SUSINESS HABITS.

Girls Should Be Taught Them Fre-Whether a woman is poor or rich it behoves her to acquire methodical bus-iness habits keeping her little accounts accurately and knowing to a cent just what she does with her money, whether she has 10 cents or \$10 to expend on her own little personal wants An allowance is the first step toward this end if, at the same time, it is impressed upon her that every sum spent should be set down with unfailing

regularity. In black and white one notes how much more easily the money can be spent, how quickly it goes, and just what foolish little nothings have lured it from our pockets. Without setting down each item, it is ten chances to one that you will conclude you must have lost some money when you can-not see how that ten-dollar bill went when you only bought such a very few things. The neat little figures are a genuine restraint, besides instilling a habit and system that will be of great value if ever fortune smiles and a great estate comes to your hands, and still if greater economy is a necessity and the dollar has to be forced into doing duty for two.

Unless the accounts are kept accurately and the cash made to balance every evening, you had better not at tempt any book-keeping at all, for slipshod methods are worse than none and only confuse everything rather than help matters. If anything is worth doing at all, it is worth doing well, and there is nothing so productive of future good as the habit of looking carefully out for the pennies when school days are the only trials and the allowance of fifty cents a week goes for candy and pickles. If this plan is once established in childhood, the girl will grow to womanhood with a clear knowledge of where her money goes and what she has to show for it.

FRANCE'S CANAL SYSTEM. It Is Practically Free From Tolls and

Covers Fully 8,000 Miles. Interior navigation has long held prominent place in the traffic of France. and it is not surprising to learn that the length of navigable waters in that country is 8,000 miles, of which 650 miles are returned as tidal, 2,100 miles navigable without works, 2,250 canalized

rivers and 3,000 miles canals. The state looks out for all but seven per cent of this network, which is, therefore, practically free from tolls. This system of inland navigation has cost about \$300,000,000 for construction and purchase and \$25,000,000 for concessions. The annual cost of maintainnce is about \$2,600,000, or \$325 a mile, which covers all expenditures whatsoever. The number of vessels employed on the water-ways is between 15,000 and 16,000; and about twenty-six per cent have a capacity of 300 tons or more, while more than half have a capacity exceeding 100 tons. Moreover, about 2,000 foreign boats use the French canals each year.

The motive power is now almost furnished by draft animals, although a few steam tugs are used on the Seine. the Oise and some other rivers, and steam cargo boats are occasionally met. Cable towing and tow locomotives are also used in a few places. The average cost of moving a ton of freight one mile is stated to be .064c on rivers and twenty-five per cent. less on canals.

In Love With His Princess.

A pretty love story concerning the late Dowager Queen Olga, of Wurtemberg, was published in Stuttgart. Forty-eight years ago, when she was the greatest beauty at the Russian court. Prince Barlatiski, an officer in the imperial guard, fell in love with her. When he learned that she returned his love he became alarmed, obtained an audience with Czar Nicholas, and, falling on his knees, implered pardon for his audacity for having loved the daughter of his sovereign.

Pleased with his honorable conduct. the czar created him field marshal and made him governor of the Caucasus. One year later the Grand Duchess Olga was married to the Wurtemburg prince. Barlatiski acquired some fame Crimean war, but never recovered from the moroseness following the disappointment of this love.

A Smart Girl's Lecture.

A 16-year-old girl reads a lecture to the young men in a Maine paper. She exclaims: "Why do the young men of Edgecomb do so much loafing? Go to work! Push shead! I am but a young girl; I have clothed myself and got money in the bank, and only 16 years old. I lay up more money every year of my life than any boy or young man within a radius of three miles of my home. When they get a dollar they go choose to support myself. I advise all girls to cut clear of those loafing boys. Give them a wide berth, and never marry a man unless he is able to support you. And never put your arm through the handle of a rum jug."

A Question for Scientists. Dr. Richardson, an English physician, who has investigated the matter, says that the men who work in the Paris sewers are as healthy as the av erage, and no other 800 men in Paris are so free from zymotic diseases. This leads Dr. Richardson to ask: "Do sewer men gain an immunity from contagion by their occupation, or are we at sea as to the mode of communication of the spreading diseases?"

The Punxsutawney Spirit says: "No, we do not want a poet laureate in this country, but a poet lariat would be a good thing with which to tie poets up to a tree or lamp post or other conven-ient object." Jefferson county bards Supervisors' Proceedings.

O'NEILL, NEB., Feb. 14, '98. Roard met pursuant to adjournment vith Chairman Bethes in the chair and roll call showed the following members present: Alfs, Bethea, Brodie, Bryan, Crawford, Calkins, Dayton, Dutton, Donohoe, Gilson, Haigh, Hayes, Jillson, Long, Miller, Phillips, Roll, Trullinger, White, Wilson, Waring, Wynn, (22).

Minutes of January 18 were read and approved.

The resignation of Mr. Conger of Inman township was reported to the board and that Mr. H. Bradley had been appointed to fill the vacancy. The committee appointed by the chair, composed of White and Hayes, reported that Mr. Brayley's bond had been approved by the county judge, and upon motion Mr. Bradley was seated as the member from Inman township.

The county attorney made a verbal report of Wagner car taxes, referred to him at the January meeting, and upon motion the matter was re-referred to him.

All business was referred to the several

It was moved and seconded to place the ame of H. Bradley on the bridge comnittee. Motion lost.

It was moved, seconded and carried that he chairman appoint a member to fill the vacancy on the bridge committee, caused by the resignation of Mr. Conger.

Upon motion board adjourned until 1 C. E. BUTLER, W. W. BETHEA. Clerk. Chairman. Attest:

ONE O'CLOCK, P. M. Board met pursuant to adjournment with the following members present: Alfs Calkins, Dayton, Dutton, Donohoe, Gilson, Haigh, Hayes, Jillson, Jones, Kennedy, Long, Macumber, Miller, Phillips, Roll, Trullinger, White, Wilson, Waring and Wynn, (26).

County Judge asked for Nebraska reports numbers 3, 14, 20 and 26 and one upon motion was granted and clerk instructed to purchase same.

I move that the chairman of this board how many Union soldiers there are buried in Holt county, their names, rank, company and regiment, and where buried, in order that proper requisition may be made on the general government for soldiers, and that said committee cause said headstones to be properly placed as provided for in Sec. 4460, consolidated statutes of Nebraska. Gro. E. BRYAN.

Motion seconded by Phillips and carried. Uhairman appoited Bryan, Brodie and Jones as such committee. The following report was then made

and upon motion adopted and ordered spread upon the records: Whereas: certain parties in Holt county ave deposited funds for the erection of bridge on or near the range line be-

tween ranges 13 and 14, across the Nio-brara river, therefore, be it Resolved, that Boyd county shall and does assume the responsibility of accepting and keeping in repair one-half of

said bridge. FRANK MORSE, CHAS. TIENKEN, Attest: G. T. BASTEDO, CHAS. TIENKEN, County Clerk. J. C. HOFFMAN,

Moved, seconded and carried that the

supervisor of Sheridan township be instructed to repair the bridge across the Elkhorn river on section line between sections 13 and 14, township 29, range 14

Moved, seconded and carried that the bridge across the Black Bird, built by Mr. l'ownsend, be accepted by bridge committee, Mr. Townsend discounting the contract price in the amount of \$10.

Upon motion the following official onds were approved:
