'August Flower'

I had been troubled five months with Dyspepsia. I had a fullness after eating, and a heavy load in the pit of my stomach. Sometimes a healthy sickness would overtake me. I was working for Thomas McHenry, Druggist, Allegheny City, Pa., in whose employ I had been for seven years. I used August Flower for two weeks. I was relieved of all trouble. I can now eat things I feared not touch before. I have gained twenty pounds since my recovery. J. D. Cox, Allegheny, Pa. @

NOTED TEMPERANCE LEADER
The Forceful and Brilliant David Frost.

He Endorses Indian Sagwa.

DAVID FROST, BOSTON, MASS.

In a recent conversation with Mr. Frost, that gentleman said, with the convincing earnestness which characterizes his remarks: "One of the greatest evils with which the friends of temperance have to contend is the cheap whiskey decoctions which are flooded into the market by 'Bitters,' 'Sarsaparilla,' 'Gingers,' and other 'medicines.'"

"I do not mean to say," continued Mr. Frost, "that all proprietary medicines from personal experience of one which is Tonic and Unfettered Blood Purifier, but which is innocent of all deteriorating ingredients and free from harmful effects, no matter how much or how freely it may be used. It is not my wish to appear as the exponent of any public remedy, but in this case I deem it my duty to commend 'Kickapoo Indian Sagwa.'"

"I speak from experience, for it has worn out, and my most rebellious stomach refused to longer act in its normal capacity, healthy condition when nothing else would. I think I have taken occasion also to learn some, and know that Sagwa is not only an old but a tried remedy among the Indians, but that its manufacture is still maintained, and its ingredients are still maintained, and its methods exactly in accordance with the ways of the noble Red Man."

"Simple Roots, Barks, Leaves and Flow-ers from the Forest are all that enter into the composition, and the strength which is gained from its use is not the false strength of Bounding Health, and the Purified Blood, through every Vein and Artery of the Human System."

Persons fall to convey the earnest force of his remarks as expressed to the writer and the high regard he had for the remedy.

Lincoln, Feb. 6.—The house on Saturday was packed almost to suffocation long before calling the joint convention to order. Such a jam has not been seen in Representative hall since the memorable scenes attendant on the organization two years ago. It was generally understood that a senator would be elected and the crowd wanted to see the operation. So densely packed were the galleries that one man who was unwilling to stand the crush longer clambered out over the heads and shoulders of the scores of people behind him.

The roll call showed the presence of all the members with the exception of Senator Clarke. Porter of Merriock moved that Clarke be excused, but Telford amended with a motion to proceed to vote for a United States senator.

The chair said it was not necessary to vote on the motion and ordered the clerk to call the roll. But one ballot was taken and the result was as follows:
ALLEN—65
THURSTON—61
BOYD—2

This was but one short of the number necessary to elect the populist nominee, who received the solid support of the independents and democrats, with the exception of five—Babcock, North, Mattea, Sinclair and Withnell.

The scene during the calling of the roll was intensely exciting. At no time were the two leading candidates more than three votes apart and the greater part of the time they were alternating with first one and then the other in the lead. As the roll progressed it was apparent that all depended on Withnell, in whose hands lay the power to elect or defeat the independent nominee. When he firmly recorded his vote for Boyd, republicans and democrats alike in all parts of the house burst out in applause.

Four Men Killed by Indians.
RUSHVILLE, Feb. 6.—News reached here this morning from Pine Ridge of the killing of four white men on the Sioux Reservation Thursday night by Indians. Rumors of a sensational character have been coming in all day. One report was that the Indians had indulged in a ghost dance, and that two Strikers, the leading and most troublesome hostile chief in the disturbance of two years ago, and a number of his followers, had made an attack on some white men, who were watching the dance, and killed four of them, and that this was the beginning of an uprising. This rumor is, however, contradicted by other reports which are considered more trustworthy, and it is believed that the affair has no special significance as an indication of any intention on the part of the Indians to make trouble.

The correct account of the affair seems to be:
On Thursday a number of cowboys belonging to the beef camp of Isaac Humphreys, a government contractor located on White river, at the mouth of White Clay creek, about twenty-five miles northwest of Pine Ridge agency, returned from town in a drunken condition and brought a good supply of whiskey with them. During the evening they became quarrelsome and mistreated and injured an Indian by the name of Two Sticks, driving him from their camp and firing their revolvers at him. Two Sticks returned later in the evening, reinforced by his sons and a number of other relatives and friends, and commenced a deadly fire on the cowboy camp, killing three and mortally wounding a fourth man, who has since died.

PINE RIDGE AGENCY, S. D. Feb. 6.—A telegram has been received by Captain Brown, Indian agent here, from the foreman of the government beef contractors that he was at the beef camp during the killing, but made his escape. He states positively that the four cowboys were killed at this agency. There is no reason given for the killing. Everything points to a willful and cruel murder.

A detachment of police was sent from here to bring the bodies of the white men to the agency, but the friends of the murdered men refused to let the police have the remains, claiming that they would attend to the burial themselves. It has since been learned that the four bodies were sent to Hermosa, S. D., yesterday.

Information has been received since the engagement between the Indian police and Two Sticks' band yesterday that it was owing to the firm and heroic stand that Young-Man-A-Fraid-of-His-Horses took that prevented another outbreak. No Water, a chief at whose camp the fight occurred, is a prime mover among the ghost dancers and is one of the worst Indians on this reservation. After the police here wounded Two Sticks and his son and killed White-Face-Horse and another renegade Indian, No Water, flew in a frenzy and called on his followers to avenge the killing of Two Sticks and his son.

FOSTER'S VALUABLE REPORT.
WASHINGTON, Feb. 6.—Copies of Secretary of the Treasury Foster's report to the senate under the Sherman resolution of July last are in demand. The first part of the report will be delivered today. It is one of the most valuable statistical reports published by the government, and when complete will contain a summary or outline of the banking history of the government from its formation down to 1832, with a full and complete history of the state and national banking system from 1832 to June 30, 1882.

THE MANNER IN WHICH THE MUSIC rendered by the phonograph is obtained is this: A large room is set apart so arranged that no noise can be heard from the outside, and the floor is protected so that even the sound of your feet walking over it cannot be audible. In this room there are a dozen or more receiving funnels shaped very much the same as the big funnels you see in wholesale liquor stores. Supporting the number is instrumental such as "Lovers Farewell," played by Gilmore's band, or the "Phonograph March" played by the United States Marine band (the President's own). The principal members of these bands stand in front of the funnel so that the full volume of sound is delivered into them. When it is a song by some favorite singer, he sings into the phonograph the same way. There is no reasonable limit to the number of times the air can be reproduced all over the world by playing and singing one time in the phonograph.

THE TRUTH. For the Absolute Cure of Pains and Aches, Rheumatic, Neuralgic, or Sciatic. **The Great Remedy is Without Equal**

How many remedies there are which merely relieve without eradicating disease. The contrast with sterling medicines which such palliatives afford, but only enhance the dignity of the former, but serve to emphasize the folly of employing half way measures when thorough ones are available. A marked instance of this is the effect on the one hand, of Hostetter's Stomach Bitters in cases of chills and fever and bilious remittent, and on the other of ordinary remedies in instances of this type. By the Bitters, malarial complaint in every stage, and of the most malignant type, are completely conquered and lose their hold upon the system. They are rarely, if ever, dislodged by the ordinary resources of medicine, although their symptoms may unquestionably be mitigated through such means. The same holds good of indigestion, biliousness, kidney complaint, rheumatism, nervousness and debility. By the Bitters they are cured when many remedies fail.
