per ct. difference. **ROYAL BAKING POWDER** Strongest, Purest, Most Economical.

Certain baking powder makers are publishing falsified extracts from the Government reports, with pretended analyses and certificates, wherein an attempt is made to compare their baking powders with the "Royal," or making bogus tests from house to house, their obvious purpose being to counteract the recent exposures of the inferiority of their own goods arising from their impurity, low strength, and lack of keeping qualities as shown by the Government chemists and others.

As to whether any of these baking powders are equal to the "Royal," the official tests clearly determine. When samples of various baking powders were purchased from the grocers, and analyzed by the United States Government Chemists and the Chemists of State and City Boards of Health, the reports revealed the fact that the "Royal" contained from 28 per cent. to 60 per cent. more leavening strength than any other cream of tartar baking powder, and also that it was more perfectly made, of purer ingredients, and altogether wholesome.

As these powders are sold to consumers at the same price, by the use of the Royal Baking Powder there is an average saving of over one third. besides the advantage of assured purity and wholesomeness of food, and of bread, biscuit, and cake made perfectly light, sweet, and palatable—advantages not to be had in the use of the low-grade, cheaply made baking powders that contain lime, alum, and other impurities.

When we become aroused by a knowledge of wrongs inflicted, we are apt to carry our redress to the bounds of revenge, and when once the tide is rolled back we do not feel satisfied until it has entirely swept away the interests which at first we only sought to control. The newspaper should see when redress becomes oppression, when lighteous indignation degenerates into

ighteous indignation degenerates into mad fury, and should not hesitate to call a halt, and to stay the destroying wave. Truth always lies about midway between the extremes. To poise public sentiment upon this pivotal point, and maintain it there, is a difficult, if not an impossible task, but the press of the country should do this as near as possible. It is a great thing to know when you have got enough, and a wise thing to declare it.
