THE BOSS STRIKER LEAVES HOMESTEAD SUDDENLY.

Non-Union Men No Longer Questioned-The Remaining Soldiers Will Probably Leave the Scene Some Time Next Week.

HOMESTEAD, Pa., July 30 .- Hugh O'Donnell has left Homestead quietly and is probably on his way east again. Mrs. O'Donnell was quite nervous yes-terday and said, when asked, that her husband was going away on private business. It is not understood here that the labor leader has any particular, mission East unless it be to further his political schemes. He had no commission from the Amalgamated association or the advisory committee, so far as could be learned.

The members of the advisory committee have little to say concerning the rosy reports of mill work, except that it is very easy to impose upon a person not acquainted with the subject. A fact which is being brought to the notice of the committee by many of the earnest fighters is the increasing number of absent workmen.

At the beginning of the fight a reso lution was adopted that any man who left Homestead without leave would not be allowed to work in the mill after the fight was over. For three weeks after June 28 very few people left town, and they all were excused, yet during the last week hundreds have gone away and as a result watchfulness has been most decidedly impaired.

A week ago not a stranger entered the mill but was not noted. Yesterday 150 went in and few knew of it until informed by the papers. This morning two strangers with valises got off the train at Homestead and inquired the way to the steel works. Some townsmen told them, but no one asked why they wanted to go to the plant. This could not have happened last week. The militia is largely responsible for this seeming apathy, as the men have come to recognize that so long as men remain'in the works it is impossible to argue with them and induce them to leave. So no necessity exists for such vigelance as before.

Camp Black was looking rather dreary yesterday. Several regiments have gone and others are breaking camp. Maj-Gen. Snowden and staff leave this afternoon. In an interview the com-manding officer said: "The troops have behaved admirably, the discipline bein almost perfect. I am well satisfied with the showing. It is deplorable indeed that a condition exists which necessitates the calling out of the State militia every two or three years to suppress troubles arising out of wage disputes. Some other means of settling these troubles should be arrived at."

The impression is prevalent among the soldiers who are to remain that they will not be kept longer than the end of next week. They expect a set-tlement of the lockout by that time.

KNOCKED OUT.

Acts of the Legislature of Michigan Declared Unconstitutional.

LANSING, Mich., July 30.—The Supreme court has handed down opinions declaring unconstitutional the two acts of the last Legislature reapportioning the Representative and the Senatorial districts in the State. The title of the ease involving the Senatorial gerrymander was "Theron F. Gidding vs. Secretary of State," and that involving the Representative redistricting, "Supervisors of Houghton County vs. Secretary of State." The mandamus asked for is granted in each case and the secretary is ordered to issue notices of election in accordance with the redistricting act of 1881, the acts of 1885 being held to be equally defective with that of 1891.

FRICK STILL IMPROVING.

Chritchlow, the Alleged Homestead Sharpshooter, Held.

PITTSBURG, Pa,, July 30 .- A bulletin issued by the surgeon in attendance upon H. C. Frick reports the patient as having passed a very comfortable night, his sleep being unbroken, and that he is apparently in an improved condition. Pulse and respiration are

Judge Magee has refused to release Sylvester Critchlow, the alleged sharpshooter at Homestead on July 6, and has held him for murder in the first degree. Close was released on \$10,000 bail.

The Sultan Wants Russia's Friendship LONDON, July 30 .- A dispatch to the Times from Tangier says: The Sultan announced to the court at Fez on the 20th inst., that he intended to ask the Czar to accredit a Russian minister to Morocco, as if this were done the close alliance between France and Russia would render him independent of other European powers. The Sultan and his advisers are, however, reported to be extremely nervous as to the possible consequences of his treatment of Sir Charles Euan Smith in Fez.

There are 12,000 rebel Angieras en camped in sight of Tangier. The Sultan and his soldiers are extremely unwilling to fight, but the rebels continue their terrible cruelties and their murdering and plundering of villages.

Damage Exceeds \$20,000.

Osage, Iowa, July 30.-Northern Iowa was visited by a terrible electric storm last night which did heavy damage to the crops and burnings this vicinity at this place five buildings were struck by lightning. one burning to the ground with a loss of \$2,500. H. F. Vanness of the Winona Southwestern railroad was killed outright. Small grain was laid flat to the ground and some totally destroyed, It has caused a loss of over \$20,000 in this county. The rainfall was nearly four inches in less than six hours.

JUMPED INTO THE LAKE.

The Body of Mrs. Charles Gray of

Galesburg Found. GALESBURG, Ill., July 30 .- The body of Mrs. Charles Gray was found in Lake George this morning. She had committed suicide. Mrs. Gray was out riding alone last night and failed to come home. A diligent search was made all night and this morning, and she was found by two policemen and reporters in twenty feet of water in the lake east of the city.

OUR ST. LOUIS LETTER. More Postal Experiments—A Municipal Menagerie-A Double Water

Works System St. Louis, Aug 1.—Lostmaster Harlows's scheme for railway postal service in the city, by means of the street carlines, has been abandoned for the present, because satisfactory financial arrangements cannot be made with the roads which would have to carry the mail. The present to the roats are mail. The pneumatic tube postal service will be put into operation in the fall, and it is likely that visitors to the city will then be able to see a remarkable postal convenience between the central and southern part of the city in full swing. The postal demands of St. Louis are not content with this, however, and the department has or-

however, and the department has or-dered ten new sub-stations to be estab-lished in the outlying districts, The Zoological garden in Forest park, which was established a few years ago by the gift of a few buffalo to the city, has been added to so constantly, from year to year, that, it is now considered by collectors to be worth nearly fifty thousand dollars. The city legislators have just discovered that there are a lot of animals worth looking after out there, and have appropriated a large sum of money to build comfortable quarters for them, and to buy others. The Park commissioners, as they succeeded one another, have carried out a general plan of buying only tame animals, and there is not one ferocious fone in the

whole enclosure now devoted to them. St. Louis will soon be the only city in the United States with two systems of water works in constant operation. In these days, when the most ordinary water works plant costs between one and two million dollars, most cities are glad to have one system in good condi-tion. By a peculiarity of this city's laws, the revenue from the sale of the water can be used only for the extension of the water works, and consequently there is always plenty of money to carry out the plans of the engineers. The Water commissioner is now making arrangements to build one water works station to supply the suburbs exclusively, and he will have it finished a short time after the new city water a short time after the new city water works are completed. The minor station will pump water to places within six miles of the city. Same of these suburban towns are so high that they can't be reached by the ordinary city pressure, and without the proposed system they would have to build works the complete of the com of their own or depend on cisterns and wells.

This summer in St. Louis is going to

show many fewer sunstrokes than there were last summer. Sunstrokes are things that can't be helped in a large where people will work hard dur ing the hot months and eat and drink carelessly. As a matter of course, there are more sunstrokes in tenement houses, where people are huddled together, than there are where there is more room. Since last year the tene-ment house district of the city has lost fully one-third of its population, partly because of the railroads entering the town, which tore down numbers of the rickety dwellings, and partly because great efforts have been made by real estate men to fill up the suburbs through the sale of houses and lots on season. List year many people died in their beds at home, overheated. This year there has not been one case of the kind reported, and the sunstroke physicians have had little to do. Designs for the statue of Gen. Sherman, which is to be put in front of the city hall at St. Louis are being made not only by the artists here, but by several sculptors in Paris, who want to get a foothold in America. As soon as the hall is ready for the statue a prize is to be offered for the best design, the only condition being that the figure must be equestrian. It is believed by the arbists that there will be at least ten designs in the competition,

Hiring Men at St. Louis.

St. Louis, Mo., July 30 .- An agent of the Carnegie company is actively at work in this city engaging workmen for the mills at Homestead. Many employes of the Vulcan and Jupiter iron and steel works, which have been idle for some time, have been engaged for the Carnegie works. It is stated that 115 men have been sent to Pittsburg on free transportation during the last week.

The Utility of Typewriters

is now so generally recognized, that the bus. ness of making and selling them has rapidly become a profitable one. Of course such a state of affairs tempts many to try to secure a portion of the profits, rightfully belonging to the original inventors and their successors. Old ideas, which have been tested and rejected years ago, are refurbished and trotted out to do duty as "latest improved," etc. The apparent indifference of the Remington typewriter people, who control the leading fundamental patents, has encouraged infringers to boldly make use of the Reming-

The near approach of a day of reckoning is now foreshadowed by the granting of an injunction in New York against the sellingagent of one of the small-fry typewriter concerns. It is reported that other suits will speedily be brought against other machines. An injunction-a very unusual proceeding in mercantile cases-has been allowed, and the agent of the Franklin has been compelled to top business in the Franklin machines entirely. After the manner of culprits, the offenders immediately tried to break the force of the matter by explaining that the patent on which they had infringed had but a few months to run, etc., etc. The injunction stands, nevertheless, and the Remington Co's. attorneys are understood to have plenty of similar cases against this and other machines which are to be brought to judgment very

WILL GO BAST AGAIN.

Second Edition of "Nebraska on Wheels" to Leave in September. OMAHA, July, 29 .- The advisory board of the Nebraska State Business Men's association held a meeting at the Mercer last night to consider the matter of sending out a sencond edition of the train, "Nebraska on Wheels," which was sent through the east last year and attracted the attention of hundreds of thousands of eastern peopie to the broad and fertile fields of Nebraska.

There were present L. D. Davidson Omaha, general president; O. J. King of Lincoln, first vice president; S. S. English of Eagle, third vice president; R. F. Hodgin of Omaha, general secretary; F. H. More, Kearney; S. H. Colvin, McCook; C. F. Iddings, North Platte.

Secretary Hodgin stated that arrangements had been made with the railroads to bring all material for exhibits to Omaha free of charge, and the railroads would also furnish free transportation to Omaha and return for a man from each county to ar-

range the exhibit of his county. The secretary was instructed to investigate the matter of lighting the train and report on the best method of accomplishing this.

It was decided to assess each county \$200, except Douglas and Lancaster, which will be assessed \$500 and \$350 respectively. This amount entitles the county to send one man to look after its exhibits. Additional men may be sent for \$150 each.

The number of counties is to be limited to thirty, the counties to be assigned positions in the order of the receipt of their application accompanied by the cash.

Each county is required to furnish 15,000 pieces of advertising matter descriptive of the county.

The counties represented on the train will each be allowed 2,000 words of matter descriptive of the county, in a book to be issued by the state board. which will contain about twenty pages of matter descriptive of the state. This descriptive matter must be furnished by August 20.

F. H. Moore of Kearney was elected treasurer of the train fund, to receive and disburse all moneys connected with the exhibit. All money should be sent

to Mr. Moore.
All counties intending to participate must have their quota of the assessment in the treasurer's hands not later than August 25. No material for exhibits will be received later than two days after the close of the state fair.

The train will leave Omaha September 15, and will run direct to a point in Eastern Ohio. where the first stand will be made. From there the train will go through New York and Massachusetts, stops being made at numerous points.

The trip will occupy about thirty days. The secretary was instructed to prepare the necessary advertising matter and send advance agents ahead of to give notice of its approach.

Many Coming to Omaha to Attend the Imperial Council.

OMAHA, July 29. - Chairman Crumt of the caravan committee of the Mystic Shrine, has received a letter stating anarchist. The paper was filled that 100 Shriners from St. Louis will with matter bloodthirsty and bomcheap plans. The fast roads, which were extended into every part of the town, made it possible for the mechanics and even the industrious laborers to live on the edge of the city, and remove every door from its hinges. paper as truly advocates and defends in pure air and near the parks, and at the same time to get to their work in the same time to get to their work in the St. Louis Shriners. Letters to munistic anarchism as did the Alarm, others state that they will bring their own servants and commissary.

The program of the St. Louis temple is an index of the great time that many of the bodies of the Shriners propose to have in this city. The parade the night of August 15, starting at 7 o'clock, with its large and gorgeous caravan, its camels and costumes its several thousand participants, will be the culmination. It is expected to last from two to two and a half hours and will be followed by receptions by Governor Boyd and Mayor Bemis at the Paxton, which is the headquarters. The banquet will be at the Millard.

Colonel Akin, illustrous potentate of Tangier temple, the body of Shriners in this city, believes that from what has come to him in the way of official correspondence, nearly every one of the sixty-two temples in America will be represented, not only by delegates, but also by members. There will be about 150 delegates, all told, to the imperial council, the legislative body; and about 2,000 Shrines; and besides these there will be Knights Templar and other Masonic visitors to the number of 6,000 to 8,000. They may not all be here on the same day, but Omaha will be thronged with them between

August 12 and 17. Many ladies will accompany the Shriners, and Memphis, which will bring at least fifty nobles of the shrine. has given notice that there will be a large contingent of the fair sex accompanying it.

Reports of damage to corn in Kansas by hot winds and to wheat in the Northwest by rust made grain traders bullish.

Our readers will remember the particulars of some remarkable cures published some weeks ago in these columns. These articles attracted widespread attention for the reason that medical science had hitherto held that the diseases in question were incura-In our last issue appeared the particulars of another equally remarkable case the person who thus miraculously recovered being one of the best known merchants of Detroit Mich. The article appeared under the heading "A Detroit Miracle," ard merited a careful perusal.

THE REDS ARE IN IT.

AN ANARCHISTIC PROPAGANDA PRECEDED THE ASSAULT

On Mr. Frick Saturday-The Arrest of Anarchist Knolds Leads to Important Developments--Lucy Parsons Figures In It-Mysterious Cyphers.

PITTSBURG, July 28 .- Anarchy in the United States is not dead; it is not even sleeping. Its high priests are just as wideawake, just as venomous, their ramifications just as extensive and perhaps more so than they have ever been. The lesson and warning of the execution of Spies, Parsons, and their associates, and by the repeated prosecutions and convictions of Herr Johann Most, have failed even to bruise the head of the transplanted monster. Anarchy is as much a thing of life as ever. So much has been evidenced by the attempt upon the life of Henry C. Frick and the subsequent developments that have come to the surface. The police are naturally jubilant over the arrest of Carl Knolds, and believe that they are now on the way toward the fountain head of the conspiracy that culminated in the tragedy of Saturday. For some time past the socialistic and anarchistic elements of Allegheny have been keeping under cover, and the authorities have flattered themselves that their vigilance for the last two years had been rewarded and that the element had lost its desire for mischief. They have however, been deceived, for the search of Knold's residence last evening proved conclusively that the circle or section, or whatever it may be called, has been continuously engaged in active propaganda and is intimately associated with other opponents of free government and liberty-loving institutions in different parts of the United States. In the rooms were found vast quanti-

ties of anarchistic literature and correspondence, indicating that anarchy has abiding places either in the persons of groups or individuals in New York, Chicago, Denver, and other points. A large number of cyphers and cypher communications which were brought to light indicated the existence of a general and secret mode of communication. One of these cyphers, inclosed in an envelope bearing a New York date, appeared to be based upon the Hebrew alphabet. This appeared to dovetail in with a second that appeared to be simply a combination of unintelligible scrawls, and this by figures on its back was apparently a key to a third, in the form of an ingenious geometrical chart, with numerous curves, each different from the other. A linen railroad map of the United States had upon it three marks, intended to indicate air lines between New York and Chicago, and these were marked at intervals with figures, which related to cipher words on the back. So extende was the supply of Anarchistic litera-ture found in the place as to indicate that it must have been used as headquarters for the distribution of GLORIES OF SHRINERS WEEK. this dangerous stuff through the country. There were numerous copies of Freedom, a rabidly anarchistic sheet, emanating from Chicago and be in Omaha during the imperial coun. bastic, some of the articles calling upon edited by her husband, and pledges for

it the cordial support of all the "comrades" hereabouts. There was also a bundle of another Chicago anarchistic sheet, named Gasalift, printed on deep red paper, and of Herr Most's Freiheit. Some had black and others red borders. Of various communications in German, and written from widely separated places, there was enough to fill a small satchel, while as a finale the police came across a packet of tickets for a raffle of a tine relief picture of the five martyrs of the working classes-Spies, Parsons, Lingg, Engel and Fischer—the proceeds to go "for the benefit of the English agitation," the raffle to be held next month.

ANARCHISTS SENTENCED. Long Terms for the Sixteen Brussels

Criminals. BRUSSELS, July 29 .- The trial of the sixteen anarchists at Liege was concluded in a verdict of guilty on all the counts of the indictment, which included charges of conspiracy to steal explosives, to destroy property and an attempt to blow up the Ombret powder mill. The verdict was received amid profound silence. Moineau, the head of the band, was sentenced to twentyfive years' penal servitude; Wolff and Beujeau, two of the leaders, to twenty years each; four others to fifteen years

each and two to ten and three years respectively. Will Succeed Controller Lacey. WASHINGTON, July 28.-A. B. Hepburn of New York was named for Con troller of the Currency yesterday. is at present a bank examiner. was strongly indorsed by leading New-

Yorkers, but his indorsements were

not confined to that section. Mr.

Hepburn enjoys the friendship of ex-

Controller Lacey, now president of the

Bankers' National bank of Chicago. National Bank at Mulberry, Ind. Washington, July 30.-Application has been made to the Controller of the Currency for authority to establish a National bank at Mulberry, Ind., to be known as the Farmers' National bank. President Perrin of Lafayette, Ind., and associates are interested in the or ganization of the new financial institution, the capital of which will be THE DALTON GANG AGAIN.

Woman Cashler Held Up and 610,000 Se-

cured in El Resc, O. T. El Resc, O. T., July 29.—The Dal-tons turned their latest trick here at 10:30 o'clock yesterday when they robbed the Bank of El Reno of \$10,000. The president of the bank, S. W. Sawyer, was absent in Oklahoma City, and there was no one in the bank save Mrs. Sawyer, who is the cashier. A stranger stepped up to the cashier's window, made an inquiry about some town lots and then went to a desk and began writing. Suddenly another man entered the bank, and, stepping up to Mrs. Sawyer, presented a revolver at her head, at the same time

requesting that she turn over all the money in the vault. Mrs. Sawyer was so paralyzed with fright that she did not move until the robber recalled her to her senses by intimating that unless she act quickly he would blow her head off. She thereupon entered the vault and took from tne safe all the money it contained, This, together with what was in the daily cash draw, she pushed over the counter. The man who was writing at the desk turned quickly, seized the money as Mrs. Sawyer handed it through the wicket and darted out of the door. He was speedily followed by the man with the revolver. As soon as the danger was past Mrs. Sawyer screamed and swooned away.

Outside the robbers mounted horse they had left standing near the door, and rode out Rock Island avenue at a rapid pace. Neither wore masks. Their haul approximated \$10,500, less than \$100 of which was in silver. When Mr. Sawyer returned from Oklahoma City half an hour later he found \$10,000, has furnished a description of the bank full of people who had been attracted by the news of the daring robbery. From his wife, who had recovered consciousness, he learned the story of the hold-up.

MAY USE EXPLOSIVES.

Homestead Strikers Threaten to Blow Up the Mills.

HOMESTEAD, Pa., July 28.-Since it has become evident that the Carnegie Steel company, under protection of the National Guard, is about successfully to operate its mills prominent members of the advisory committee bave been considering ways and means for preventing any successful working of the plant. One of the prominent members of this committee yesterday said:

"We will not, under any circumstances, permit those mills to run if there is any agency which may be employed to prevent it. We have already selected men who will go into those mills as fast as they can secure employment, who are instructed and sworn to carry out our orders in con-summating the policy which we have agreed upon. When we are sure there is no longer any hope for us our representatives in the mills will place explosives where they will do the most harm to the machinery. We have definitely determined that these mills shall not be operated by non-union men, and one of the principal ways to prevent it is to either control or wreck the property. I might say a great deal more, but under the circumstances I have gone as far as I dare."

One Regiment Ordered Home

HOMESTEAD, Pa., July 28 .- A mighty shout went up from 600 lusty throats yesterday when the news reached the boys of the Eighth regiment that they had been ordered home, and the members of the other regiments in the Delegates to the Colorado silve Third Brigade joined in the cheering when it was reported to them as probable that they, too, would be homeward bound within a few days.

CAN SWEEP THE SEA.

Launching of the United States Cruiger Columbia.

PHILADELPHIA, July 28.—The new United States cruiser, No. 12, was launched at Cramps' ship yard yesterday in the presence of a large crowd of spectators. Among those present, besides a number of naval experts, Senators and Representatives and agents of foreign governments, were Vice-President Morton, Secretary Tracy, Assistant Secretary of State Grinnell, Senator Hiscock, Commodore Wilson and Naval Constructors Bowles and Woodward, Mrs. Morton and Miss Edith Morton. The last named young lady performed in a graceful manner the act of christening the new vessel Columbia.

Condemn the lams Torture.

WASHINGTON, July 29 .- The torturing of young lams for cheering the would-be assassin of Frick promises to become a national issue. From the first news of the affair condemnatory comment has been growing here, and while coming to the capital yesterday Judge Holman declared that Congress should express its condemnation of this restoration of the torture.

"I shall try to have some member from Pennsylvania offer a resolution," he said; "but if I fail I shall introduce one myself. It will not do to have the country suffer from a repetition of such an outrage on civilization."

The Maxwell's Damage. LIVERPOOL, July 28.—The British ship Maxwell, Capt. Fraser, which was run into and sunk by a schooner near the mouth of the Mersey while en route from this port for San Francisco and which was floated and docked, has lost eighteen feet of her after keel and ten feet of her sternpost. Her plating and rudder are broken. She will discharge her cargo and undergo repairs.

Distribution of Russian Rellef.

St. PAUL, Minn., July 29.-The commissioners in charge of the Russian relief fund from this State have submitted their final report to the Governor, The report shows that in all 241 cars of flour were distributed among the Russians. The Russians took hold of the distribution. The commissioners speak highly of the systematic man-estants. The French Bishop in U ner in which the Russians transacted urged the Catholics to continue th the business.

NEWS IN BRIEF.

Rains in Kansas prevent damage to the corn crop. Crop reports on oats from Iows and

Nebraska are not very good. One hundred men left New York City destined to take the place of the strik-ers in the Homestead mills.

George K. Sistare, a New York banker, committed suicide in the Manhattan club. No cause is assigned. Gov. Peck has received a call from the mayor of Merrill, Wis., for help to

subdue riotous mill strikers who were in possession of the town. At Havre, Mont., old Fort Assinsboine; the mercury dropped to 30 degrees. At Winnipeg, Man., it dropped to 42 degrees. The cold wave is general over the Northwest and is travel-

ing eastward. Fire in Pittsburg, Pa., destroyed G. Evans' china and glassware house at the corner of Market street and Third avenue. By the overturning of a hose cart running to the fire three firemen were seriously injured, one, it is feared, fatally.

Rates for the G. A. R. National encompment at Washington were fixed at one full fare by the Taans-Missouri Passenger Association, in session at Kansas City. This rate is with stopover privileges and without limitations.

Joint scale committee of the Amalgamated association and Iron Manuacturers held another conference at Pittsburg and adjourned for two weeks, the men to resume work on the old scale for that time, and the new scale to be settled by arbitration.

Mrs. Sawyer, cashier of the Bank of El Reno, O. T., which was robbed of the robbers which leads to the belief that they were members of the Dalton gang. The bank was placed in the hands of a receiver Thursday at the instance of depositors.

Gen. James B, Weaver addressed a crowd of 8,000 people at the Mineral Palace in Pueblo, Col., and Mrs. Mary E. Lease of Wichita; Kan., spoke to large, overflowing meeting in streets. Collection baskets were filled with silver at the close of meetings.
