HOW A PUZZLE WAS SOLVED.

When you want a certain article, you want the best make of that article, don't you?

But how to determine which make is best is what puzzles you, isn't it?

And when the puzzle is solved for you, by authority which cannot be que_tioned, you are pleased, aren't you?

And you would like to hear of one puzzle that has been solved for the people of the whole world, wouldn't you?

Well, we will tell you about that very puzzle, and its solution.

At the Universal Exposition of 1889 at Paris, France, the best sewing machines of the world, including those of America, were in competition. They were passed upon by a jury composed of the best foreign mechanical experts, two of whom were the leading sewing machine manufacturers of France.

This jury, after exhaustive examination and tests, adjudy of that the Wheeler & Wilson machines were the best of all, and awarded that company the highest prize of fered, the 'RAND' PRIZE, giving other companies why gold, silver and bronze medals.

The French Government, as a further

companies only gold, silver and bronze medals.

The French Government, as a further recognition of superiority, decorated Mr. Nathaniel Wheeler, president of the company, with the Cross of the Legion of Honor, the most prized honor of France.

That is how the puzzle of the best sewing machine in the world was fully solved by the most competent authority in the world in favor of the No. 9 and No. 12 Wheeler & Wilson machines.

Wilson machines.

The No. 9, for family use, and the No. 12, for manufacturing uses, are the best in the world to-day,

And now, when you want a sewing mahine, if you do not get the best, it will be your own fault.

Ask your sewing machine dealer for the No. 9 Wheeler & Wilson machine, and if he does not keep them, write to us for descriptive catalogue, prices and terms.
