

# THE FRONTIER.

PUBLISHED EVERY THURSDAY BY  
THE FRONTIER PRINTING COMPANY

The Cleveland tariff bill is the remedy of a quack.

For what did the legal committee pay Ed Gallagher \$3,000? Has Holt county got value received?

The New York Sun says: "The Wilson bill without the income tax violates the basic principle of imposture."

Gov. PENNOYER should not forget that one of the axioms of politics is: "He who has to explain is on the down grade."

THERE are a large number of democrats who are valiant tariff smashers so long as the smashing is done away from their homes.

THAT man Morton doth explain too much. His repudiation by the farmers' organization seemeth to have struck a tender spot.

A NEBRASKA paper speaks of Joe Bartley as "the dandified treasurer." Well, Joe is pretty smooth, but that isn't his fault.

FREE soup is an infant industry of democratic parentage and one that will be benefitted and insured of long levity by the passage of the Wilson bill.

It casts no aspersion on the courage of a democratic congressman for him to show fear of the Cleveland tariff bill. Seven-tenths of the country is afraid of it.

THE fatal shooting of a tramp who asked for bread at a Georgia house may result in lessening the number of tramp beggars in that state, but the brutality of the remedy will prevent its general adoption.

WE guess the report to the effect that the Jew has been corrupted by a venal vampire in the form of a corporation is correct. We notice in the last issue of the Microbe that he defends the notorious Gallagher.

MR. BLOUNT would doubtless pay a big price for a renewal of his paramount power so as to include the tongues of members of the senate committee on foreign relations, who will question him about his Hawaiian trip.

CHIEF HARRIS, of the Cherokee nation has written a letter to Representative Wheeler, chairman of the house committee on territories, protesting against the bill to make Indian territory a state. Level head, that fellow Harris has.

KAUTZMAN boasts that he has paid some of his debts. Two and two make four. The Independent defends Gallagher; Gallagher has money; Kautzman pays his debts. A little reasoning from cause to effect makes everything plain.

THERE are said to be fifteen democrats in the senate and fifty-seven in the house who openly oppose an income tax. The administration is also opposed to it. How well these democrats do live up to their national characteristics—disagreements.

LET congress kill the Cleveland tariff bill and the relief committees in our large cities will no longer have to feed thousands of hungry people. Labor would be in demand and prosperity would again appear in all branches of trade.

Gov. STONE has bravery of a high order. It takes a brave man to publicly stand up, as he does, and say that he wants to be nominated by the democratic party in '06. If there isn't a decided change there will be no democratic party at that time.

It would be considered an honor by the editors of this paper to serve a term in solitary confinement for exposing such vulnerable and notorious characters as Gallagher, Harrington, Kautzman, et. al. Threats of prosecution serve only as spice for the pudding.

MR. GOLDEN'S irrigation article, read before the supervisors last week and published elsewhere in this issue, is all right, but if any money is to be appropriated THE FRONTIER would rather see it go into the proposed canal than into any well and pump experiment.

MR. CLARK HOWELL was not long ago certain that silver was the key to the lock of national prosperity. He now declares it to be the repeal of the tax on state bank currency. Some people will be saying next that Mr. Howell doesn't know much about that kind of keys.

SPEAKER CRISP has it in his power to always, or nearly always, have a quorum in the house. All he needs is to forget some of the silly things said by him and his party associates during the fifty-first congress and to count a quorum by including those present and not voting.

AN exchange remarks: "Cleveland has surrendered to congress." Congress can do nothing but parole him. "Talk of impeachment" is simply nonsensical. In view of the ninety democratic majority in the house. The president can override the constitution every week without the least danger. He is the keeper of the pie which congressmen long for.

QUEEN LIL refused to be resented unless she could have the pleasure of beholding President Dole and others instrumental in her downfall. If Grover had permitted that he would have thought that all hades had been turned loose in the United States.

THE First National bank last year bought of the legal committee warrants to the amount of \$4,400 and paid for the same \$3,975, a discount of \$425, which is over 9 per cent. The warrants also draw 7 per cent interest. A nice rake off for the political bank and clearly shows a "stand in."

THE Jew seeks to establish a reputation by publishing the fact (if it be a fact) that he has paid a note. We do not wish to appear unduly impertinent, but if it is not out of order we would inquire if the gentleman has settled that little board bill at Stuart, and also the account due the Western Newspaper Union at Omaha, which institution held him up in Antelope county when everyone else had forsaken him.

"No banker need apply" sounds very nice in a campaign but loses its effect when we see the First National bank owning the only independent editor in the county and dictating to the self-constituted leader the policy of his paper. Kautzman has demonstrated his ability to swallow a horrid 2 per cent. camel although he affects to strain at a boodling gnat. Out upon such hypocritical political prostitutes.

IT strikes us that a great many newspapers are unwisely roasting the judge who sentenced the boy for life for robbing the United States mail of a measly copper cent. The law has fixed the penalty and the judge could do nothing but what he did. If anyone is deserving of censure it is the law makers, but we are inclined to believe they acted intelligently. Nothing should be held more sacred than the public's private correspondence.

IF ex-Congressman Stump, who draws a government salary as superintendent of immigration, is as stupid as his remarks about the cause of the falling off in the number of immigrants would seem to indicate, he should be given a permanent vacation. He says that the falling off in immigration is due to his rigid enforcement of the laws, when every school boy knows it is due to the absence of work for them to do, caused by the Cleveland times through which we are passing.

THE board by resolution objects to the district court appointing a master commissioner. These reformers evidently are afraid that the sheriff's fees will not pay the unlimited amount of help they have allowed him. Ah, but they are a consistent lot of hypocrites! They appropriate illegally to themselves \$186 and then have the gall to poke their long noses into the district court and attempt to dictate, ostensibly for the county's good. We suppose that if a master commissioner were to be appointed the worthy sheriff could get along with one less deputy and Holt county would be made neither poorer or richer by the appointment. This filibustering in regard to Hamilton's probable excess is the rankest kind of independent rot.

PRESIDENT CLEVELAND last Saturday turned the whole Hawaiian business over to congress and is no doubt much pleased at having gotten his doodoo off his hands. Following is the message which he sent in with the papers:

To the Congress—I transmit herewith copies of all dispatches from our minister to Hawaii relating in any way to political affairs in Hawaii, except such as have heretofore been submitted to congress.

I also send copies of instructions sent on January 12, 1894, being the only instructions to him that have not been sent to congress. In my former message to congress I withheld dispatch No. 3, under date of November 16, 1893, and also dispatch No. 70, under date of October 8, 1893. Inasmuch as the contents of dispatch No. 3 are all referred to in dispatches of more recent date, and inasmuch as there seems to be no longer reason for withholding it, the same is herewith submitted.

Dispatch No. 70 is still withheld for reasons that seem to be justifiable and proper.

GROVER CLEVELAND.

THE Philadelphia Evening Star in speaking of Senator Manderson, says: "It is doubtful if Senator Manderson will care to make an effort for a third term from Nebraska. He appears to be indifferent about a return. This is unfortunate for the senate and the general party. Taking all things into consideration, there is probably no more potent figure in the organization. He is genial and warm-hearted, and while aggressive and tenacious as an opponent, he always fights in an open, frank and manly way. It was these qualifications, with his superb tact in political management and his well known attributes as a parliamentarian, that made him the successor of the great Ingalls as the president pro tempore of that body, beating senators who were older in years and in service, and who strongly coveted the position. He has a war record that is highly meritorious, having served under McClellan in West Virginia, with Grant at Shiloh, and with General Thomas in those famous campaigns that took in Chickamauga, Chattanooga, Atlanta and Nashville. It would surprise no one in public life here to see him loom up successfully as a presidential candidate in '06."

No other sarsaparilla has the merit to hold the confidence of entire communities year after year as has Hood's sarsaparilla. It possesses curative power peculiar to itself.

This furniture was used about 30 days in a world's fair hotel. Being a long distance from the grounds, business was poor and the hotel failed. Many of the rooms were never occupied. We traded for the whole caboodle. Got it cheap of course, and mean to sell it cheap, for cash, or good bankable paper. Come and examine it at
