

GUILTY OF MANSLAUGHTER.

Missouri Valley Editor Must Face Punishment for Killing.

A. H. Sniff, editor of the Harrison County News, at Missouri Valley, Ia., was found guilty of manslaughter by a jury there for the killing of Mort Brundige, on March 15 last. The trial had lasted a week, and had aroused intense interest. Brundige was offended by editorial criticism of the conduct of his brother-in-law at a dance, and it was reported had threatened to kill the editor in revenge. After having previously failed to obtain entrance to the editorial sanctum, Brundige followed Sniff through the street and as he was ascending the steps to his office, Sniff turned on Brundige and after cautioning him not to advance further, pulled a revolver and fired. Brundige fell mortally wounded.

POLICE FIRE ON SOLDIERS.

Take Drastic Means to Disperse Mob From Fort Riley.

A dispatch from Junction City, Kas., says: A mob of fifty soldiers of the Farmers school at Fort Riley came here about 10 o'clock in the morning for the purpose of releasing a comrade who was confined in the county jail. The sheriff and city police were notified of their coming and from positions in windows above the jail opened a fire that quickly dispersed the mob as it sought to force an entrance. The authorities at Fort Riley placed guards at the jail and are aiding in the effort to find the members of the mob. Two arrests have been made. No one was shot.

Root Leaves Institute.

Secretary of State Root has been a patient at the Muldoon institute, New York, which place he left September 8. He gained twelve pounds while in the institute. He told his friends that he felt like a new man. Mr. Root went away in an automobile with his son and his nephew, Orin Root. The secretary will go to Oyster Bay for a conference with the president in relation to his Mexican trip.

Home of Eagles Burns.

Eagle Temple, the home of Philadelphia Aerie No. 42, fraternal order of Eagles, on Spring Garden street near Broadway, was destroyed by fire. Nothing but the walls of the building remain standing and the loss is given at \$100,000, covered by insurance.

TWO-CENT FARES IN KANSAS.

Board of Railroad Commissioners Ordered a Flat Two-Cent Per Mile Rate, Effective October 1.

Topeka, Kan.—The board of railroad commissioners Wednesday afternoon ordered the railroads to put in a flat two-cent fare rate on or before October 1. The railroads have not made any definite announcement of their contemplated action, but it is understood they will recognize the order till the question is settled in some of the other states in which it is pending. At 2:45 Wednesday afternoon the attorneys for the railroads reported from a conference and made a formal protest to the board's action in overruling the motion to dismiss. The board retired shortly after and reached a decision in five minutes.

Gardiner Lathrop, attorney for the Santa Fe, said that the matter would be passed up to the heads of the railroads for final decision. The railroads did not introduce evidence when asked to do so by the board and the action by the board followed.

Most of the morning session of the board was spent in hearing arguments in support of motions of the railroad attorneys to dismiss the complaint of the attorney for the board, Mr. Gratton. The board overruled the motions to dismiss and in doing so, G. W. Kanavel, chairman, said that the board would throw down the bars and that any evidence which the railroads wished to offer would be permitted to be introduced.

Likes Oklahoma Constitution.

Oklahoma City, Ok.—Ten thousand persons heard William J. Bryan here Thursday reply to the recent address of Secretary of War Taft upon the Oklahoma-Indian Territory political situation in Convention hall, and 3,000 persons, unable to secure admittance to the auditorium, attended an overflow meeting nearby. Mr. Bryan was enthusiastically received. In addition to scoring Secretary Taft soundly for placing his personal ambitions above the welfare of the people of Oklahoma and attacking the views of the secretary of war, on national policies, Mr. Bryan declared that the constitution of the proposed new state was even better than that of the United States.

He Asks a Woman's Removal.

Lincoln, Neb.—State Superintendent of Schools McBrien Friday formally requested Gov. Sheldon to remove Mrs. Francis Knox, county superintendent of Cheyenne county. Superintendent McBrien says Mrs. Knox is in rebellion against his authority and his ignored the law relative to the issuing of teachers certificates. Under a new law the governor is empowered to remove any county official. Gov. Sheldon has the matter under consideration.

Kansas City Day at Jamestown.

Norfolk, Va.—Wednesday was celebrated as "Kansas City Day" at the Jamestown exposition with several hundred visitors from Kansas City, headed by Mayor Beardsley and 30 members of the board of trade of that city attending. Formal exercises were held at the Missouri state building with addresses by President Tucker of the exposition; Mayor Beardsley and others in the Kansas City delegation.

Will Not Postpone Rate Hearing.

Lincoln, Neb.—The state railway commissions Friday notified the railroad companies that the commission will not grant their request for the postponement of the hearings on grain rates. To do so, the commissioners say, would allow the carriers to charge the present rates on their crops now partly harvested and moving to market. This was the commission's reason for declining to extend the time.

Glass Gets Five Years.

San Francisco.—Louis Glass, vice-president of the Pacific States Telephone and Telegraph company, convicted of having bribed Supervisor Lonergan to vote against granting a franchise to the Home Telephone company, was Wednesday sentenced by Superior Judge Lawlor to five years' imprisonment in the state prison at San Quentin.

Invented the Bell Buoy.

Charleston, S. C.—Capt. Henry Brown, a veteran of the Mexican and Civil wars, inventor of the bell buoy now used at American ports, died here Tuesday, aged 80 years. He served during the 60's under Farragut and Porter and was commended and promoted for gallant conduct.

Jerome Gets Another Grand Jury.

New York.—District Attorney Jerome Friday obtained an order in the recorder's court for a special grand jury in addition to the regular grand jury to sit in October. Mr. Jerome did not announce the purpose other than to say that pressing public business required the special jury.

ALL HAIL PE-RU-NA.

A Case of STOMACH CATARRH.

Miss Mary O'Brien, 306 Myrtle Ave., Brooklyn, N. Y., writes: "Peruna cured me in five weeks of catarrh of the stomach, after suffering for four years and doctoring without effect. In common with other grateful ones who have been benefited by your discovery, I say, All hail to Peruna."

Mr. H. J. Henneman, Oakland, Neb., writes: "I waited before writing to you about my sickness, catarrh of the stomach, which I had over a year ago.

"There were people who told me it would not stay cured, but I am sure that I am cured, for I do not feel any more ill effects, have a good appetite and am getting fat. So I am, and will say to all, I am cured for good.

"I thank you for your kindness. Peruna will be our house medicine hereafter."

Catarrh of the stomach is also known in common parlance as dyspepsia, gastritis and indigestion. No medicine will be of any permanent benefit except it removes the catarrhal condition.

Gained Strength and Flesh.

Miss Julia Butler, R. R. 4, Appleton, Wis., writes she had catarrh of the stomach, causing loss of sleep and appetite, with frequent severe pains after eating. She took Peruna, her appetite returned, she gained strength, flesh and perfect health.

SICK HEADACHE

Positively cured by these Little Pills. They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER, etc. PURELY VEGETABLE. They regulate the Bowels. SMALL PILL. SMALL DOSE. SMALL PRICE.
