As was predicted at the time, but little serious injury has resulted to the corn crop, and it has been necessary to replant only a very small acreage. The fruit crop was badly damaged, but not to so great an extent as was first reported. The entire state needs rain, and badly in all sections except the northern portion, where they have been favored with a few light showers. Corn is generally up to a good stand, and the fields cut down by the frosts are

dowly recovering. THE officials of Adams county have made a raid on the mortgage records, wiping off the books all the paid but uncancelled mortgages. This, the Fremont Tribune says, is something that ought to be done in every county in the state. Mortgage indebtedness statistics compiled under present conditions are decidedly misleading and they work great injury, particularly to the west, which needs the largest possible volume of eastern money for its development, and which is rendered the more difficult to obtain by reason of this negligence on the part of money lenders to cancel on the records obliga-tions which have been discharged.

FEARFUL DESTRUCTION.

A Loss of \$5,000,000 in Colorade by the Floods.

DENVER, Col., June 2 .- From all parts of the state come reports of ruin from floods due to the heavy rains of the past few days and conservative estimates place the total losses at \$5,000,000. At least four lives have so far been lost but many are missing and the death list may be greatly increased. In this city the Platte river continued to rise until 3 o'clock this morning and a raging torrent is pouring through the lowlands. Colfax and Jerome park were flooded at 11 o'clock last night and the prople living on the low ground had to flee for their lives. The railway embankment was washed away in places and bridges were badly damaged. The loss will not be very great but the in-convenience will be extreme. In Jerome park and vicinity 175 families were driven out of their houses and camped on higher ground. As many more families living on the river bottoms of this city also fled to higher ground. Edward Whiteman, a boy, tell into the torrent and was drowned but no other fatalities have been reported here. Forty families who sought shelter

in the shool house at Jerome park are isolated to-day, the building being surrounded by water. Over 100 persons rendered homeless by the floods have applied to the county commis-sioners for aid.

At Colorado Springs Chicago ereck

COL. MOORE'S CASE.

It Will be Difficult to Obtain a Majority Report for Him.

WASHINGTON, June 2.-Colonel H. L. Moore of Lawrence, who is contesting Funston's seat in congress, is having no end of trouble. Several of the Democrats have kicked clear out of harness and his friends on the committee fear that it will be difficult to obtain a majority report. Paynter of Kentucky, has espoused Funston's side of the controversy, and several of the other Democrats are lukewarm in Moore's support. This is especially true of Democrats who have Populists to fear in their districts and look with disfavor on the fusion deal.

Another effort will be made to get a favorable report on Colonel Moore case Tuesday. Before it can be done, however, it will be necessary to satisfy the opposition to Moore in the Democratic ranks.

ANTI-INCOME TAX PROTEST.

BUSINESS MEN OF NEW YORK HOLD A MEETING.

THE BILL VIGOROUSLY DENOUNCED

senator Hill Writes a Strong Letter Against the Measure-The Promoters of the Meeting Disappointed in the Small Attendance, Only About 1,000 People Being Present-Resolutions.

NEW YORK, June 4.—The business men's meeting in Carnegie Music hall last evening to protest against the income tax feature of the proposed tariff bill was notable for the character of the audience, number and enthusiasm of those who attended. The call was signed by nearly 500 representatives of the largest business interests of the city. The platform was crowded with gentlemen influential in the business walks of life. Preparations had been to accommodate the crowds that had been expected, speakers hav-ing been selected to address an overflow meeting should the hall prove of insufficient capacity.
It was something disappointing that

the promoters waited for the crowds to come, and the speaking, which was to begin at 8 o'clock, was delayed half an hour. At that time the auditorium contained about 1,000 people. Colonel William L. Strong, president

of the Central National bank, called he meeting to order, and nominated for chairman, President Evan Thomas of the Produce exchange, and for secretary, Edward O'Dwyer, of the Democratic club.

Senator Hill wrote: "I regret that official engagements will prevent acceptance of your courteous invitation o be present at the meeting of the business men on Friday to protest against the incorporation of an in-come tax in the pending tariff bill.

"I need hardly assure you that I am heartly in sympathy with the pur-pose of your meeting. An income tax feature has no proper, legitimate place in a tariff reform bill. It engenders and embarrasses an honest, equitable revision of our tariff laws, hich was expected, if not desired, by the citizens of all parties.
"The unfortunate effort to incor-

porate it in the pending measure delayed a speedy disposition of the tariff subject, and induced a surrender of nearly every correct and consistent principle upon which a tariff reform

should be based. "It is clear that it would not be adopted by congress if senators would vote according to their own conscientions convictions rather that in pursuance of a dicker, and a contemptible compromise founded upon no princi-ple, and tolerated only as a miserable makeshift or excused only as a

temporary expedient. "I am opposed to compromise where questions of essential principles are

involved. "It is immaterial whether this scheme is popular or unpopular; or whether it taxes the many for the benefit of the few, or the few for the benefit of the many, it is equally indefensible, vicious and unreasonable.

"As a representative, a citizen and

a partisian I have opposed this income tax fully from the start. I am opposing it now and shall continue my opposition to the end. I remain your fellow citizen,
Speeches were also made by President Waldo Smith, of the Wholesale Grocers' association; Professor T. Lewis, in behalf of the insurance com-panies; Lewis Windmuller, of the Reform club: Frederick Taylor, on behalf of the bankers and brokers of Wall street; Lawyer Stern, John P. Townsend, of the Bowery Savings bank; Chairman Evan Thomas and others, all in a vein of earnest opposition to the income tax. In addition to the resolution drawn up several days ago memorializing congress against the income tax of the pend-ing tariff bill, the following was

adopted: "Resolved, That we call upon all the business associations and organiza-tions of the several cities of the union to organize without delay, by mass meetings similar to our own, voice the protest of the commercial interests affected so injuriously by

the proposed income tax law."

Secretary O'Dwyer said he had letters and telegrams from business men and corporations all over the

CARRYING OUT BLAINE'S IDEAS

Ex-Speaker Reed's Silver-Tariff Policy That of the Maine Statesman

WASHINGTON, June 4 .- The utterances of ex-Speaker Reed, Senator Lodge, Representatives Burrows and Cannon and other Republican leaders in favor of a freer use of silver are regarded in congressional circles as a revival of the plans and aspirations of James G. Blaine to unite the nations of the Western hemisphere by means of inter-continental railroads, reciprocal treaties and a common medium of exchange.

Representative Hitt of Illinois, who was closely associated with Mr. Blaine, says that the proposition of Mr. Reed is on the lines of Mr. Blaine's policy. The latter was never fully spread before the public as it had a scope that could be developed only by patience and by slow stages, and Mr. Blaine's health during his latter days was not such as to permit him to accomplish the ends he had in view. "Mr. Reed now presents the proposition with directness," said he, "whereas Mr. Blaine proposed passive steps which tended toward the same general results. It was Mr. Blaine's belief that the nations of the Western hemisphere should be re-ciprocally united in their commercial dealings, in their money, in their railroads and in all lines of action which would make them strong against the rest of the world. Most of the Southern republics were ready tor mutual action on silver, as they are silverusing countries, but they were not ready for discriminating tariffs which would cut them off from the import duties on which they largely depend. The reciprocity treaties were a step in the direction of that mutual co-operation. Mr. Blaine's speech before the Pan-American conference disclosed that his policy embraced united action on silver, on the tariff, and on all subjects in which Western nations

had a common purpose."

A great deal of significance is given to the Reed interview by many public men here. For several months there has been a growing sentiment among the Republican members in favor of a liberal policy towards silver. Among Mr. Reed's most intimate and constant associates in the house of late have been Representative Newland of Ne-vada and Sweet of Idaho, who are radical supporters of silver. The ex-speaker has made a study of the silver question from the standpoint of the miner and Western member until he is said to have a mastery of the intricacies of the question quite equal to that of Mr. Bland.

HILL AFTER OPEN INQUIRY. The New Yorker Pleads for a Public In-

vestigation—The Sugar Debate. WASHINGTON, June 4. - At the opening of the senate session to-day Mr. Hill's joint resolution authorizing the secretary of war to institute proceedings in condemnation to secure possession of portions of the battlefield of Gettysburg was adopted. Then he called up his resolution directing the special committee investigating the charges of bribery, senatorial speculation and the influence of the sugar trust in the framing of the sugar schedule to throw open its doors while the testimony was being taken, and argued that the terms of the resolution matthew authorized now refused any neither authorized nor refused authority for secret sessions. He held that in fairness to the witnesses and others the committee sessions should be open. Nine-tenths of all the in-vestigations in the last twenty years by senate committee had been open. Mr. Gray, chairman of the commit-

and then the matter went over until Monday, giving place to the tariff bill. Mr. Aldrich made a short and vigorous talk on the sugar schedule and spoke in favor of bounties. Mr. Caf-fery of Louisiana followed and defended the protective duty as against the bounty system. He drew a running fire from Messrs. Aldrich and Allison. He said public opinion was against bounties.
