OVER THE STATE.

DR. GILLETTE and wife of Beatrice have gone on a trip to Europe. A GREAT religious work is being done

at Aurora by Evangelist Person. The new electric light plant at Hooper will be in operation in a few days.

MR. AND MRS. DURAND of Verdon reamniversary.

SALOONS in Diller have closed for good, and for the coming year it will be a dry town.

NORTH PLATTE is hopeful of getting the northeastern extension of the Den-

ver & Gulf railroad. OSCAR PARIS of Benedict was kicked on the shin by a mulish horse, causing a very bad fracture.

THE town board of Lawrence has granted one saloon license. The matter has been appealed.

YORK has two public drinking fountains, where man and beast can drink their fill and never pay a cent. IKE JENSEN of Fremont has secured

a job with an Alaska company and has gone to the interior of that country. CONDUCTOR BROWN, who was as-

saulted by tramps near Crowell, has so far recovered as to be able to ride out. AT a meeting of the city council of Nebraska City an ordinance was passed reducing the occupation tax from \$100 to \$50 to saloons.

THE shop and planing mill of O. E. Stoffregan of Blue hill caught fire. Damage to building and contents \$500, with no insurance.

Ir is reported that the Paddock opere house at Beatrice is to be closed at the end of the season and will hereafter be used as a store room. A slick swindler was in Frement the

other day and attempted to work the bogus check racket on banks and business men, but failed. THE farmers about Hartington are

becoming theroughly acquainted with the Russian thistic, but are entirely at a loss to know how to eradicate it. THE Standard Cattle company in Dodge county will break several hundred acres of prairie this spring and prepare it for their future fat land.

AUGUST LEGER, an old Milford boy, has returned from the Congo Free State, where he went as a missionary and is now telling his experiences to the pub-

Work has been commenced on the finishing contract of the new govern-ment building in Fremont and the contractors claim they intend to push it to completion.

QUITE a mad dog scare has been got-ten up in North Fork precinct of Saline county. Several head of stock are re-ported to have been bitten and several dogs have been killed.

THE jury in the case of Elam Lewis of St. Paul, accused of breaking into the house of T. Hermanson of that city and stealing two-suits of clothes, re-turned a verdict of petit larceny.

THE sheepmen are now about to leave for their annual drive toward Fremont. It is considered a safe estimate that 75,000 sheep will be brought into Dodge county to be fattened.

THE new creamery at Henderson opened last week for business and was greeted with a goodly supply of milk. A competent butter maker is in charge and the outlook is very favorable. A REQUISITION was last week issued

to the governor of Kansas for the re-turn of Allen Alford, who is wanted in Beatrice for forgery. Alford is in the custody of the Atchison authorities. THE sheriff of Dawes county recently

gentleman under a distress warrant, and will sell the outfit unless certain taxes are paid within the limit of redeption allowed by law.

GOVERNOR CROUNSE has issued a requisition to the governor of Iowa for he apprehension and return of Ira homas, who is wanted in Custer county on a charge of seduction. Thomas is now under arrest at Sidney, Ia.

ALLEN ALFRED, son of a capitalist at Austin, Tex., was arrested at Atchison, Kan., for forging the name of Kflpat-rick Bros., railroad contractors at Be-atrice, to numerous checks. When ar-rested he was eloping with Miss Annie Miller of Restrict

REPRESENTATIVE HAINER, says of Washington dispatch, appeared before the sub-committee of the committee on military affairs and secured the prom-ise of a favorable report on his bill for the relief of William Henry Johnson of Ceresco, Saunders county. THE village board of trustees of Elm

Creek met and organized. They appointed Wilber Houghton street commissioner and J. W. Roll marshal. and sued license to S. S. Clark as a saloonkeeper, fixing the license at \$500 and the occupation tax at \$100. "REDDY" WILSON, a tough burglar

ho has served several terms in the Nebraska penitentiary and who burglarized ex-Auditor Benton's house about six years ago, was lynched at Missouri Valley, lowa, for the murder of the city marshal of that town.

A MASS meeting was held in Ashland for the purpose of discussing the bond question. In the recent election this issue was defeated by a small majority, but at the present time the popular sentiment is in favor of a new election to be held about the latter part of May.

The news received at Nichrara from Congressman Meiklejohn announcing the final passage of the bill for the government bridge across the Nichrara giver and river and appropriating \$7,000 for it, was encouraging news to both settlers and Indians, who are alike benefitted.

G. F. Copper and A. J. Sheridan have filed articles of incorporation for the Paxton Irrigating company of Keith county. The company starts with a capital stock of \$5,000 authorized and expects to operate on the south side of the Platte river, commencing in Keith county.

The Henderson Separator Creamery company has filed articles of incorporation and will commence business on the dividend plan, patrons to receive their proportion of the proceeds of each month's make of butter. Herman and August Schneider and others are the incorporators.

THE skeleton of the old sugar palace at Grand Island is being put away.

THE comptroller of the currency has announced the following changes in Nebraska National banks: The First National bank of Hebron, Jesse Star-buck cashier in place of J. M. Bennett A BARN belonging to Ernest Axen, two miles south of Scribner, with quite a number of cows and horses and other property valued at about \$1,000, was consumed by fire. It was about half protected by insurance.

NORMAN W. PETERS, recently appartment, has filed his official bond in the sum of \$50,000, with John Peters, Loran Clark, C. G. Barns and M. B. Thompson as sureties.

ONE advantage in living in Boyd county, says the Butte Gazette, is that we are not bothered with "industrial" armies. Every man that is inclined to work can find plenty to do, and as we are forty miles from the railroad the professional agitator does not visit us and start a "ghost dance" to Washing-

Two coach loads of Indians, a new supply for Cody's Wild West, left Rush-ville last week for New York. They were the pick of the Pine Ridge reserva tion and are gorgeous in feathers, paint and many-colored blankets. They were outfitted in Rushville with clothing and supplies for their journey at an expense of nearly \$3,000.

THE Sunday closing ordinance was observed in Hastings with a vengeance. It was impossible to buy a cigar and and the old rounder who has been ac-customed to getting his drinks Sunday morning the same asother days had to go without. Livery stables, meat markets, hotels and restaurants were the only places that transacted any busi-

THERE is some good wheat in this part of the country and some good oats, says the Hardy Herald. On the other hand there is some of both that will be listed to corn. But not more probably than was done last year. The result of the hail, which cut the grain down badly, is not yet fully known, but we are of the opinion it will come thicker

A SPIRITED battle, in which the saloon element and the temperance people are arrayed against each other, is in progress in Benkelman. jority of the members of the village council favor high license, and the only obstacle in the way of the establishment of a saloon there is the failure to receive the required number of signatures to a liquor license petition.

THE county supervisors of Antelop county met to canvass the vote of the election of April 17, at which time the bonds were defeated. Petitions were presented by a large majority of the voters of the county to call a new election for a levy of 1 per cent on the assessed value of the county, which would read to the county. which would produce \$17,000, of which 85 per cent will be available this year. The board called the election for June 10 next by a vote of 20 to 3 and all predict a favorable election.

A HORRIBLE accident occurred at Ta-ble Rock, in which William J. Brock was killed. He was tending the saw in Lewis Feller's mill when he slipped forward over the saw. The engineer saw him being thrown over and at once stopped the engine, but there was only one cry and a few gasps and he was dead. The left arm hung by the skin, the right leg had the bones severed and a deep gash ran for two feet from his left leg to the center of his breast. He leaves a widow and two children.

GOVERNOR CROUNSE has pardoned John S. Boyd, a convict serving a sentence at the penitentiary for selling liquor to Indians. Boyd was received at the prison April 10, 1893, having been sentenced to a term of two years and nine months. He was convicted at the March term, 1893, of the Sheridan county district court. He is forty-one years old, is a miner by occupation and for seven years was on the range. His father, living at Crescent, Wash., is about the only near relative living.

IRA M. Morris met with a painful accident while at work on his farm near Alda last week. He was plowing when his team started to run. He was tum-bled against some hard ground, striking against his shoulders. He thought very little of it at the time, and went right along with his work. His shoulder grew painful and increased until two days afterwards, finding he could stand it no longer, a physician was con-sulted. The examination showed that the collar bone had been broken and was considerably inflamed near the rup-

MARY A. Langan against Robert Binfield, William Cornelius, et al., is the title of a petition in error filed in the supreme court. The case involves an important question concerning school lands. It seems that Mrs. Langan leased certain school lands in Hall county and defaulted in payment of rental. The lease was declared forfeited by the board of educational lands and funds. Binfield filed application to lease lands too soon. Langan then tenders all payments in default and cost and brings suit to prevent execu-tion of the lease to Binfield, claiming right to redeem from forfeiture.

THE last crop bulletin issued by Director Hunt of the weather bureau gives very encouraging information: The weather conditions of the lastweek, it says, have been as favorable as could have been desired by farmers. High temperature and frequent showers have had a very beneficial effect upon all vegetation, causing vigorous growth in wheat, oats and grass, and advancing the season from ten days to two weeks ahead. The soil continues in excellent condition for plowing and planting; potatoes and small grain are all in the ground, and the week closed with corn planting well under way. Most correspondents make favorable mention of the fruit prospects, apples and cherries being especially promising.

Twelve convicts have been paroled from the state penitentiary under provisions of the act passed by the last legislature, and reports just filed greatly please Governor Crounse and he gives the law, in nearly every particular, his unqualified support. But one thing stands in the way, in the opinion of the governor, that is, convicts are invariably paroled through influence of friends who agree to take them and give them employment, and as a great many eligible to parole have no relatives or friends they remain in the prison, when if friends or philanthrop persons would intercede and offer employment they might now be at liberty and earning living for themselves as well as giving their employers more than value re-

COL. BRECKINRIDGE SPEAKS

OPENS HIS CAMPAIGN FOR RE-NOMINATION.

HE HOTLY DENOUNCES HIS FOES.

Defies Those Assailing Him to Do Their Worst-Confident That the Future Will Vindicate Illim and His Friends-His Secret Atonement Dwelt Upon-Card From a Minister.

LEXINGTON, Ky., May 7.—When Congressman W. C. P. Breckinridge ar rived here from Washington last evening fully 500 men were at the depot, lead by his son, Desha. All crowded around him and shook his hand. Suddenly an old ex-confederate soldier called for cheers and these were given with a will nine times.

The opera house was jammed at 2 o'clock when Breckinridge appeared on the stage.

Breckinridge's speech was mainly devoted to a review of his career in congress. Beginning with the first election of Cleveland he pointed out that no man in the Democratic party had taken more advanced ground on the tariff question or done more to unify the party on economic measures. He replied to the claim of his opponents that he was a flowery orator but not a practical statesman, by reciting with great particularity his labors on committees and on the floor of con-

The concluding portion of the speech was devoted to the scandal and oppo-sition to his renomination on moral grounds. He denounced and defied those assailing him in the newspapers and said that the future would vindicate his devoted friends and confound those who now sought to destroy his usefulness. Answering the charge of hypocrisy in taking a leading part in religious and moral movements while living a double life, he said that he was all this time making atonement for a secret sin which he dared not confess and doing everything in his power to keep others from following

in his footsteps.

Breckinridge was looking unusually well and declared that he was in firstclass shape. He had made no plans beyond the speech here and the one at Paris Monday.

Everywhere are to be seen Breckincampaign buttons, which bear his picture. Thousands of people are here and hundreds are coming on every train.

The Rev. E. H. Ward, rector of Christ Episcopal church, is out in a card against Breckinridge's candidacy. It is a powerful argument against returning him to congress and winds up in the following strong man-

The eyes of the whole country are at present upon the Ashland district. Our own honor and sell respect are at stake. The usefulness of Colonel Brecklaridie in the legislative halls of the nation is for the present at an end. Let him, therefore, for his own good and for the welfare of the Democratic party, withdraw from the race for congress, and thus relieve the party from serious emburrassment, and many Democrats in case of his nomination from the painful necessity of voting for the Republican nominee.

The women of Lexington issued the following last night:

To the Voters of the Democratic Party:
The women of Lexington and the Ashland district protest against the renomination of W.
C.P. Breckinridge for congress. As you are the voters we trust you will refuse to return him as your representative. By doing so you will best subserve the peace and progress of human society, which from every quarter calls for this right and holy action.

The Women of Lexington.

The Owens men are, hard at work

The Owens men are hard at work, but will not open their campaign with force until Monday. Then they will start in in real carnest.

KANSAS CROPS.

Handsome Showing Made by Secretary Coburn's Report.

TOPEKA, Kan., May 7 .- Secretary Coburn of the state board of agriculture has issued his crop report, which makes a handsome showing. He says: "Winter Wheat-Rains and favoring

weather have caused a development most gratifying; fields that in many counties a month ago were regarded as worthless, now indicate a partial as worthless, now indicate a partial crop. From a scattering stand of healthy plants great areas previously promising, but supposed to have been much if not fatally injured by the freezing weather following March 20, appear as practically unharmed, and this with that not suspected of any damage is that not suspected of any damage is now variously described by correspondents as "good, fine, very good, better than average, looks well generally, condition 150 per cent, prospects for big crop extra good, better than for several years, splendid, su-perior, all right, and best in twenty-five years." Chinch bugs are reported in various localities, but in scarcely a single instance as doing any damage whatever. No mention is made of any other insects.

Corn-The uniformly favorable weather and soil conditions throughout the entire corn belt of the state are running nearly or quite all of April and have afforded a season well nigh unprecedented for the planting and germination of corn. The acreage planted will undoubtedly be very

Hatch's Anti-Options Bill.

Washington, May 7 .- Chairman Hatch of the house committee on agriculture has finished his report on the anti-options bill agreed on by the committee and will report it to the house probably early next week. All of the objectionable features which have heretofore caused the anti-options bill to be antagonized have been eliminated. The only sections which will now meet with any serious oppo-sition are those relating to bucket shops The regular dealers in futures are pretty well satisfied with the bill.

Unions Figuring on Colonization. CHICAGO, May 7 .- In the interest of labor organizations of Chicago a committee has gone to California to examine 70,000 acres of land which has been offered to them for colonization.

HAWAIIAN REGISTRATION.

Only One Hundred and Eighty-Five Na

SAN FRANCISCO, May 7. - The steamer Australia, which arrived to-day, brought Honolulu news to April 21 The registration closed April 21, and in Honolulu alone 1.507 signed the rolls. Although seemingly small it was nevertheless a good showing when the fact that only 2,800 voters registered at the last election under the Royalist regime is considered. The registered are: Natives, 185; Hawaiians born foreign, 101; Americans, 390; English, 195; Germans, 120; Portuguese, 418: all others, 98; total, 1,507. Complete returns had not been received from the other islands when the Australia sailed, but the total registration for the group is estimated at about 3,000.

A large number of American supporters of the provisional government

did not register because they feared that they would lose their American citizenship by taking the required oath. One of these was John Em-meluth, a member of the advisory council. The Portuguese nominated two candidates of their own, who, from the number of their countrymen who registered, will probably be elected.

L. A. Thurston, the Hawaiian min-ister to Washington, is in Honolulu and will remain until after the constitutional convention. He denies the rumor that he has accepted the portfolio for minister of foreign affairs.

SURROUNDED BY MOBS. The Whole of the Pennsylvania Coke

Region Paraded by Foreign Strikers. CONNELSVILLE, Pa., May 7 .- From all parts of the coke region come reports of gatherings of foreign strikers about the various coke works, and there is

every reason to expect outbreaks at several points at any moment. Large forces of deputy sheriffs, armed with Winchesters and large revolvers, are on duty at each place and may be able to prevent actual hostility, but the situation is so critical that these forces are being increased as rapidly as possible. A mob of 1,000 marched on the Paul

plant to-day, frightening the work-men, many of whom dropped their tools and fled. The appearance of a large number of armed deputies, just at this time, however, had the desired

effect and the mob quickly dispersed.
Other works that are only in part
operation, such as the Valley plant of
the Frick company, will be visited by
the strikers and trouble is feared. The Frick people are determined that the strikers shall not trespass on their property and deputies are on the ground in round numbers with Winchesters.

NECRO MINERS GUARDED. Strikers Not Allowed to See the Work-

men Near Bevier-Strike Objects. Macon, Mo., May 7.—A delegation of 350 miners, all from Bevier except small delegations from other mining towns in Missouri, met at Bevier yesterday afternoon and, headed by an American flag and a band

of music, marched to mine 46, where about forty Alabama negroes are at work, to try to persuade them to join the general strike. Superintendent Crandall was there with his guards and clerks and took the names of the miners known to them. Crandall would not all the men to go inside the company's grounds and or-dered his negroes not to go out and talk to the delegation of strikers. Two of the negroes went and told the whites that they would join the strike if the other negroes would, but the others were afraid Crandall would fire them out of house and home if they did.

PRICE OF COAL GOES UP.

by a Set of Coal Operators.

CHICAGO, May 7. - The price of coal has advanced in this city from \$2.75 to \$4 per ton. Assistant General Manager Wood of the Chicago & Alton road said to-day that the Ohio coal operators had stored in the Lake Eric ports 665,000 tons last win-ter and early this spring. As soon as these ports had been well filled they cut their miners' wages to the lowest limit. This action naturally brought on the strike in Ohio, which was followed by the general strike. The Ohio combination is now marketing its supply at the advanced rate and thereby netting a handsome profit.

A. P. A. SUPREME OFFICERS. Traynor of Detroit Elected President-

Adam Faucet Vice President. DES MOINES, Iowa, May 7 .- The subreme council of the A. P. A. elected the following officers: Supreme president, W. J. H. Traynor of Detroit; vice president, Rev. Adam Faucet of Columbus, Ohio; secretary of state, O. C. Jackson of Boone, Iowa; chaplain, J. J. Gosper of Los Angeles; secretary, C. T. Beatty of Saginaw, Mich.; treas-urer, H. M. Stark of Milwaukee; past supreme president, H. F. Bowers of Clinton, Iowa; sergeant-at-arms, E. H. Dunbar; guard, E. M. Woods (colored) of Illinois; sentinel, William Meeker of Kentucky.

Miners Called Into Conference.

Columbus, Ohio, May 7 .- John Mc-Bride, president of the United Mine Workers of America, to-day issued a call to the organization and those affiliated with it to send one delegate for each 500 members to a national convention to be held in Cleveland May 14, preparatory to a meeting in joint session with coal operators from all the states the following day.

Admitted to Ball,

KANSAS CITY, Mo., May 7 .- Jerry M. Pate, E. L. Coleman and S. A. Pike. who are charged with the murder of Michael Callahan during the riot in the Fifth ward on election day, were arraigned in the criminal court to-day and pleaded not guilty. Bail was fixed at \$7,000. which was furnished.

Miners About Trinidad, Col., Called Out. TRINIDAD, Col., May 7 .- All the miners in this region except those at Aguilar have struck in sympathy with the eastern miners. Strong guards are maintained at all the mines.

A NO-TO-BAC MIRACLE

PHYSICAL PERFECTION PRE-VENTED BY THE USE OF TOBACCO.

An Old-Timer of Twenty-three Years Tobacco Chewing and Smoking Cured, and Gains Twenty Pounds in Thirty

LAKE GENEVA, Wis, May 7 .- Spe cial. The ladies of our beautiful little town are making an interesting and exciting time for tobacco-using husbands, since the injurious effects of tobacco and the ease with which it can be cured by a preparation called No-To-Bac have been so plainly demonstrated by the cure of Mr. F. C. Waite. In a written statement he says: smoked and chewed tobacco twenty-three years, and I am sure that my case was one of the worst in this part of the country. Even after I went to bed at night if I woke up I would want to chew or smoke. It was not only killing me, but my wife was also ailing from the injurious effects. Two boxes of No-To-Bac cured me, and I have no more desire for tobacco than I have to jump out of the window. I have gained twenty pounds in thirty days, my wife is well, and we are indeed both happy to say that No-To-Bac is truly 'worth its weight in gold'

to us."

The cure and improvement in Mr. Waite's case is looked upon as a miracle—in fact, it is the talk of the town and county, and it is estimated that over a thousand tobacco users will be using No-To-Bac within a few weeks. The peculiarity about No-To-Bac as a patent medicine is that the makers, the Sterling Remedy Company, No. 45 Randolph street, Chicago, absolutely guarantee the use of three boxes to cure, or refund the money, and the cost, \$2.50, is so trifling as compared with the expensive and unnecessary use of tobacco that tobaccousing husbands have no good excuse to offer when their wives insist upon their taking No-To-Bac and getting result in the way of pure, sweet breath, wonderful improvement in their mental and physical condition, with a practical revitalization of their nicotized nerves.

Killed by the Electric Light. An accident of an extraordinary na-

ture occurred at the Halte Theater, Aston, near Birmingham. The stage was lighted by two electric lights, and when the candles were not burning two brass connections, used for the purpose of crossing the current, were hung up over the orchestra. After the performance of the pantomime, Mr. Bruno, the euphonium player, was leaving with the other members of the band, when, presumably out of curiosity, he caught hold of the two brass connections referred to. The man in charge called out to him with the object of warning him of the danger he was incurring. The warning, however, came too late, Mr. Bruno received the full shock of the electric current generated by the powerful battery which supplies the whole of the lamps in the building and grounds. It is said that the candles not being then burning Mr. Bruno was unable to disengage himself, and pulled the wire down. The shock rendered him insensible. Medical men were soon in attendance and restoratives applied, but Mr. Bruno died in forty minutes afterward .- London Times.

Modern Improvements.

When a brave voltigeur of the Imperial Guard wrote from the Crimea to his father in Alsace, asking him to send him a pair of strong shoes and a 5-franc piece, the father, bethinking himself of the telegraph's speed, put the money into one of the shoes and hung the shoes upon the wires. An ill-shod fellow coming along soon afterward made an exchange; and the old man upon discover-ing the substitution went home to tell his wife that their boy had not only re-ceived his new shoes but had returned the old ones!"

HOUSEHOLD TREASURE. Growing Popularity of the Oxford Sewing Machines.

There is nothing more truly a household treasure than a good sewing machine. To be without it is to be willfully deprived of the immense advantage of one of the greatest of all inventions. A machine once bought is a perpetual treasure. It demands no wages, occasions no expense or trouble, and is always ready without a moment's notice to render the work of the laborious housewife tenfold more efficient and expeditious. Some machines combine the best ideas and suggestions which have been so abundantly introduced in this remarkable mechanism. There is nothing more truly a household

abundantly introduced in this remarkable mechanism.

A machine which exhibits in liberal combination all the best features introduced is the Oxford Sewing Machine, made by the Oxford Manufacturing Company, Chicago, with lock-stitch, shuttle running light and quiet. These machines have the following important features: Cheapness, perfect, self-adjusting and graduated tension, are under control of the operator and are always positive in their worlting. They are entirely self-threading in all points, including the shuttle. The needle is self-setting, the attachments are quickly and easily placed and fastened. The shuttle has an easy oscillating motion, causing it to keep paced and rastened. The shuttle has an easy oscillating motion, causing it to keep its proper place against the race. Their Oxford, No. 14 and Columbia machines, with attachments, were awarded the medal premium at the World's Columbian Exposition, Chicago.

Music teacher to scholar-" You see that note with an open space; that's a whole note. Can you remember that?" Scholar—"Yes'm. A whole note is a note that has a whole in it."

THE LAWN.—A young hedge of Osage orange or honey locust should not be cut until it is 2 or 3 years old; not, indeed, until the shoots are one, or even two inches thick. Then they should be cut even with the earth in the winter time, and the following year they will throw up a luxurious mass of sprouts, which may be trimmed into shape the next June, and before fall we have a complete, impenetrable fence.

When he sighs for her and she sighs for him, the sighin's of the times may be considered auspicious for a wedding.

RIOTING IN CLEVELAND.

The Unemployed of that City Wound and Destroy.

CLEVELAND, Ohio, May 3.-A mob of 6,000 or 7,000 unemployed working men assembled in he public square this morning and marched out on a mission of destruction.

On Scranton avenue every window was broken at the Variety iron works and the entire force of men run out. At the Upson nut and bolt works windows were broken, machinery smashed and the men driven away. Twenty-five men were driven from the Church furniture works.

At this point the police charged the mob and drove it up the hill on Jennings avenue. All the reserve police force, including the mounted men, were ordered out and many arrests.

made.

The mob after moving up Jennings avenue reformed and was again and again charged by the police The rioters had meantime raided a scrap iron yard and armed themselves with princes of iron. They were interested to the scrap iron. pieces of iron. They were in a frenzy of excitement and were constantly urged on by their leaders to resist the officers.

At this juncture a large reinforcement of police arrived and another charge was made on the mob with drawn clubs. The crowd showed fight only for a moment and then their ranks were broken and scattered their ranks were broken and scattered in all directions. The police used their clubs to such effect that many of the men were laid low. Patrol wagons were loaded with prisoners and quickly sent to the nearest sta-

Many of the men threw stones and other missiles at the blue coats from the vantage ground of the Abbey street bridge, but were forced away

street bridge, but were forced away and ran like sheep.

While part of the mob were fighting the police others made an unsuccessful attempt to hold up a mail train on the Nickle Plate road as it passed that point. The train slowed up in order not to run down any one, but sped on its way upharmed. its way unharmed.

Among the men arrested was Tom.

Among the men arrested was Tom.

Moore, who at the daily meetings of
the unemployed had constantly urged
the men to adopt anarchistic methods.

He was only landed in a patrol wagon
after his head had been laid open by a policeman's club.

After their ranks had been broken, the larger part of the crowd started across the Abbey street bridge with the police close behind them. On reaching the west side they scattered

in every direction and the police returned to the stations. The mob to-day was composed entirely of unemployed foreigners, mostly ignorant Italians and Poles, who had been daily harangued by labor leaders to organize.

KELLY ON COXEY.

Says the Commonwealer Leader Must Ee a Fool.

DES MOINES, Iowa, May 3.-Kelly was incensed when he read the reports of Coxey's arrest. "That man" must be a fool," he said. "It was foolish for him to attempt such a move without waiting for us. He should have known that he would be unsuccessful without the support of the West. If he had waited for us it would have been different. I do not anticipate any such trouble when we get there. We will have no difficulty in going into Washington."

Kelly's "industrial" nine made its first appearance on the diamond to-day, crossing bats with the Des Moines Stars, Twenty-five cents admission was charged and a good-sized crowd attended. Kelly stripped off his coat and shoulder straps, played first base, coached his men and pounded the curves of the Des Moines pitcher in a very satisfactory man-ner. He showed himself a very

turned over to the "industrials."

The offer of the Great Western railroad to carry the men to Van Wert for \$2 each was withdrawn to-day and this has further incensed the labor organizations. They claim that the reusal is another evidence that the railroads have combined against Kelly and are forcing minor lines to follow their example.
