

THE FRONTIER.

PUBLISHED EVERY THURSDAY BY THE FRONTIER PRINTING CO. O'NEILL, NEBRASKA.

STATE NEWS.

NEBRASKA MISCELLANEOUS MATTERS. -The Norfolk Daily Herald has suspended. -Nebraska City's bonds sold at a handsome premium. -The fire at Alliance destroyed seven business houses. -Hogs at South Omaha last week reached the \$6 point. -About 300 teachers attended the Gage county institute. -Tamora will build a three-story brick and stone opera house. -The democratic state convention will be held in Lincoln August 30. -The Deuel county institute had one hundred teachers in attendance. -Thos. Goodchild, the oldest colored man in Grand Island, died last week. -August Johnson was arrested at Omaha for stealing \$200 from his aged father. -Wheat harvested in the vicinity of Valentine is not of as fine quality as last year. -Butte is to have a fifty-barrel roller mill. Work upon the structure is now progressing. -The annual commencement exercises of the Fremont Normal college were largely attended. -A Catholic priest will be regularly stationed at Alliance, September 1, and the erection of a church begun. -During a storm at Table Rock Mrs. John Decker was struck by lightning, but was not seriously injured. -Mr. and Mrs. Vincent Burkley of Omaha last week celebrated the golden anniversary of their marriage. -The first steam flouring mill in Scotts Bluff county will be built near the Plateau bridge. It will cost \$6,600. -A case of supposed small-pox has developed at Lincoln, and the victim has been quarantined on the prairie. -The Omaha Tobacco company has been organized. It will operate a factory and employ fifty men at the start. -There is no clue as yet to the Cole murder in Hastings. The coroner's jury has adjourned to await developments. -The electric light system of Chadron was for the first time turned on last week. The citizens celebrated the event. -Last week the locomotive entered Imperial for the first time, and now the county seat of Chase county is a railroad terminus. -The fourth annual reunion of the old settlers of Cass and adjoining counties will take place at Union, Cass county, August 22. -J. W. Risk of Battle Creek returned home Saturday from a trip to Germany, where he went with cattle about two months ago. -Company C. N. G., at Nebraska City, propose to go into camp for several days next month even if there is no state encampment. -The state board of pharmacy was in session in Lincoln last week to act upon a small number of applications for druggists' certificates. -John Downey of Jefferson county had his left hand torn off. He was oiling a threshing machine and his hand caught in the side gearing. -The University of Nebraska Offers Six Years of Education FREE. Write to the Chancellor, Lincoln. -Fred Taskey, an engineer in the Plattsburgh B. & M. shops, had his back badly burned by a stream of hot water from a boiler he opened, thinking it empty. -Mr. James Young of Wahoo had the misfortune to get his shoulder thrown out of place while leading his pony last Thursday. Some of the ligaments of the arm were also broken. -Four boys, ranging in age from 12 to 15 years, were arrested in Fairbury for entering residences and appropriating money and valuables. They all proved to be residents of Kansas City. -Lawrence Gensvick, an employe of the Swift Packing company, South Omaha, jumped from a freight train moving at the rate of twenty miles an hour, receiving injuries that will probably prove fatal. -Mrs. S. E. Stilson had the misfortune Tuesday to lose a \$10 bill while in Hyannis. She received the bill at the postoffice and put it in her hand satchel and from that moment it mysteriously disappeared. -Mrs. C. A. Turman, wife of Rev. L. B. Turman, three miles northeast of Table Rock, was severely injured by being attacked by a vicious bull. As she is quite well along in years serious results are feared. -State Superintendent Goudy has received official notice from the national committee on public school celebration of Columbus day through its executive committee of the bill passed by congress making October 21 a public holiday. -D. A. Holmes of Norfolk worked hard without hope of pay two years ago to secure the release of Henry Paulson from the penitentiary and succeeded. The other day he received a deed to a quarter section of land from Paulson. Nebraska now has one of the best medical and surgical sanitariums in the west. This has been a long felt want, as a great many are unable to bear the expense of a trip to eastern cities for surgical operations and proper nursing and medical treatment. The sanitarium is located in the city of Omaha, on the corner of 16th and Howard streets.

-Syracuse is figuring on putting in city water works and electric lights. -Five young men of Chicago went down the Missouri in a thirty foot skiff and some Omaha boys are about to attempt the same voyage. -C. L. McKenna of Sarpy county is going to start a fish hatchery or fish pond on his place this fall. He will stock it principally with carp and bass. -The farmers of Cuming county have organized a protective association to take measures against a gang of thieves that have been doing them damage. -Robert Miller of Peru, while exercising in the gymnasium at that place, fell a distance of seven feet receiving a fractured rib and being otherwise bruised. -A man named Henry Smith was arrested in Hastings for breaking into a millinery store and stealing several ladies' hats and three bolts of ribbon. His excuse is that he was drunk and didn't know what he was doing. -City County has 6,171 children of school age against 5,189 last year. Of this number 1,846 were enrolled upon the teachers' registers. Last year there were 124 teachers; 63 male and 61 female, to whom was paid the sum of \$41,904.38. -The application of C. H. Paul, executor of Adams county, for pardon will be heard by Lieutenant Governor Majors on the 20th. Paul was convicted of embezzlement of \$750 of public funds. The indictment charged that he had embezzled several thousands. -The report has been circulated that the state university can accommodate no more students this year, but the report is unfounded. Indications are that the university will be crowded, but Chancellor Canfield wants it understood that care will be taken of all who apply, and good care, too, at that. -William Leech of Covington was arrested in Dakota City and taken before Judge Warner, where he waived his preliminary examination and was bound over to the district court in the sum of \$1,500. He is charged with setting fire to the building in Dakota City which was occupied by Attorneys Jay & Beck on the night of July 15, 1891. -An election has been called by the city authorities of Beaver City for the submission of the water works question. The spirit of public improvement is so strong that the question is practically decided in favor of water works. The system of A. A. Richardson of Lincoln has been adopted and he will have charge of the construction of the same. -L. T. Martin of South Omaha came near being a victim of the waters of Lake Manawa the other evening. In company with a number of friends he was bathing at Manhattan beach. Martin was quite a distance from shore in deep water and was noticed by a floundering, when W. B. Cheek went to his assistance and got him safely to shallow water. -H. E. Eaton, the fireman on a special ahead of the fast mail, last week while passing Shelton, stuck his head out of the cab window and was struck in the forehead by the mail crane set to catch the sack from the car, cutting an ugly gash four inches long. He was taken to Grand Island and the wound dressed by the company surgeon. He is not dangerously hurt. -As a substitute for the annual encampment of the N. N. G., Adjutant Viquian has just directed that the companies of the two regiments shall each have an opportunity to do a little drilling just the same and he has fixed days for each. September 14th and 15th have been named the days for company E of Fremont to don their regimentals and go through the manual of arms. -Prof. Swisher went to Aurora last week and at once began operations to produce rain. His contract provided that if there should be a rainfall of one inch over a radius of twelve miles, within four days from the time he began operations he was to receive \$600. In other words, he bet his time and hotel bill against \$600 that one inch of rain would fall in four days. He lost the bet. -Louis Steltner, an old German hermit living in the northwestern part of Knox county, was found dead in his bed last week. He was 85 years old. About 500 acres of land had been accumulated by him and a lot of stock. A few years ago he became worried over being on two official bonds, when he transferred his real estate to Judge Smith of Yankton and sold his personal property, the proceeds of which are said to have gone the same way. -Dakota's county seat muddle has been finally settled in favor of Dakota City. Judge Norris granted a temporary injunction restraining the board of supervisors from taking action on the petition calling for a relocation, in obedience to a decision handed down by the supreme court. At the convening of court in November the case will be dismissed from the docket, and Dakota City will have won one of the hardest fought and longest drawn out county seat contest cases on record. -Applications have been made to the state reunion committee from various portions of the state for quarters for more than 12,000 veterans, members of their families and friends. They are still coming in by every mail. The demand for both privileges is also more active than ever before and everything indicates an attendance of at least 25 per cent. over that of any previous year, and the committee has found it necessary to increase the tent order to a very considerable extent. A very large number of wells, furnishing excellent water, are being put in order and arrangements perfected to supply ample quantities of wood, hay and straw.

AN APPEAL ISSUED.

STRIKING IRON WORKERS ASK FOR A BOYCOTT. They Believe This Action Would Bring the Company to Terms—May Be More Trouble at Duquesne—The Situation at Homestead. PITTSBURG, Pa., Aug. 14.—President Samuel Gompers of the American Federation of Labor, and the members of the executive board of the organization arrived in this city yesterday and held a conference with President Weihe and Vice-President Carney of the Amalgamated association. The following statement was given out at the close of the conference: The executive council of the American Federation of Labor held a conference with the executive officers of the Amalgamated association of Iron and Steel workers, lasting from 10 o'clock in the morning until 12:30 o'clock this afternoon. The various phases of the present situation of the Homestead lockout were considered, and it was resolved to have a conference with the advisory board of the Homestead mills before taking any action. It can be reliably stated that relief measures only were considered, and the conference did not touch on the subject of a boycott. Yesterday closed with nothing new in the strike situation except a threatened renewal of hostilities on the part of the workmen at Duquesne. Several of the workmen said great dissatisfaction existed among the men and that a strike was probable. It is not thought, however, that the threatened movement will materialize, although the Duquesne workers have kept up their organization even though it is not recognized by the firm. The strikers at the Thirty-third street mill have ordered the return of all of their number who have been away on vacations, and on their arrival a meeting will be held to discuss what shall be done. The result of this meeting may be the abandonment of the strike, but such action is hardly looked for. HOMESTEADERS DISAPPOINTED. They Expected Gompers and His Colleagues—Aid Dispensed. HOMESTEAD, Pa., Aug. 14.—The locked-out men were out in large numbers yesterday to greet the executive council of the American Federation of Labor. The members did not arrive, and there was much disappointment until acting Chairman Crawford received a telegram from Pittsburgh informing him that the council was there and would very important results as an outcome of the council's deliberations. They believe that the threat of a general boycott or the inception of it will frighten the Carnegies and force them into another conference. The mill management, however, appears in no wise concerned, and intimated that if council does systematize a boycott suits for conspiracy would follow. Relief was again given the laboring classes, the number applying exceeding 1,200. The advisory committee has decided to send Burgess John McLuckie to Boston with O'Donnell and Brown. He will start for there to-day. The latest move of the Amalgamated association is an attempt to get the iron establishments of Pittsburgh and elsewhere to refuse materials that come from the Carnegie mills. A circular headed "Appeal to Workmen" is now in the course of circulation. It reads as follows: "You are requested not to work up the materials that may be shipped from the works of the Carnegie Steel company during the present strike. By so doing you will help us gain a victory in our present struggle for organization." COMMITTEE OF STRIKERS. The Pittsburgh firms will be first supplied with the circulars, and then attention will be turned to other manufacturers. LARGEST CROP EVER KNOWN. Glowing Reports from Kansas Concerning the Corn. KANSAS CITY, Mo., Aug. 14.—Kansas will market the greatest corn crop in history this year, is the conclusion reached by those who have made a study of the situation as it now exists. The recent rain, which was general and copious over the State, has placed the grain beyond fear of damage by either hot winds or drought. Advances have been received from along the lines of every railroad in the State, and they show that not less than 130,000,000 bushels of corn will be marketed or fed to stock in the State this fall. This means that the State will surpass all efforts in this line. "CHRISTIAN" INDIANS. They Object to Hanging Bodies on Poles and Burn a Village. VICTORIA, B. C., Aug. 14.—Confirmatory advice has been received of the burning of an Indian village on Queen Charlotte islands. The fire was started by some Christianized Indians from Vancouver Island who objected to the hanging of dead bodies on poles in one portion of the village, this being the tribal manner of burial. Superintendent Vowell has been requested to investigate. TYPEWRITERS AT THE WORLD'S FAIR. The Remington Secures the Exclusive Contract. The Committee of Wars and Means of the World's Columbian Exposition has awarded to Wyckoff, Seaman & Benedict (Remington Standard typewriter) the contract for furnishing all the writing machines to be used on the Exposition grounds during the Fair. A large number will be placed at convenient points throughout all of the buildings, and are intended for the accommodation of the general public, representatives of the press and the officers of the Exposition. About two hundred expert operators will be selected by the Remington Company for this purpose.

TO MURDER H. W. FRICK.

Police Claim to Have Unearthed Another Plot. PITTSBURG, Pa., Aug. 13.—The police, it is alleged, have discovered another anarchistic plot to assassinate H. W. Frick, the chairman of the Carnegie Steel company. The intended assassin is the Anarchist Aaronstamm of New York, who is a close friend of Berkman and Emma Goldman. Aaronstamm has been in the city for several days and it claimed has been waiting for a favorable opportunity to kill his victim. He is said to resemble Berkman and is armed with a revolver in one pocket of his coat and a dynamite bomb in the other. The plot was hatched in Vienna, and was given to the New York police by Vice-Consul Eberhardt of Austria. The information was given to Mr. Eberhardt by an Austrian who arrived in New York recently with letters from the high police authorities of Vienna stating that the Austrian's story could be relied upon. The New York police at once notified the Pittsburgh authorities, and a close watch for Aaronstamm is being kept about all the Anarchists' resorts. As a result of the disclosures additional guards have been placed about the Carnegie buildings and Mr. Frick's residence he goes. Secretary Lovejoy has been warned that he has only until Aug. 15 to live. Other officials of the Carnegie company have also received threatening letters. The police are satisfied, however, that they can frustrate the plans of the Anarchists. THEIR LABORS ENDED. Knights Templars Finish Their Work and Adjourn. DENVER, Colo., Aug. 14.—The Knights Templars grand encampment finished the work of the conclave and adjourned yesterday, after having installed the newly elected officers. Grand Master McCurdy made the following additional appointments, which, with the officers elected yesterday, make up the full list of officers of the grand encampment: Sir Rev. Joseph M. McGrath, D. D., Illinois, Prelate; Sir William B. Melish, Ohio, Grand Standard Bearer; Sir George C. Conner, Tennessee, Grand Sword Bearer; Sir H. M. Oranhold, Colorado, Grand Warden; Sir John A. Sloan, Missouri, Grand Captain of Guard. The Grand Master also appointed the following committee of jurisdiction: Sir James E. Hopkins, Pennsylvania; Sir John Q. A. Fellows, Louisiana; Sir John W. Fellows, New Hampshire; Sir John C. Smith, Illinois; Sir Ferd. J. S. Gorgas, Maryland; Sir John Frizzell, Tennessee; Sir Logan H. Roots, Arkansas. BERING SEA CASE. The Statement of the United States Soon to Be Transmitted to England. WASHINGTON, Aug. 14.—The preparation of the Bering sea case by the State department is now about completed, and it is expected the papers will soon be interchanged with Great Britain according to the terms of the treaty. It is known that every effort has been made by the department to have the case complete in every respect as care and thoroughness could insure, and it is stated that nothing has been neglected to strengthen the United States' position and prevent controversy, so far as regards facts and statistics relating to the questions involved. CONFESSES HIS CRIMES. A Dakota Man Acknowledges He Set Fire to Buildings. SIOUX CITY, Iowa, Aug. 14.—Robert Thompson, a barkeeper who has long been in the employ of Bill Leach, a leading saloonkeeper in Covington, Neb., and an Alderman, yesterday afternoon made confession under oath that he set the incendiary fires which have destroyed so much property in Covington and Stanton during the last two years and that he did it at the instigation and in the pay of Leach. He says that Leach took this measure of destroying rival saloons and avenging himself upon enemies. The two towns are adjoining and among the toughest in the West. One Hanging Instead of Two. AUSTIN, Texas, Aug. 14.—Lindsey Ellis, a negro murderer, was to have been hanged to-day, but last night Gov. Hogg commuted his sentence to life imprisonment. The Governor refused to interfere in the case of Henry McGhee, who killed an officer while resisting arrest; and he was hanged at Houston. All Are Invited. WASHINGTON, Aug. 14.—Under the act of Congress authorizing the President to invite foreign naval powers to participate in the naval review to be held in New York harbor next April, the State department has issued invitations in the name of the President to the naval powers of the world. A Cool Thief Secures \$12,000. NEW YORK, Aug. 14.—A cool thief with a fraudulent order carted away twenty-five bales of tobacco from the Rotterdam steamer Diadem. The theft was not discovered until Wednesday, when a truckman called for the goods. The goods are valued at \$12,000. Objected to a Chinaman's Attention. TUCSON, Ariz., Aug. 14.—Lee Lock, a Chinaman, shot and killed a Mexican yesterday. The Chinaman was paying attentions to the Mexican's sister. The Mexican objected to any further attentions. A quarrel followed, which resulted in the killing. Dynamite Harkins Dies in Prison. PHILADELPHIA, Pa., Aug. 14.—Michael Harkins, the dynamite worker who was arrested and imprisoned for trying to kill Queen Victoria on Jubilee day in 1887, died yesterday. Dr. Gallagher, who was with him at the time, is still in prison.

FOR THE BIG FAIR.

PREPARATION OF NEBRASKA'S COING EXHIBIT. Substantial Progress Being Made—Organization of Auxiliary Societies. Nebraska at the World's Fair. GRAND ISLAND, Aug. 23.—Substantial progress is being made in the preparation of the Nebraska exhibit at the World's Fair. During the past few weeks, between forty and fifty auxiliary World's Fair associations have been organized in this state, extending over as many counties, and superintendents of the several departments have been actively at work in their field awakening a general interest and preparing for the exhibit in their respective departments. For the Agricultural department three superintendents have been making a very busy canvass, and all report substantial and satisfactory progress and deep interest, and apparent full realization throughout the state, of the fact that this will be Nebraska's greatest opportunity for the promotion of her material interests; an opportunity which all agree we should make the most of, to the end that our millions of acres of fertile, uncultivated land may soon be made wealth-producing, thus enhancing real estate values and benefitting all classes. It is the intention and determination to make the best agricultural exhibit possible, and the prospects are most flattering for an exhibit which no state in the Union can eclipse. There is also much activity shown in the promotion of the horticultural, dairy, apiary and educational departments, and in the women's department there has been a degree of zeal, energy and enthusiasm shown which seems to insure a most commendable showing in the way of women's work and advancement in this state. THE NEWSPAPER EXHIBIT. Work in this department is well advanced, and this feature is meeting with most satisfactory encouragement from nearly all Nebraska newspaper men and women, and others interested in seeing the state advertised to the best possible advantage throughout the United States. Duplicate sample copies of nearly all the publications in Nebraska have already been collected and alphabetically arranged for binding for exhibition. A list of the papers in the state has been nearly completed, and most of the information obtained for the historical newspaper directory of the publications of Nebraska, which directory will give all the facts a newspaper man or the public will care to know about every paper in the state and arranged in the most convenient form for ready reference. Responses to circulars of inquiry have been prompt, full and satisfactory, showing general interest and earnest enthusiasm in that feature of the work. It is the intention to include in the directory every publication in Nebraska, so arranged as to make it a valuable book of reference. It is the desire of the undersigned superintendent of that department that every newspaper man in the state, who may have failed to receive a circular of inquiry, to send him notice, together with a sample copy of paper, to the end that the record may be as near complete as possible. Not more than one-half of the live papers of Nebraska appear in any newspaper directory yet published, and in said directories appear the names of many papers long since dead, so that it is a very difficult task to get a complete list, but the most painstaking care is being exercised to see that none escape in this work. There are now on the list 708 papers and magazines and additional ones find their way to the list almost daily by the co-operation of editors already listed. It is the intention to give a brief sketch of each paper, and also of the town and county where published. Novelties in the newspaper line and also special editions will be shown to the best advantage, it being the intention to make the newspaper exhibit, next to the agricultural exhibit, the attraction of Nebraska's showing. This will be Nebraska's greatest opportunity to advertise the natural resources of the state, and the greatest possible advantage should be taken of it, and every Nebraska citizen, regardless of sex, color, nationality, creed or politics, should assist in making the Nebraska exhibit what it should be—the best on the grounds at the great exposition. SETH P. MOBLEY, Press Committee. IT IS NEWS TO BYRNES. New York's Superintendent of Police Knows Nothing of a Plot. NEW YORK, Aug. 14.—Superintendent Byrnes said yesterday that he knew nothing regarding the subject matter of a dispatch from Pittsburgh which states that an anarchist named Aaronstamm had left this city for there a couple of days ago with the avowed intention of killing H. C. Frick, the manager of the Carnegie company. The dispatch in question says that the second plot to kill Mr. Frick was revealed to Otto Eberhardt, Austrian Vice Consul in this city, who communicated it to the police. Superintendent Byrnes said he had not seen the Vice Consul nor heard from him concerning any plot to kill Mr. Frick. He added that no information had come to him from any source regarding the man Aaronstamm. Senator Hear Said to Have Resigned. NEW BEDFORD, Mass., Aug. 14.—The Mercury of this city announces that it has reliable information to the effect that Senator Hear has placed his resignation in the hands of his friends to be transmitted to the Vice-President. Senator Hear is now in Europe.

REID AT SPRINGFIELD, AUG. 18.

He, Burrows, and Dolliver Will Address the Republican League Convention. CHICAGO, Aug. 12.—The Illinois Republican campaign will be formally opened at Springfield Thursday, Aug. 18, at the meeting of the Republican League convention. Whitelaw Reid, Republican candidate for Vice-President, has accepted an invitation to address the convention that day. The Hon. J. C. Burrows of Michigan and J. P. Dolliver of Iowa will also be present and address the convention. Gov. Pifer and all the other candidates on the State ticket will be present. The meeting promises to be a large and interesting one. OUR ST. LOUIS LETTER. A Hotbed of Political Conflict—Athletic Revival. St. Louis, Aug. 15.—For the first time in the history of politics in this State, the headquarters of both the great parties, as well as the People's party have been established in St. Louis. The Republicans have the whole of one story of a hotel on Fourth street, the Everett house, and the Democrats have their rooms in the Laclede hotel. The People's party managers are at the Richelieu hotel. All of these places are crowded from early morning to evening with candidates and their friends; and politicians from all parts of the State are making the city the hub of every journey they take through the counties. Both the Republican and the Democratic parties intended at first to establish branch headquarters in other cities in Missouri, but they abandoned the idea, concluding that the central position of St. Louis made that unnecessary. Here the managers are able to obtain close communication with National headquarters, too, and that is a thing of importance. The athletes of the city now see their way clear to making St. Louis a great athletic center. The Pastimes will begin soon to lay out their grounds near the electric car lines in the western part of the city, and Chris. Von der Ahe, the baseball manager, announces that his plans are ready for his big ball park and athletic field, which he intends to have in condition for use next season. Mr. Von der Ahe will try to have all the games of the clubs which are not under the Pastime management, held on his grounds, and the result will be a livelier competition in matters athletic than the city has seen for some time. The Pastimes have no Sunday games, and that is the point of difference between them and the other athletic organizations of the city. Mr. Von der Ahe will open his grounds with a series of ball games early next season, and the Pastimes will receive the public on their field with a contest that will bring athletes from all over the country to St. Louis. The admirers of Frank P. Blair are anxious that the ladies having charge of the woman's exhibit for Missouri at the World's Fair shall make the statue they are to erect at the entrance of the State pavilion one of that great Missouriian. The ladies have not decided whose statue they will have there, and they want to find out first what the people of the State think about it. The statue will be of heroic size, and will be made by a St. Louis sculptor, either Robert Bringsworth or Fred Ruckstahl, probably. If the statue is to be Blair the sculptor will take him in a pose different from the one in which he is shown by the statue out at the entrance of Forest Park. The postal clerks of the United States seem to be fond of St. Louis. They are going to hold another convention here soon, and finish the work they began here two years ago. They are trying to eliminate politics entirely from the postal service, and make the civil service rules apply to it from top to bottom. The thing they are after now is to get all the clerks graded, so that those who are most efficient may get the best pay, without regard to their influence or party leaning. There will be about three hundred delegates at the convention. Catholics Condemn Manitoba Government. ST. PAUL, Minn., Aug. 12.—Catholics at Winnipeg, at a mass meeting held last night, unanimously decided to maintain separate schools for their children in this city, despite the decision of the privy council in England compelling them to pay taxes for Manitoba schools. Concealing the Truth About Cholera. ST. PETERSBURG, Aug. 14.—Dozens of fatal cases of cholera are known to have occurred here, though no official announcement of the presence of the disease has been made. LIVE STOCK AND PRODUCE MARKETS.
