Success of the Efforts to Scotch Bad Bak

ing Powders. The aggressive war waged by the Royal Baking Powder Company upon the hosts of adulterated and impure baking powders sold through the country is having a desirable effect. The scandalous attacks upon the Royal company by the manufacturers of impure goods (which are made doubtless both from a spirit of revenge and in the hope of breaking the effect of the damaging exposures) show that they are hit, while the official reports which have come from various public authorities fully corroborating the statments made by the Royal company, have awakened a wholsome public sentiment in favor of repressive laws, which means mischief to the illegitimate traffic.

The Royal Baking Powder Company set out some time ago to expose the character and to break up the sale of adulterated baking powders. Having found from an examination of many specimens that there was a large number of actually injurious powders in the market, they brought the matter before the public and denounced the makers by name in the press and to the health authorities. The affair was taken up by the physicians, board of health and legislatures throughout the country, chemists were employed to test the various powders in the market, and the government itself directed analyses to be made before it would purchase the supplies needed for army, navy and

The result justified the charges made by the Royal company. Not only were the majority of baking powders in the market found to be largely adulterated. but many of them were ascertained to contain alum and other poisonous igredients to such an extent as to render them positively unsafe for use in human

In making the charges the Royal Baking Powder Company did not hesitate to enter into competition with every other baking powder in the country, and it is a public satisfaction that in the tests by the government and state chemists and by board of health, the Royal Baking Powder has been declared to be the superior of all others in strength, purity and wholesomeness, and absolutly free from all inferior or detrimental substances.

From recent official reports it is evident that the alum and otherwise impure goods have again come upon the market in dangerous quantities and their old enemy, the Royal, is again upon the warpath. In continuing its warfare against these goods the Royal is meeting with the old time opposition and abuse. The public, however, will appreciate, as heretofore, both the object of the abuse and the action of the Royal company, and award full justice to the company that so fearlessly stands up for its protection from such adventurers.

At the Universal Exposition of 1889, at Paris, France, the best sewing machines of the world including those of America, were in competition. They were passed upon by a jury composed of the best foreign mechanical experts, two of whom were the leading sewing machine manufacturers of France. This jury, after exhaustive examination and tests, adjudged that the Wheeler & Wilson machines were the best of all, and awarded that company the highest prize offered—the GRAND PRIZE—giving other companies only gold, silver and bronze medals.

The French government, as a further recognition of superiority, decorated Mr. Nathantel Wheeler, president of the company, with the Cross of the Legion of Honor—the most prized honor of France.

A POPULAR FAMILY.

JENNIE: "How is it, Kate, that you always seem to 'catch on' to the last new thing? I) what I may, you always seem to get ahead KATE: "I-don't know: I certainly do not make any exertion in that direction."

JENNIE: "Well, during the last few months, for example, you have taken up painting,

without any teacher; you came to the rescue when Miss Lafarge descrited her Delsarte class so suddenly, and certainly we are all improv-ing in grace under your instruction; I head you telling Tommy Eames last evening how his club made mistakes in playing taseball you seem to be up on all the latest 'fads,' and know just what to do under all circumstances;

nis club made mistakes in playing tascoally you seem to be up on all the latest 'fads,' and know just what to do under all circumstances; you entertain beautifully; and in the last month you have improved so in heaith, owing, you tell me, to your physical culture exercises. Where do you get all of your information from in this little out-of-the way place?—for you never go to the city."

KATE: "Why, Jennie, you will make me vain. I have only one source of information, but it is surprising how it meets all wants. I very seldom hear of anything new but what the next few days bring me full information on the subject. Magic? No! Maguanci And a great treasure it is to us all, for it really furnishes the reading for the whole household: father has given up his magazine that he has taken for years, as he says this one gives more and better information on the subjects of the day; and mother says that it is that that makes her such a famous housekeeper. In fact, we all agree that it is the only really FAMILY magazine published, as we have sent for samples of all of them, and find that one is all for men, another all for women, and another for children only, while this one suits every one of us; so we only need to take one instead of several, and that is where the economy comes in, for it is only \$2.00 a year. Perhaps you think I am too lavish in my praise; but I will let you see ours, or, better still, send 10 cents to the publisher, W. Jennings Demorest, 15 East 14th Street, New York, for a sample copy, and I shail always consider that I have done you a great favor; and may be you will be cutting us out, as you say we have the reputation of being the best informed family in town. If that be so, it is Demorest's Family Magazine that does it."
