## NO RELIEF FOR THE ARMY.

KELLY'S "INDUSTRIALS" STILL IN CAMP AT WESTON.

## WAITING FOR A TRAIN TO TURN UP.

The Railroad Officials Decline to Do Any thing for Them-The Mayor of Omaha Issues a Proclamation Warning the People Against Lawlessness-A National Guard Member Court Martialed.

Омана, Neb., April 23.—Threaten ing weather caused Kelly to delay his proposed march from Weston back to Council Bluffs. He is waiting to hear the result of the efforts of General Manager St. John and W. H. M. Pusey to secure a train for the army over the Rock Island. He is also favorably impressed with a suggestion that he secure teams and make the trip overland to Washington, and he is already receiving encouraging responses from the farmers to his appeal for assistance for this purpose. He expresses the hope that his friends in Omaha and Council Bluffs will strictly observe the law even though they are laboring under great excitement.

The army has only enough prothen if relief does not come they will be compelled to go back to the Bluffs. Reports from all tows near here are that the people have contributed plenty of supplies, but have no means

of getting the stuff to the army.

Kelly thinks that he will not accept the proposition for transportation to Kansas City by water except as a last resort, as it will not land him any nearer his destination.

A PROCLAMATION BY THE MAYOR. At noon Mayor Bemis issued the fol-

lowing proclamation: To the Citizens of Omaha—Notice has been served on me, as chief executive of the city of Omaha, by the officials of the Chicago. Rock Island and Pacific railroad and the Burlington and Missouri river railroad, that their companies will nold the city liable for all damaze done to their property by mobs and lawless citizens.

done to their property by mobs and lawless citizens.

Now, therefore, I, Georze P. Bemis, mayor of the city of omaha, hereby caution all persons within the boundaries of the city to desist from interfering with the roadways, rolling stock or other property of said corporations, and in all respects to observe the laws and maintain good order. I furthermore urge and recommend that all parties in sympathy with the Industrial army now detained near Council Bluffs contribute to their relief in securing horses, wagons and subsistence to enable them to continue their march across Iowa, independent of railroads and corporate charity. All contributions made through the mayor's office will be for warded to General Kelly as rapidly as they can be conveyed. George P. Bemis, Mayor.

A largely attended meeting was largely attended meeting was

held in Knights of Labor hall at 11 o'clock and speeches were made by many labor leaders. All seemed to be at sea as to the best course to pursue, but every speaker denounced the railroads in most vigorous language.

At 12 o'clock Kelly declared that if transportation was not secured for his army between now and morning he would begin moving on foot eastward through the state.

THE KIND OF MEN THEY ARE.

DES Moines, Iowa, April 23 .- General Manager St. John of the Chicago, Rock Island and Pacific railway, who passed through this city from Council Bluffs, said of the "commonweal army" now near Council Bluffs:"It is made up of sober, intelligent determined men. Nine-tenths of them are American born. They are respectable, honest, and remarkably well organized. There are no 'bums' among them. The statements that have been sent out about their being tramps and all that sort of thing are utterly untrue. Their leader is a man of brains and character and great determination, and he is a religious man, too. He is a perfect gentleman and thoroughly honest. He will never permit any outrages to be done by any of his men if there should be any inclination in that direction, which there is certainly not now. He will not permit any tramp or disreputable person to enlist in his army and he will remove the first one he can find. He has absolute control over his men, which he never could have over a body of tramps or disrep-utables. He is said to me that his men would never go back under any circumstances. They are going to Washington in some way, of that I am sure. 'We may be wrong,' Kelly said to me, 'but we are determined to go to Washington and present a living petition to congress—one that cannot be thrown into a waste paper basket. We think we are right and nothing can stop us.' What they can accomplish I do not see, but they are bound to make a profound impression. There will be probably 100,000 people in Washington by the 10th of May on this mission. And what can we do about it? Nothing but treat them kindly and let them The more opposition they meet the stronger they become. The labor ing classes all over the country are in sympathy with them. If they have a few more days of such treatment as they have had the last two days I tremble to think of what may happen. You can't tell what a man will do

when he is hungry and hunted down. AN "ARMY" ON A NEW PLAN.

Chicago "Commonwealers" Propose Band Together to Look for Work. -CHICAGO, April 23. -Chicago is to have a "commonweal army" of its own, was the announcement made today at the headquarters of the movement on La Salle street by J. H. Randall, the recruiting officer. He said twenty-seven men had signed the roster and continued: "Our plans are to gather as many of the unemployed who think as we do together, and when we are organized we will start out looking for work. A

lot of us have failed in individual efforts to secure employment and we think we will try to see what can be accomplished by united effort. Our original plan for joining either Kelly or Coxey has been abandoned. Mr. Kelly seems to have all on hand that he can attend to, and we will do better by making our own organization and being independent any other, except that we are with them in the general purpose to improve the condition of the laboring

Several of the Minor Entrances to Be Closed-Extra Guards on Duty.

WASHINGTON, April 23.-The authorities of the capitol building have perfected arrangements for maintaining order and quiet in and about the halls of congress. There are fourteen entrances to the capitol, some of them through devious and ob-scure passages. These minor enscure passages. These minor en trances will be closed for the time be ing. By this arrangement the capitol police force can be better disposed and concentrated. The regular force is likely to be augumented as officers will be needed for the galleries as well as for the rotunda and other assem-bling points. Admission to the galleries will be restricted to the comfortable seating capacity. When the seats are filled the doors will be closed. No restrictions will be placed on the com-ing and goings of persons, but they will be expected to keep the passages open and to "move on" so as to avoid jams. The closing of the house restaurant except to members is part of the general plan that has been adopted.

Coxey's "Army" as a "Circus." HAGERSTOWN, Md., April 23 .- The advance column of the "commonweal army" remains in camp here. THE EPIDEMIC SEVERE.

Two Chicago Schools Closed Because Smallpox-Special Precautions.

CHICAGO, April 23.-Two of the pub lie schools, the Froebel and the Pickard, have been closed for several days on account of smallpox. Health Commissioner Reynolds said the schools were not closed on his order, but that he saw no reason why the action should not be taken, though he himself would not have taken it.

Little Girl Suffers Terrible Agony for Years-Physicians Said She Would Die -Cured at Last-Her Mother Says It Is

a Miracle. (From the Taunton, Mass., Gazette.) The following story needs no com-ment whatever. It is the town talk in

Wrentham, Mass., and the child's mother tells it as follows: Mrs. Fuller said: "My daughter is now eight years old. When she was four years old she had rheumatic fever and at once she was stricken helpless; she went from bad to worse until we all despaired of ever seeing her about again. ployed at various times physicians of Foxboro, Franklin and Attleboro, but all to no practical benefit. I gave her all sorts of medicines, and this spring I buried over two bushels of empty bottles which she had emptied from time to time. One doctor who attended her said that she had liver complaint and dropsy, and that she was going to die. I had given up all hope myself when last March I happened to get hold of an Albany, N. Y., paper, and there I read of a wonderful cure of a man up that way by a medicine known as Dr. Williams' Pink Pills, the patient having hear afficied serve described. ing been afflicted as my daughter was. At that time her legs were drawn up behind her, and her arms were almost helpless. Her head was drawn down on her shoulder and she was a pitiful sight, I tell you.

sight, I tell you.

I sent and got two boxes of Pink Pills, and when she had used them up I thought I could see just a bit of improvement. Then I got two more and she began to lift herself in bed, and to help herself in other ways. She kept on taking the pills, and now she is able to go over to neighbors, and is bright and smart. She was a living skeleton; there was nothing to her but bones, and they were all out of shape. When she was first taken sick she was out of her head, and for three years, if you will believe me, it was an utter impossibility for me to catch more than five minutes' sleep at a time, so much care was she, and such constant attention did she require, and I was the only one she would let wait upon her. But I am glad I did so, and now I am getting my reward," and the fond, patient, faithful little woman glanced with pride and pleasure to the spot where the little girl was playing with her sister in the shade, just outside the win-"I have spent more than \$500 on her, and although I never begrudged it yet I did want to see my child improve faster than she did. To-day she eats more at one meal than I do in two. When I commenced to give her the Pink Pills she was afflicted with a skin disease which was very annoying. Now that has all gone, and I think the pills are responsible for that. Before I started on the Pink Pills I wrote to a specialist in Buffalo, and described her symptoms; he said she had blood poisoning, due to bad milk, and wanted me to bring her there for treatment, although he said that he did'nt believe she would ever get over it. She had been given up by four doctors, who were certain that they could not cure her. Why, she couldn't open her mouth, and I actually had to force the food into it. Her mouth was all sores, and, oh dear, what a looking child she was, and such a care! Nobody but myself knows what a trial we both have been through, for she was too young to realize it. If my statement will do anybody any good
