Another bank failure is to be chronicled. The Farmers' and Merchants' bank of Elk Creek is in the hands of the state banking board, and Cashier Holmes is virtually a prisoner in his own house, where a guard is his com-panion. Stockholders called on the board and expressed their intention of paying the depositors in full, so they themselves would be the only losers.

-There are two candidates in Knox county for judge of the Ninth district, for Judge Allen's shoes—J. H. Berry-man of Creighton and Solomon Draper of Niobrara. He has had twelve years experience, five of which have been in Knox county.

-The stock yards company enter-tained a party of members of the lower er house of the legislature on the 22d. The committee proper was composed of Represenatives Elder, Dobson, Olson, Kessler, Van Duyn, Coolley, Schlotfeldt and Gerdes.

-A disastrous fire broke out in Lambeth Bros' dry goods store at Nebraska city. A strong wind was prevalent at the time, and despite the efforts of the fire department the stock and building were rendered a total loss, estimated at \$25,000. The fire broke into the adjacent building of F. W. Petring, which, together with the water, left his stock of dry goods worse, if possible, than a total loss. -It has been announced in an authoritative manner that the Burlington road will expend a considerable amount of money this season on the enlarge-ment of the shops at Havelock. Among build-ings to be erected immediately will be a boiler shop, 90x300 feet in size and a five stall round house. These two will cost in the neighborhood of \$100,000.

-Mrs. Alva Kendall, living two miles northeast of Roseland in Adams county, was mysteriously shot and seriously injured about 8 o'clock the other night. Mrs. Kendall was alone in the house with her baby, her husband being at Kenesaw about twelve miles away and her son in the field three-quarters of a mile distant, driving home some cattle. She was sitting in the kitchen in front of a window. Some one from the out side fired a revolver and a 38-calibre bullet entered her neck on the left side and narrowly missed the jugular vein. —The new civil rights bill has passed the state senate. The bill was introduced in the house by Dr. Ricketts, the well known colored member from Douglas county and in the senate by Senator Moore, at the former's request. The bill includes restaurants in the list of public places at which no distinction can be made in regard to color. The main feature of the bill, however, lies in the fact that any violation of the law may be brought to the attention of the police court instead of the justices court under the old law, and that the penalty prescribed is a fine not to exceed \$100 instead of fine and imprisonment.

-A meeting of citizens at Crete resolved to take steps to discover, if possible, the fate of George D. Stevens, late cashier of the State bank of that place, which was closed in September last. He left home on August 19 and was last seen in Chicago the following week, since when nothing has been heard of him or his whereabouts. At the meeting a committee of eight was chosen to work in conjunction with the Modern Woodmen and the Knights of Pythias to raise funds and institute a search for him. A very general sympathy is felt for his wife and two small children, one of whom has been dangerously sick. Mr. Stevens carried quite a large insurance on his life, which will benefit his wife and children in case he is dead and his death can be proven.

WASHINGTON, Feb. 27 .- The closing week of the Fifty-second congress will be characterized by a rush of legislation that has seldom been equaled. As there is not time enough for all the many private measures near completion to pass, they must antagonize each other, and opposed to them in both houses will stand the appropriation committees urging immediate action upon the great measures in their charge.

The present condition of these bills is as follows: The fortification bill is a law, the army bill is before the president for signature, the military academy and the District of Columbia bills are in conference, the sundry civil, the diplomatic and consular and the legislative bills have passed both houses, but have not reached the conference stage. The pension bill has passed the house and been reported to the senate and the naval, agricultural, postoffice and deficiency bills are waiting confirmation at the hands of the senate.

In the senate the naval bill will probably come up Monday. The agricultural and postoffice bills are expected to be reported by Tuesday and the deficiency bill about the middle of the week. They will be taken up for action as fast as reported. Meantime consideration of these bills and of other pending measures will be suspended from time to time to allow the dispo-sition of conference reports. In this con-dition of affairs matters of general legislation can hardly receive much attention, but if opportunity offers Senator Teller will endeavor to call up his revised McCarrahan bill. Mr. Carey may make another effort to secure consideration for his omnibus statehood bill and Senator Blackburn will probably strive to secure the passage of the New York and New Jersey bridge bill as it came from the house.

There seems to be some purpose to prevent any further executive session of the senate if possible. This will serve a three fold purpose defeat action on the nomination of Judge Hanchett, prevent reconsideration of the vote by which the nomination of Congressman Finley of Maryland as Chillian arbitrator was rejected and shelve the Ha-waiian treaty of annexation for this

In the house, advantage will be taken of the rule permitting action during the last six days of a session, under suspension of the rules, to push forward business of an urgent nature. A number of measures of comparatively little interest may thus be passed, but the indica-tions are that it will be necessary to ive most of the time to the appropriation bills. Unless an amicable standing can be privately reached with reference to the course to be taken with the Sherman bond amendment to the sundry civil bill, it is probable that it will be moved under suspension of the rules to send all the amendments to conference with formal nonconcurrence

recommended.

It is believed that a two-thirds vote secured for this motion. By the adoption of this measure the long delay over the numerous amendments of no special interest in themselves would be avoided, leaving only the bond amend-ment to be fought out in the house.

It is expected by the leaders of the house that the French spoliation claims will again be put on the deficiency appropriation bill by the senate and perhaps the Cherokee strip on the Indian bill, but with these exceptions it is not anticipated that any serious trouble will occur in conference sufficient to endanger the passage of the appropria-tion bills and compel an extra session of congress.

Furnishing Germany's Food.

WASHINGTON, D. C., Feb. 27-The United States is the chief source of supply from which Germany draws the deficit in her domestic breadstuff. Such is the information continued in a report to the state department by Frank H. Mason, consul at Frankfort, of the statistics of grain importation into Germany for the year 1892. They show an enormously increased volume of both wheat and rye imported from the

From fourth place in 1890, the United States rose to first place in 1892. The amount of wheat purchased from the United States rose from 1,903,772 bush-els in 1890 to 23,085,795 bushels last year. The importations from the United States in 1892 were nearly half of the whole amount imported—46,509,-719 bushels. The importations of rye from the United States increased from 565,833 bushels in 1890 to 4,982,325 bushels in 1892. Russia's contribution of that cereal into Germany owing to the failure of crops decreased from 27,000,-000 bushels in 1890 to 4,500,000 in 1892.

Tin Plate Industry.

WASHINGTON, Feb. 27.—Special Agent Ayer has submitted another report to the treasury department on the development of the tin plate industry. The period that is covered by this report is the quarter ending December 1, 1892.

The report shows that during that period thirty-two firms produced 19,-756,491 pounds of tin plate proper. The same number of firms produced during the previous quarters 10,952.725 pounds.

Will Discount Silver 20 Per Cent. VANCOUVER, B. C., Feb. 25 .- On and after March 1 chartered banks here will only accept American silver at 20 per cent discount. The former discount was 5 per cent. The reason is a desire to get rid of American silver, as there is too much in the country at present. Merchants intend to take silver at par and ship it to the States.

House.-In the house on the 23d orty-four new bills were introduced in the morning. It brought on a spirited debate that was listened to with a keen relish and en-joyment by the crowded lobby and galleries. The motion to recommend the bill for passage was carried. The house then took up No. 100, Kessler's bill, conferring municipal suffrage on women, and it was recommended for Indefinite postponement by a vote of 37 to 36. No. 56, Berry's bill, amending the questions to be asked by assessors, was recomended for passage. No. 166 Stevens' bill, designating taxable prop erty, was next taken up. Th report on the universal suffrage bill brought on a skirmish, and the motion to adopt the report resulted in the tie vote of 40 to 40, but it was announced that it had carried by a vote of 45 to 38. The members have no hopes of carrying it when it is put upon its passage, but they are hustling for votes, and offer-ing trades where they cannot get them otherwise. There is little probability that it will pass the house, and none whatever that it will get through the senate. The report on the municipal suffrage bill was rejected and the bill ordered engrossed for passage. After the introduction of a large number of new bills the house adjourned.
