The facts about the killing of William Smeltzer by J. W. JOHN D. MARSHALL, the man whom the Cass county authorities had under arrest for having more wives than the law allows, has departed for unknown parts. His preliminary hearing was set before Justice Archer, but he preferred to leave his bondsmen to suffer, and left the county. Peace reigned until wife No. 2 learned of the existence of wife No. 1, whereupon disturbance arose. Wife No. 1 made a complaint against Marshall for bigamy. He was arrested and lodged in the county jail. Friends came to his rescue and bailed him out, and now they suffer the consequences.

WHILE practicing in the gymnasium at the state university, a probably fatal accident happened to Otis Dayton, a student and member of the class of '98. With a companion he was performing the "flip-flop," a feat which is performed by one placing his foot in the hands of another, clasped in front of him, and with a spring the actor is thrown over his companion's head, completing a somersault in mid-air and alighting on his feet. Dayton is quite an athlete and had often performed this difficult feat with his companion, Anderson. He was just doing it for the fourth time when, in mid-air, he seemed to stiffen out and failed to throw his feet around and struck heavily on the mat on his neck and head. An examination showed that his spinal column had been dislocated and he was partially paralyzed.

THE HOUSE IN A DEADLOCK. An Hawaiian Resolution Offered to Bland's Bill—No Quorum.

WASHINGTON, Feb. 17.—At the opening of the session of the house this morning, Mr. Cummings, chairman of the committee on naval affairs, presented as a question of privilege, the report of his committee on Mr. Boutelle's resolution calling upon the secretary of the navy to inform the house by what authority his instructions were issued placing the armed naval forces of the United States and the use of its ensign under the control of Special Envoy James H. Blount and also to furnish the house with copies of all orders, directions, instructions or official suggestions issued by him since March 4, 1893, concerning the movements of the naval forces at Hawaii. He explained that the committee recommended the passage of the resolution amended so as to call for all orders from March 4, 1893, instead of 1893.

Mr. Boutelle urged the importance of the resolution which he said, had already been delayed six weeks. The information called for by it, he thought, should have been before the house when the Hawaiian resolutions were being debated.

Mr. Bland moved to go into the committee of the whole on the silver debate. On the rising vote the Republicans and the opposing Democrats declined to vote, and when the result was announced—99 to 0—Mr. Tracy made the point of no quorum.

The eyes and nays were demanded. It was very apparent from the outset that Mr. Bland would be unable to get a quorum to-day. The vote resulted—140 to 5, thirty-four less than a quorum. Mr. Bland moved a call of the house.

WILL FIGHT FOR KANSAS. National Women Suffragists Decide to Push the Sunflower State Campaign.

WASHINGTON, Feb. 17.—The National Women Suffrage association in session here has formally determined upon a Kansas campaign and members expressed confidence that this year will see at least one more star added to their suffrage flag, which Wyoming was first to adorn.

As soon as the campaign in New York closes, which will be April 28, Miss Anthony and the Rev. Anna Shaw will go to Kansas and open the campaign there May 4. Mrs. Laura Johns has painted a glowing picture of the chances in Kansas.

This morning the delegates were tardy in gathering. The reports of the credential committee and of the treasurer were on the program for consideration this morning, but Mrs. Harriet Taylor Upton, having these matters in charge, said that owing to delays in receiving credentials of members and the treasurer's books, she was unprepared to submit the reports. The convention then listened to the corresponding secretary of the association, Mrs. Rachel Foster Avery. She said that the advances had been great. She referred to the Colorado victory and said that New York women were organizing the grandest campaign for equality of rights that the country had yet seen. Looking further away the past year was made memorable in woman suffrage annals by the giving of franchise to the women of New Zealand and by their eager and enthusiastic entry into political life at the late election when one-third of the votes were cast by the women and when the proportion of defective ballots was smaller than ever before. In England, the women had in spite of the government opposition, been endowed with the parish councils franchise in company with several classes of men now disfranchised.

WHITE FACED HORSE. After a Remarkable Experience He Confesses to Killing Four Men.

OMAHA, Neb., Feb. 17.—Information has reached here from South Dakota to the effect that White Faced Horse, the Sioux buck who was implicated in the murder of four white men on White river near Pine Ridge, last winter, will be arraigned before Commissioner Hoover at Gettysburg, S. D.

White Faced Horse, in escaping the Indian police under Old American Horse, who arrested Two Sticks and his boys at Nowater's camp, was severely wounded and was in almost a dying condition when he reached the agency at Standing Rock. There the Sisters of Charity nursed him back to life. He professed religion, joined the Catholic church, and confessed his share in the murder of Bennett, Kelly, Boyce and Brown. Last week United States Marshal Cogley arrested him at Standing Rock, and he is now at Gettysburg. His formal trial will be held at Sioux Falls.

Kent, undertook last night to terrorize the little town of Starkville, a coal mining camp, two and a half miles from here, in the style of early days, by flourishing their guns and making desperate threats against the inhabitants. They were arrested and sentenced to ten days each in jail for carrying concealed weapons.

WASHINGTON, Feb. 17.—The subcommittee of the house labor committee reported in favor of setting aside the first Monday in September as a national holiday, it having been found that this day is observed in nearly all states that have a labor day. THE TOWN SITE FIGHT AGAIN. SENATE AMENDMENTS REJECTED BY THE HOUSE. AFTER A LIVELY AND BITTER DEBATE.

The Confusion Was So Great That Business Was Several Times Suspended to Enable the House to Get to Order.—Mr. Simpson on Colored Colonization—No Quorum for Silver.

WASHINGTON, Feb. 19.—The bill to compel the railroad companies of Oklahoma to erect stations at government townsites was sent to conference by the house this morning after an hour of fierce conflict.

When the bill was laid before the house Mr. Wheeler promptly moved nonconurrence in the amendment and asked for a conference. The semi-circular open space before the speaker's desk was crowded with members in a moment, and such confusion ensued continuously thereafter that "business" was several times suspended to enable the house to proceed intelligently. Charges and counter charges of fraud, bribery, corruption and lobbysism were made.

Mr. Hopkins of Illinois first moved concurrence, but afterwards withdrew it at Mr. Reed's request. Mr. Wheeler attempted an explanation of the question, while Messrs. Cannon of Illinois and Wilson of Washington joined in antagonizing the original bill. Mr. Wheeler vigorously assailed the Rock Island road, pronouncing the contest one between it and 5,000 people, whose all was staked on the result.

Mr. Warner of New York went to Mr. Wheeler's aid and promptly routed Cannon and discomfited Wilson. Then Mr. Simpson got five minutes and made the first clear exposition of the subject matter. If the amendment were adopted, he declared that the Rock Island road would corruptly control the county seat election by importing colored men for that express purpose. As evidence of the wickedness of the railroad he said that 7,000 colored men had been brought into his district to defeat him because the railway companies were afraid he would expose their cunning schemes. There was a chorus of "oh's" at this from the Republican side.

Mr. Clark of Missouri followed. He was especially severe on the Rock Island road, original in his illustrations of existing conditions and bitter against the railroad lobby and those susceptible to its blandishments.

Mr. Dunn of New Jersey spoke in behalf of the settlers and Mr. Cannon poohed for five minutes all suggestions that the Rock Island would interfere in elections for county seats. In brief he was of the opinion that railroad companies were altogether too self-respecting to think of such things.

Mr. McRae closed and in much confusion and disorder the question went to the committee on conference, where the issue will be bitterly debated, the speaker appointing Messrs. Wheeler of Alabama, Kilgore of Texas and Avery of Michigan conferees on the part of the house.

After some further routine business the fight over the silver seigniorage bill was resumed and Mr. Bland moved to go into committee of the whole on the bill and pending that motion moved that all debate be limited to one half hour. The Republicans and Democratic opponents of the measure repeated their tactics of yesterday and refrained from voting, and again the motion was defeated, 157 to 3, for lack of a quorum.

Mr. Bland moved a call of the house. This developed the presence of a quorum and then at 2 o'clock by special order the remainder of the afternoon was devoted to eulogies upon the life, character and public services of the late Representative William Lillie of Pennsylvania, and then adjourned.

MORGAN'S HAWAIIAN REPORT. The Senate Investigating Committee Consider the Matter—All Kept Secret.

WASHINGTON, Feb. 19.—The senate subcommittee which has been investigating the Hawaiian question was in session for several hours to-day and it is understood that the entire time was devoted to listening to the reading and discussing Mr. Morgan's report, which had been completed. What, if any, changes have been or will be made in the report by the full committee, no one outside of the members can say and they decline to make any statement. All that can be learned is gathered from a statement made a few days ago by a member of the committee that Mr. Morgan was in accord with the views of the administration on the Hawaiian question, but those who remember how ardent an annexationist he has always been are inclined to the opinion that he will at least find some words of excuse for the course of Minister Stevens if he does not indorse the method he pursued.

Messrs. Gray and Frye, representing respectively the views of the administration, and the views of those opposed to this position, are known to be quite radical and it is difficult to conceive how any man can write a report which will be accepted by both. Messrs. Butler and Sherman, the other members of the committee, have not been so outspoken. The belief of those who know Senator Morgan is that his report will be conservative, but will not be lacking in forceful expression and decided statement.

NOTHING FOR NEW BUILDINGS. Congressmen Seeking Postoffice Structures Virtually Give Up All Hope.

WASHINGTON, Feb. 19.—Congressmen in whose district buildings for post-offices or custom houses are wanted do not look hopefully to this congress for the fulfillment of their desires. The Fifty-third congress has a remarkable record on the matter of public buildings for, up to date, no bill for a new building has passed the house and but one has been reported from the committee on public buildings and grounds.

The treasury is, of course, mainly responsible for this record. There has been no lack of bills for public buildings even in the face of the general understanding that few would be authorized. At the beginning of the special session they came in thickly, but have steadily fallen off since then, though there are now 123 before the committee.

While the committee on public buildings has held numerous meetings it has not yet decided to make a favorable report on any building bill but has authorized the purchase of land and the erection of a government printing office in Washington at a cost of \$1,500,000. In this instance the committee did not lean toward undue economy, for Chairman Bankhead contended that economy in the long run would best be gained by the erection of a building which would hold the entire government force of printers and need no additions or extensive repairs for many years. He had determined to make the printing office the main work of his committee and to push it through if possible.

To Save Ten Kearsarge Guns. WASHINGTON, Feb. 19.—Lieutenant J. A. Smith, United States navy, has presented to Senator Chandler and Representative Blair, who have prepared a bill to cover the matter, a plan for rescuing the guns and armament of the Kearsarge, indorsed by T. M. Stoddard, who commanded the eleven inch guns of the Kearsarge during the engagement with the Alabama, and who is now in the wrecking business at Norfolk, Va. He estimates that an expedition could be fitted out to rescue the Kearsarge for about \$12,000.

Stone is determined to push his bill for changes in the immigration laws which will compel intending immigrants to secure certificates of fitness from United States consuls at the ports from which they sail after undergoing rigid examination, and has secured its reference to the judiciary committee, the immigration committee having decided to give the present laws a chance.

A Tax on Sugar Petitioned For. BOSTON, Feb. 19.—A petition to the senate finance committee has been circulated in this city a few days past, and has been signed by many leading Democrats asking for the retention of the one-fourth of a cent a pound duty on sugar, provided in the original Wilson bill by the ways and means committee and abolished by the house. Among the more prominent signers are ex-Governor William E. Russell, Josiah Quincy, Amos W. Stetson, C. C. Jackson, Moses Williams, F. B. Sears and Robert L. Butler.

Peffer's Religious Turn. WASHINGTON, Feb. 19.—Senator Peffer, who last Sunday prayed at the Moody and Sankey meeting, will tomorrow night address the young people of the Fountry Methodist Episcopal church in this city. He is becoming quite prominent in religious work in Washington.

FAIR BUILDINGS GOING. Another Grand Structure Wiped Out by Fire.

CHICAGO, Feb. 15.—Fire, undoubtedly of incendiary origin, was found burning at 11 o'clock this morning in the Grand Colonnade between the Agricultural building and Machinery hall at the world's fair grounds, near the point at which the firemen made a fierce fight against the flames last week. When first seen the flames were crawling up the pillars. Quickly they mounted higher and higher and the fire grew hotter and more dangerous.

The first alarm was soon followed by a second call but before the additional engines could reach the burning structure its destruction and that of the large buildings adjoining on either side was threatened. Another call was sent out and all the available engines in Woodlawn and Hyde Park were soon hurrying to the scene. Drifted snow on the grounds made the work of the firemen slow and before sufficient streams were directed toward the burning structure its timbers were cracking in a rapidly spreading blaze.

Starting at a point nearly back of the Egyptian obelisk, the fire spread east and west. The light woodwork offered little resistance to the flames and the pillars and ornate roof decorations along the colonnade were soon in ruins. Three groups of animals in stately standing on the roof were destroyed.

Firemen were hampered not only in reaching the colonnade by the snow, but it delayed them in fighting the blaze. It was difficult to move the heavy engines and the lines of hose were clogged in the snow. The engines drew a water supply from the canal and no difficulty in this was encountered. Shortage of coal, however, was some disadvantage, as the supply wagons made slow trips.

Some twenty firemen were under the main part of the colonnade when Fire Marshal O'Malley, fearing that the central portion of the structure would fall, ordered them out. They had barely drawn away from the place when the top of the colonnade was seen to rock for a moment, and the next instant it fell crashing to the ground, carrying with it the magnificent quadriga, by Wagner, that adorned the central part of the top of the colonnade.

Manager E. R. Graham of the grounds and buildings, directed that the smaller colonnades, connecting the Machinery hall and Agricultural buildings, be destroyed to keep the flames from reaching those buildings. The fire damaged the Assembly hall in the east portion of the structure, and threatened to reach the rooms on the west side occupied by Artist Frank Millet as headquarters for his department during the fair.

The fire was practically extinguished before 2 o'clock after a hard fight, and the great buildings were saved.

The Itata Claim Must Be Paid. WASHINGTON, Feb. 15.—The mixed commission which has been considering the claim of the South American steamship company against the United States government in the now famous Itata case, has rendered a decision, overruling the demurrer interposed by Judge Shields, counsel of the United States, to the claim for 47,000 pounds damages. This demurrer was based upon the claim that the seizure was made with probable cause, the Itata being in the employ, temporarily, of the Junta government of Iquique.
