DONALD KENNEDY

Of Roxbury, Mass., Says:

Strange cases cured by my Medical Discovery come to me every day. Here is one of Paralysis—Blindness—and the Grip. Now how does my Medical Discovery cure all these? I don't know, unless it takes hold of the Hidden Poison that makes all Humor.

VIRGINIA CITY, Nevada, Sept. 8, 1881.

DONALD KENNEDY—Dear Sir: I will state my case to you: About nine years ago I was paralyzed in my left side, and the best doctors gave me no relief for two years, and I was advised to try your Discovery, which did it, and in a few months I was restored to health. About four years ago I became blind in my left eye by a spotted cataract. Last March I was taken with La Grippe, and was confined to my bed for three months. At the end of that time, as in the start, then it struck me that your Discovery was the thing for me; I got a bottle, and before it was half gone I was able to go to my work in the mines. Now in regard to my eyes; as I lost my left eye, and about six months ago my right eye became affected with black spots over the sight as did the left eye—perhaps some twenty of them—but since I have been using your Discovery they have all gone. My right eye is now as good as the left, and the light of heaven is once more making its appearance in my left eye. I am wonderfully astonished at it, and thank God and your Medical Discovery. Yours truly, HANK WHITE.

PRINCE ALBERT IS DEAD

England's Heir Presumptive Passes Away.

A Sketch of His Life—The Great Cardinal Manning Succumbs to the Grip—Cardinal Simeoni, the Papal Secretary, Expires.

LONDON, Jan. 14.—News has just been received that the duke of Clarence is dead.

The last bulletin last night was favorable and there was no apparent change for the worst at 8 o'clock this morning. Soon after this there was a decided change for the worst and death came quickly and peacefully.

The duke died at 9:15 a. m. Reporters were not admitted and only the scantiest information was communicated. Queen Victoria was immediately notified of the death of her grandson. She at once telegraphed to the prince and princess of Wales her deep grief and her heartfelt share in their loss.

At 11 o'clock the mayor of London received a dispatch from the prince and princess of Wales. It only said: "At half past 9 this morning our beloved son passed away."

Flags on the tower of London and on all public buildings were placed at half mast, while at Windsor castle the half-masted flag also gave notice to the people of the royal bereavement of the calamity that had befallen the royal house. The whole country is in mourning. The news came with a shock upon the people, as the early morning bulletin had encouraged hope of a better result. The news was posted at Marlborough, the London residence of the prince of Wales, at 9:25, just ten minutes after the death of the duke. The crowd in waiting, largely composed of working people, gave vent to loud expressions of grief and sympathy and loyalty.

A dispatch from Sandringham says that when the last moments came, the prince and princess, and the prince and princess of Teck, and the Princess Victoria Mary, commonly known as the Princess May, the betrothed of the dying prince, were at the bedside. The Princess May had passed a sleepless night, but she bore herself with courage in the face of her terrible affliction. The princess of Wales was apparently overwhelmed by the sense of her loss. There was a marked improvement during the early part of the night, but the duke's strength suddenly waned at about 3 o'clock this morning, and he gradually sank until he died.

His eminence Henry Edward, cardinal of the Roman Catholic church and archbishop of Westminster, was born at Tuttlebridge, Hertfordshire, July 15, 1808. His father was the late Wm. Manning, Esq., a merchant of London. The late cardinal was educated at Harrow, and Balliol college, Oxford, where, in 1830, he graduated B. A., with first honors, and became a fellow of Merton college. After having been for some time one of the select preachers in the University of Oxford, he was appointed rector of Lavington and Grafton, Sussex, in 1834, and archdeacon of Leicester in 1840. When in 1851, he entered the Roman Catholic priesthood, he resigned these preferments. On March 15, 1875, Pope Pius IX created him a cardinal priest. He was invested with the cardinal's hat in a consistory held at the vatican on December 31, 1877.

The dead cardinal was during his long life an earnest advocate of temperance, and an unflinching champion of social reform. Within the past few years he actively interested himself in the settlement of the labor troubles which from time to time have arisen in London. The cardinal's Episcopal jubilee was celebrated on Monday, June 8, 1890. He was the author of several volumes of sermons and a number of theological books and many pamphlets.

CORSETS ARE CLOTHES.

A Decision That Will Interest All Womankind.

NEW YORK, Jan. 14.—Judge Wheeler in the United States circuit court handed down a decision yesterday most momentous to every woman in the land, and no one can tell to how many men.

"Corsets are wearing apparel," so says Judge Wheeler's decision. The dispute as to whether corsets are or are not wearing apparel arose through a consignment of these articles which arrived on the steamship Teutonic on April 30 last. They were imported by Ottenheimer Brothers, of No. Broadway. The collector of the port and the board of appraisers looked upon the corsets and straightway declared them to be wearing apparel and subject to a duty of 50 per cent. ad valorem.

Ottenheimer Brothers would not have it that way. They contended that the corsets should be admitted to the country to be distributed among the gentler sex at a 4 per cent. ad valorem duty as "manufactured cotton."

Major McKinley had not specified in his bill just what corsets were to be looked upon as being. The argument waxed warm, and even the married men differed in their answers to the question, "Are corsets wearing apparel?" So the controversy was carried up to Judge Wheeler, in the United States circuit court, to decide.

NEW YORK WANTS IT.

Gotham Working for the Democratic National Convention.

NEW YORK, Jan. 14.—The democratic national committee will meet in Washington January 21 to decide upon the time and place for holding the next national convention. Several committees will go on from this city next week and try to bring the convention to New York. There will be a committee of hotel men and a committee from Tammany. Public Works Commissioner Gilroy and Police Commissioner Martin will be on this latter committee. The democratic club will also send a committee, consisting of Daniel S. Lamont, Colonel John C. Calhoun, Charles F. Allen, John H. V. Arnold, John D. Crimmins, Walter S. Logan, Robert B. Roosevelt, J. Rockwell Fay, J. Rhineclander Dillon, Thomas E. Crimmins, Joseph Blumenthal, Roger Foster, Arthur C. Palmer, Charles P. Buchanan, Rollin M. Morgan, Nelson Smith and William J. Gibson.

KEELEY'S CURE FOR THE GRIP.

An Asafetida Pill Four Times a Day Said to Be Effective.

LOUISVILLE, Jan. 14.—A gentleman of this city in a letter to Dr. Keeley, of Dwight, Ill., stated that he had been suffering for several weeks with the grip. In his reply Dr. Keeley said:

"I would like to suggest a treatment for grip which I know is nearly specific as well as innocent. It is simply asafetida, given in four-grain pills, one pill four times a day. No man need be sick of the grip those days who will take it. For the past two years, with all the patients here subject, of course, to such epidemic, I have not had one man go to bed from the disease. I break it up very quickly, and, in fact, cure it. If this treatment was generally known it would save sufferers much expense and wretchedness and many useful and valuable lives."

LIEUTENANT DODGE DISGRACED

The Grand Jury Indicts Mrs. Blaine's Cousin for Burglary.

HANNIBAL, Mo., Jan. 14.—The grand jury today found a true bill against Lieutenant James T. Dodge, charged with burglarizing Edward Donsher's store here several months ago. Lieutenant Dodge is a nephew of Gall Hamblin and cousin of Mrs. J. G. Blaine. He will be court-martialed as soon as the army can get possession of his person from the civil authorities.

DEPARTED PEACEFULLY.

Cardinal Manning's Death Calm and Painless—Sorrow of Old Dependents.

LONDON, Jan. 14.—Cardinal Henry Edward Manning died this morning.

The Most Pleasant Way

Of preventing the grippe, colds, headaches, and fevers, is to use the liquid laxative remedy Syrup of Figs, whenever the system needs a gentle, yet effective cleansing. To be benefited one must get the true remedy manufactured by the California Fig Syrup company only. For sale by all druggists in 50c and \$1 bottles.

Hindustan, Martin county, Indiana, At 7:30 he became unconscious and he died at 8 o'clock. His death was calm and painless and appeared like a gentle sinking to sleep.

The household of the cardinal is in the deepest distress and there are pathetic scenes in the hall, the old man and other faithful attendants and friends weeping for the departed prelate.

Although Cardinal Manning had been suffering with a severe cold since Thursday of last week, it was not until Sunday morning he took to his bed. At that time there were symptoms of bronchitis and a slight congestion of the lungs. Sir Andrew Clarke authorized on Tuesday the issue of a bulletin stating that the cardinal still maintained his strength. On Wednesday the cardinal rapidly grew worse, and the last sacraments of the church were administered, death resulting as stated, this morning.

The display advertisement of the Odell typewriter will be found in one of the adjoining columns. We particularly call the attention of our readers to this machine, which has taken the most prominent place in the business offices of this country, and is rapidly replacing the old expensive machines. This machine is guaranteed to do perfect work, and its speed is equal to that of any other machine on the market. It has an attachment unknown in connection with any other typewriter, namely, a check perforator, that for use in any business office or bank is worth as much as the price of the whole machine.

"German Syrup"

A Throat and Lung Specialty.

Those who have not used Boschee's German Syrup for some severe and chronic trouble of the Throat and Lungs can hardly appreciate what a truly wonderful medicine it is. The delicious sensations of healing, easing, clearing, strength-gathering and recovering are unknown joys. For German Syrup we do not ask easy cases. Sugar and water may smooth a throat or stop a tickling—for a while. This is as far as the ordinary cough medicine goes. Boschee's German Syrup is a discovery, a great Throat and Lung Specialty. Where for years there have been sensitiveness, pain, coughing, spitting, hemorrhage, voice failure, weakness, slipping down hill, where doctors and medicine and advice have been swallowed and followed to the gulf of despair, where there is the sickening conviction that all is over and the end is inevitable, there we place German Syrup. It cures. You are a live man yet if you take it.
