It is recommended that no proxies be admitted to the convention and that the delegates present be authorized to cast the full vote of the delegation. M. A. DOUGHERTY, W. W. BARNEY,

Secretary. Chairman

SENATORIAL CONVENTION.

The republican electors of the Thirteenth senatorial district are requested to send delegates from their several counties to meet in convention at O'Neill, Neb., on the 1st day of September, 1894, at 2 P. M. for the purpose of placing in nomination a candidate for senator from said district, and for the transaction of such other business as may come before the convention.

The several counties are entitled to representation as follows, being based upon the vote cast for Benjamin Harrison for president in 1892:

mitted to the convention and that the absent votes of a county be cast by the delegates present CLYDE KING, Secretary.

CENTRAL COMMITTEE MEETING There will be a meeting of the republican central committee at the court-house in O'Nelli, July 7, 1894, at 2 o'clock P. M. All members are requested to be present.

JOHN MCBRIDE, Chairman.

They should no longer be called populists. Socialists they are and socialists they should be called.

WHEN anarchists are treated like smallpox patients the assassination of officials will be less frequent.

WHEN it isn't a trust it is a syndicate -merely a change of name-that controls every act of the demccrats in Congress.

method of doing things. Nor does he prove of the use of tar as a coating nilitiamen.

GETTING "Hoked" is the western veteran's expressive way of saying he has been buncoed by a Hoke Smith pension decision. By the same token the country has been Grovered.

THE war is really over in Georgia. A rebel brigadier has been forced to withdraw from the contest for the gubernatorial nomination, in order to escape being defeated by a man who wasn't even in the army.

IT Is said that Col. Baluss has flopped to the pops. We do not presume he did it for the sake of office, but merely in the hope that they will make him chief custodian of refreshments during the coming campaign.

Ir would seem that there are more people who vote in New York who should not vote than there are people of the house, is becoming more evident who neglect to exercise their right of daily. The bill defines an anarchist as voting. Hence a compulsory voting law is not what is wanted.

THE worst snub of all was Tammany's refusal to have Congressman Breckinridge talk at its fourth of July pow wow. A man whose morals are too bad for Tammany will have to look to the hereafter for congenial companionship.

THERE are lots of people who share the opinion of Congressman Hatch, of Mo., who lately said that when Harter, of Ohio, retired from the house; "there will go out more egotism and less ability than have ever before been combined in one man."

THE State of Florida should not be held responsible for the bad manners of Senator Call, whose feet, without shoes, were for several hours, the other day, the most conspicuous objects on the floor of the senate. His head never will make him conspicuous.

THE sugar trust is trying to "work" the democrats of the house through impecunious democratic editors in their districts. If you hear of a democratic editor having changed his mind about the necessity for free sugar, just put him down as having been sugar-cured by the trust.

Or course Mr. Cleveland wants free coal and free iron for his friends composing the Whitney syndicate, and it is not surprising that he should use his influence to get it while the tariff bill is in conference. Perhaps he and Dan Lamont may have some personal interest in the Whitney syndicate.

"THEY say the Illinois democratic state convention declared that Cleveland ought to be indorsed if he has done anything to support the declarations of the democratic national platform of 1892; but that the convention showed scrupulous care in refusing to specify whether President Cleveland had done any acts which should be commended.

FARRAGUT post G. A. R. at Lincoln recently resolved as follows:

Resolved, That we recommend the confiscation of the Carnegie plant as a military necessity, and the trial for treason of every person connected with this cowardly assault upon the very citidal of our national life and liberty; that we recommend that in all future trials of armor plate from this plant Carnegie and his man Frick be placed immediately behind the target till the test is

completed. Resolved, That we call upon the press os the country to demand in the name of all the people such tests of material which enters into the construction of our national defenses as shall make it practically impossible for such treachery and scandal to occur; that, if there be constitutional law to bring such miscreants to the dungeon cell and gallows tree, representatives of the press urge national legislation to the end that justice be done and the honor and glory of our flag be maintained.

THE meeting of the republican league held at Denver last week adopted the following as a part of the platform: 'We declare our belief in the doctrine of protection to American labor, American industries and American homes. We also believe in such reciprocal trade R. with nations as will increase the market for the product of our farms, factories, forests and mines, without increasing Reference First National Bank that competition which tends to lessen wages and degrade our labor. We denounce the proposed vicious and destructive legislation known as the Wilson bill, and earnestly appeal to republican United States senators to oppose its passage by all honorable means. We believe in the use of gold and silver as money metals, maintained at perfect parity and interconvertibility. We do not believe that there will be a perfect return of prosperity to our country until the full use and highest position of silver shall be restored and we favor such legislation as will bring about this

THE county divisionists, or rather a few agitators of the movement, held a mass meeting at Atkinson on 23d ult . and there decided to nominate representatives, calling a convention to meet at Atkinson on July 17. The convention will be strictly non-partisian and the nominees will make the campaign upon a platform drelaring simply, "repeal of the three-fifths law." The Frontier is not surprised by this move, but it is astonished to learn that some otherwise THE adjutant general of Colorado is not a believer in the fuss and feathers method of doing things. Nor does he of the state and Holt county than this three-fifths law and they will crop out when the next legislature convenes. But that is not a matter of serious import to the leaders in the movement. Disappointed office seekers imagine that in the division craze they see an opportunity to ride into legislative halls on a horse of chance, urged on by the spur of the moment. It will not work. When the republicans of Holt county assemble in convention there is nothing left for them to do but adopt a resolution favoring the repeal of the three-fifths law. There is no other way out of it and it is the proper way to squelch these disorganizers. A republican at heart would have asked this relief of his own party before organizing a sideshow.

THE penal clause of Representative Stone's bill, defining the term anarchist, and providing punishment for crimes committed or attempted by anarchists, may be somewhat too severe, but the need of a bill like that which he has presented to congress, and which has been referred to the judiciary committee one who belongs to, or is appointed or employed by, any society or organiza-tion existing in this or any foreign country which provides in writing, or by verbal agreement or instruction, for the unlawful destruction of property where the loss of life is a probable result of such destruction. This definition, as it seems to us, covers members of mobs it seems to us. covers members of mobs composed of "White Caps," "Vigilants," "White Leaguers," and the like, and properly relegates them to the anarchistic class. It, of course, covers the Herr Mosts and the vile brood of murderers who make social or political conditions a pretext for crime. It would have covered the men who decreed, planned, and paid for the murder of Dr. Cronin. The penal clause of the bill enacts that any person coming under the aforesaid definition of an anarchist "who shall attempt the life of any person holding office, elective or appointive, under the laws and constitution of the United States, or who shall attempt the destruction of buildings or other property where the loss of the life of any United Stutes official would be a probable result of such destruction, shali, upon trial and conviction in any Circuit or District Court, ** * * be sentenced to death by hanging." Hanging would seem to be too extreme a penalty for a mere "attempt." It is probable that if the judiciary committee report the bill favorably it will be with an amendment providing imprisonment for "attempt." But hanging is none too severe for any one who causes the death of a United States official by anarchistic violence.—
