

# THE FRONTIER.

PUBLISHED EVERY THURSDAY BY  
THE FRONTIER PRINTING COMPANY

PLANT trees April 22.

THE total vote cast for president in 1892 was 12,136,592.

THE agony at Lincoln is over, the legislature has adjourned.

SENATOR MARTIN'S hold upon the populists will depend largely upon his hold on the post offices of Kansas, and unless all signs fail, it will be very light.

NEW ORLEANS has a woman only thirty-eight years old who has just married her seventh husband. Yet some people say that southern people are indolent.

HENRY D. EARLENTROCK has been appointed by Gov. Crouse to fill the vacancy on the board of regents of the state university, made by the resignation of Charles Marple.

AN exchange says in a head line that a well known prize fighter is looking for a mill. Well, why doesn't somebody introduce the muscular man to an old-fashioned tread mill?

SOUTH SIOUX CITY and Covington have been consolidated and taken the name of South Sioux City. This was a very sensible move and will result in much good to both towns.

IF the mugwumpish political renegade that edits, or attempts to edit the Butte Free Lance, receives a government position from the present administration, it is time for all true democrats to leave the party.

THE number of people that are scattered through the state who are desirous of serving their country by filling some political position, is increasing daily. What a picnic the doctors will have treating the sore-heads.

THE newly appointed democratic postmaster at Pittsford, Vermont, may have to serve a term in jail before he can qualify, as on the day of his appointment he was convicted of illegal liquor selling. "Turn the rascals out."

THE working of North Dakota's "reconciliation courts," recently created, will be watched with interest. The object aimed at—the lessening of the number of small law suits—is certainly a good one, for everybody but the lawyers.

PRESIDENT CLEVELAND'S rule against editors only applies to the anti-Cleveland democratic editors, it seems. He is taking good care of the other kind. So we are of the opinion that our friend Armstrong, of the Butte Gazette, will be postmaster at Butte.

WHEN Axman Maxwell told some of his callers that it was his intention to appoint only "live democrats" he must have had a suspicion that somebody was trying to run in on him some of the "dead democrats," regularly voted on election day in some places.

REPRESENTATIVE SMITH is home again, and we would like to ask the gentleman how many bills that he introduced became laws. He was loaded with bills when he went there, and many of the present laws were to be revised under his supervision.

ALTHOUGH Pete O'Sullivan, of the West Point Progress, did not succeed in being elected state auditor last fall he was last week elected treasurer of West Point after one of the hardest political battles ever fought in the city. The O'Sullivan family seem to be strictly "in it."

IF SENATOR VEST did not exaggerate when he said that if the senate undertook to investigate all charges made against the character of senators it would have no time left for anything else, it is about time to either abolish the senate, or get men with better characters, is it not?

WHEN H. R. Henry went to Lincoln last January we supposed that he would be occasionally heard from, as, having had experience in one session, he would be well posted. But it seems that after he arrived there he buried himself, and was only heard from when it came to voting. He has not gained a national reputation by his legislative ability.

UNDER the operations of the McKinley law, Canadian exports to the United States have decreased \$4,500,000, while Canadian imports from the United States have increased \$2,639,572. The wisdom of the McKinley law has been so well vindicated that the protectionist party in the Dominion purposes enacting a tariff law just like it, including the reciprocity clause.

W. D. MATHEWS, register of the United States land office at O'Neill, has established the rule that all notices must go to democratic papers. But they, all the republican papers will probably change their politics for the land office printing.—Fremont Herald.  
Bro. Smalls should not judge every person by himself, and we will state that THE FRONTIER will not change its "politics for the land office printing" as we are republicans from principle, not for pay.

THE Louisville Courier-Journal frankly admits that its attacks upon the Harrison administration regarding the treaty with Russia were based on misinformation. If the editor of the Courier-Journal will go back over the record he will discover that many other of his attacks upon the Harrison administration were of the same order.

WASHINGTON churches understand the value of advertising. One of them announces that it has Mr. and Mrs. Cleveland for attendants, another Mr. and Mrs. Stevenson; and the old pew in which President Lincoln used to sit has been put back in the church from which it was removed years ago, and the fact fully advertised. The attendance at these churches is very large. There is nothing like advertising.

LAST week the famous Newberry bill passed the senate by a vote of 18 to 14. The measure was amended somewhat by the senate and was supported by some republicans. The amendment that was put on the bill in the senate was done by Senator Mullen and it is such that it will not effect short roads, or roads that will be built in the state prior to 1899. This is the only thing of any importance that has been done by the legislature since the election of United States senator.

THE freight bill adopted last week makes the following provisions:

All railroads, or parts thereof, which have been built in the state since January 1, 1890, or may be built before December 31, 1890, shall be exempt from the provisions of this act until December 31, 1890. This exempts from the operation of the bill the Rock Island line in Nebraska, except the branch from Fairbury to Nelson, which was built in 1888; the Pacific Short Line, O'Neill to Sioux City; the Missouri Pacific Short Line, Omaha to Union; part of the Burlington, Culbertson branch; part of the Kearney and Black Hills line, Kearney to Callaway.

They aggregate about 420 miles. The bill will not go into effect until August 1.

OF the three men that were in the state legislature representing Holt county, there was only one man that gained any prominence or was ever heard of while there, and that one is Hon. J. P. Mullen. While THE FRONTIER does not have the same political views as Senator Mullen, still we are willing to give him credit for what he has done. At the request of his constituents he had an amendment attached to the maximum rate bill which will be of great benefit to the people of northwestern Nebraska. He labored earnestly for the principles of his party, and was looked upon as a leader by the members of his party.

IF the cholera should continue to spread in Europe the president should prohibit immigration from the countries where it prevails. He has the power to do this under the quarantine law enacted by the last congress. In fact the situation in Russia is already bad enough to justify him in prohibiting immigration from that country. In view of the gravity of the situation every precaution to prevent the entrance of the plague into this country should be taken. The president ought not to hesitate to exercise in this connection all the power that congress or the constitution has conferred upon him.

UP to the present time THE FRONTIER has not said much in regard to the impeachment of the state officers. We do not believe in judging people guilty until they are proven so, and if they are guilty they should be ousted at once. The time in politics has come when the republican party must drop their old trained lobbyists and take up good clean men; men who have principle; men who have a name to protect. Give us more such men as Treasurer Bartley and Auditor Moore, and if they cannot be found in the eastern part of the state, come west, we have lots of good, true, honest men in Northwestern Nebraska. Keep up the investigation and turn the light of day on the official acts and actions of the state officials.

AND now the printers are to be robbed by a cruel trust. The following type foundry of the United States have combined for the avowed purpose of doubling their yearly profits, which always have been outrageously large: MacKellar, Smiths & Jordan, Philadelphia; Collins & McLeester, Philadelphia; James Conner's Sons, New York; Heinrich, P. H., New York; Lindsay, A. W., New York; Charles J. Cary & Co., Baltimore; Ryan, John, & Co., Baltimore; Mengal, J. G., & Co., Baltimore; Hooper, Wilson & Co., Baltimore; Boston Type Foundry, Boston; Phelps, Dalton & Co., Boston; Lyman & Son, Buffalo; Allison & Smith, Cincinnati; Cincinnati Type Foundry, Cincinnati; Cleveland Type Foundry, Cleveland; Marder, Luse & Co., Chicago; Union Type Foundry, Chicago; Benton, Waldo & Co., Milwaukee; Central Type Foundry, St. Louis; St. Louis Type Foundry, St. Louis; Kansas City Type Foundry, Kansas City; Palmer & Rey, San Francisco. However there is one foundry, Barhardt Bros. & Spindler, of Chicago, the largest in the country, which flatly refuses to join the alliance, and for this they deserve the patronage of a united fraternity. In this way the combine could be broken.

Renowned all over the World. Covered with a Tasteless & Soluble Coating. Ask for Beecham's and take no others. Made at St. Helens, England. Sold by druggists and dealers. Price 25 cents a box. New York Depot, 345 Canal St.

Sight is priceless and its proper preservation is a matter for the most earnest consideration of every person of ordinary common sense. Remember that a lens decolors one centimeter (the one hundredth part of an inch) produces as many prism diopters as it possesses lenticular diopters of refraction. Don't wear poorly made spectacles when you can get reliable ones at the same price. Tudor's Adamantine lenses are ground from the clearest crystal obtainable, building up the nerve power, easy and rendering natural the accommodation, they are without doubt best adapted for optical purposes and are recommended by all the most eminent of the medical fraternity, including

DR. BRAINYEA, ex-governor of Zacatecas, Mex.;  
DR. MARIN, ex-governor of Ajuz Calientes;  
EDWARD JENNINGS, M. D., vice-pres Medical Ass. of Canada.
