A. TAYLOR of Franklin county. For Supreme Court Judge—JOHN W. SATER of Parke county. For Treasurer of State—B. C. BLACK-BURN of Coshockton county. For Attorney General—JOHN H. BAILEV of Duran county. WASHINGTON, Aug. 11.-This evening proposition was formulated by the anti-silver committee which, it is believed, will be acceptable to the free coinage committee. At the meeting tomorrow morning the conference will probably request the committee on rules to report an order to the house covering the arrangement. It is that the house proceed to a bill providing for the repeal of the purchasing clause of the Sherman law; that opportunity be given to offer an amendment providing for the free coinage of silver at a ratio to be agreed upon by the silver men, if that is possible; if not, then a vote shall be taken upon the different ratios proposed; if free coinage at any ratio be rejected, an amendment may be offered similar to the Bland bill of 1878, limiting the purchase of bullion and amount of coinage: this failing the vote to be taken upon the bill as introduced. or unconditional repeal; the discussion to last two weeks, with the privilege to any member who fails to get a hearing of printing his remarks in the Record. It will be observed that in this prop-

osition the first vote to be taken will be upon free coinage and the last upon the unconditional repeal of the purchasing an amount equal to the par value of United States bonds deposited with the treasurer of the United States, to the clause. The anti-silver men surrender their demand that the first vote be taken on unconditional repeal, and if the silver men accept the proposition, they will abandon the demand that their caucus bill must be the basis of action.

The situation was greatly simplified today by the action of a conference held at the residence of Secretary Carlisle, at which nearly forty gentlemen, including the leaders of the anti-sil-verites, were present. A general discussion of the propositions submitted by the anti-silver committee was had and it was agreed to take the affirmative on every proposition. The confer-ence lasted nearly two hours, and at its conclusion those in attendance con-gratulated themselves that the action taken was the best under the circumstances. A proposition will be made to the silver men tomorrow to close the debate in ten days and then vote on the Tribune, had quietly repaired to the different propositions regarding the residence of Judge Wathan and free coinage, the different ratios and conditional repeal.

Mr, Cochran and the other anti-silver leaders expressed themselves as hopeful that this plan would be agreed While it cannot be positively stated it is more than probable that the bill will be introduced in the house tomorrow. At any rate, not later than Mon-day, after which date the debate will be commenced.

Ultimatum to the Silver Men.

WASHINGTON, Aug. 11.-The administration has issued its ultimatum to the silver men. the Sherman law until he found something better. Senators Voorhees, Mills and Sher-man discredited the story. Representative W. L. Wilson of West Virginia said the only place for the dis-cussion of the question was before an interactional conference and that if DOINGS IN CONGRESS.

England Reported to Have Made a Proposition in the Interest of Silver.

WASHINGTON, Aug. 11.-A new phase of the silver question was presented to the attention of members of congress today in the shape of an apparently anthorized proposition from London bankers, backed by the English government, to the leading New York financiers, in which it was asserted that if the United States would main-tain the present Sherman law on the statute books, England would renew the free coinage of silver in India at the increased ratio of 24 to 1.

The most painstaking search fails to produce a single senator who ever favored the idea, and when the pro-position was unfolded it was seen that both silver and anti-silver advocates were opposed to it.

'Coming as it does from an English source," said Senator Teller, "the pres-ident might very naturally be expected to agree to it. Anything that England wants seems to meet with his appro-val." However, he did not credit the story, although he fully believed that the situation in England and India was desperate. Senator Stewart, another and per-

haps the most vigorous friend of silver, utterly repudiated such a compromise. He characterized it as a very adroit scheme of the gold bugs. "With f.ee coinage of silver at 24 to 1," he continued, "the English would issue their India council bills and hammer the price of silver down to that point all over the world. This is equivalent to 82 cents an ounce, and miners cannot handle the ore at that price." Mr. Stewart was opposed to any such pro-position, and said he would fight for

Mr. Hill of New York was the first senator to get in a bill for the repeal of the purchasing clause of the Sherman act.
