will see a boom in the real estate mar-ket. But so long as there is a farm for sale under the pressure of debts, the price of other lands will be influenced thereby. A vacant store in a row of business houses injures the rental value of all the others, a demand for one more store than can be had has the contrary effect. Prices of land are effected in the same way.

Y., can boast of the largest and most complete private San-tarium in the world. The Invalid's Hotel was founded by Dr. R. V. Pierce, who has repre-sented his district as State Senator and in Congress, and is known throughout the United States as the originator of Dr. Pierce's Family Medicines, and who has also become widely celebr uted in the treatment of chronic discases. The erection of this manunoth home for inval-ids was made necessary by the large number of afflicted wh h flocked to Buffalo from all parts of the United States to consult Dr. Pierce and the eminent medical gentlemen associated with him as the faculty of this celebrated in-stitution. The establishment is said to have cost nearly half a million of dollars, and is fur-nished with every appliance and facility for the case of chronic aliments. A correspondingly large branch institution is located in London. England. The whole concern is owned and operated by th.
