Saturday was a grand day in O'Neill. It was a big day for political parties and it was an opportune day for J. P. Mann's grand opening. His store presented a beautiful appearance and was viewed by and rushing throngs from sunrise till awayinto thenight. This was the firstformal opening held in the city and was a decided succes and of course will be followed by others. The store on this day was indeed a thing of beauty. Entering from the south you were confronted on either hand by magnificently trimmed windows, one ornamented with costly ribbons, silks from the orient, rich and rare, the other with carpets and trimmings of the latest styles and finest quality. Passing on through the room the sight-seer was at once astonished and bewildered. Astonished to find so large and complete a store west of Omaha and bewildered by the gorgeous and magnificent display of merchandise. We have not the space to pursue this subject further but are free to confess that Mr. Mann's establishment is a credit to our

Elkins' Record.

Kem in his speech tast Saturday made the statement that secretary of war Stephen B. Elkins was in the rebel army during the war. We thought at the time the gentleman was mistaken and the more we have learned of the life of Elkins the more we are convinced that Kem maliciously maligned his record. Secretary of War Elkins graduated from the university of Missouri in 1860, was admitted to the bar in '63, practiced in New Mexico for several years, (remember the war was in progress all this time) was a delegate to the republican national conventions in '84 and '88. He was appointed U. S. district attorney in '68.

Whitshead in the War.

"James Whitehead came to my regiment in February, 1884, at Newberg, N. C., and he served right through the war to the close," said Colonel Rollin B. Strong to a reporter yesterday, as the conversation drifted upon Mr. Whitehead's race for congress.

"Whitehead was one of the best soldiers I ever knew," he continued, "always ready to take his life in his hand for the defense of his country. When he went with Butler over to the Appomattox and struck the river at Bermuda Hundred a call came for fifteen men out of every 100 to swim the river and give the rebels a tussel on the opposite bank. When I stated to my men the nature of the work that had to be done and called for these fifteen volunteers Whitehead was the first man to step out and offer his services. He will tell you, if you ask the Garfield delegation absent and H. H. him about it, that there was another man who stepped out first, but that is on account of his modesty. As I remember he was the first man to come out for that hazardous task. It happened that the Wry for Wiley of Holt. In that battle I lost my leg. From that time on I lost sight of Jim Whitehead. He was not captured, and, with the remnant of our regiment, went on through the war to the close. At the fall of Richmond the Nineteenth Wisconsin was the first regiment to plant its flag on the city hall tower.
