THE latest Nebraska crop bulletin says: The week has been exceedingly dry and all crops have suffered severe ly. The temperature has been about normal in the western part of the state and below the normal in the southeastern part of the state. There has been an excess of sunshine, which has intensified the effects of the drouth. Corn is everywhere suffering from drouth, but owing to the scattered distribution of showers during the past two weeks it is injured in some le ties more than in others. Some fields are probably ruined, even in the southeastern section of the state, while in the southwestern section of the state is even more serious, as many fielks are now past help.

BAD FOR CORN IN KANSAS It Has Been Damaged Greatly by the Hot, Dry Weather.

TOPERA, Kan., July 26.-Railroad Commissioner John Hall, who has just come in from the West, says that unless rain falls within twenty-four hours there will be no corn in that section. In the central and western parts of the state the most favorable weather would not make a crop, Further east rains would save it. Mr. Hall says the hot blast has affected all kinds of vegetation as far east as Wamego in Pottawatomie county. Equally discouraging reports continue to came from the northwest as far east as Republic county, and on the southern border of the state it is said the corn has been burnt out from the western border of Cowley county to the Colorado line, including the south half of the counties lying immediately

PITTSBURG, Kan., July 28.—The hot winds and drouth are injuring all kinds of crops in this vicinity and the fine corn prospects are gradually dwindling down. St. Joseph, Mo., July 28 .- The temperature is 100 above to-day and the hot winds continue. So great has been the damage to crops and so widespread has been the extent of the hot wind storm that many traveling men of this city will not go out on their runs until rain has fallen throughout

IMPORTANT TO ARCHITECTS.

Government Buildings to Be Designed and Superintended Through Bids.

WASHINGTON, July 28 .- The plan advocated by the American Institute of Architects, to secure plans for public buildings by competition, was indorsed yesterday by the house committee on public buildings, which decided by a unanimous vote to report the bill. A committee of three archi-tects of high standing appointed by the president and two members of the engineer corps of the army to dis-charge, under the general direction of the secretary of the treasury, all ad-ministrative duties relating to procuring designs and appointing architects is provided by the bill.

For buildings costing \$100,000 the commission is to vote for five architects to prepare designs for competi-tion, and for buildings of less cost, one architect is to be empowered to prepare the plans. Of course the commission selects the design.

Unsuccessful competitors are to be paid for their work, and the architects, when such plans are adopted, will supervise the work of building, receiving for remuneration five per cent of the cost of the work.

SAVED HER LIFE.

Mrs. Truxton Beale Rescued From Drowning by Senator Jones's Son.

Los Angelos, Cal., July 28 .- Mrs. Truxton Beale, daughter of the late James G. Blaine, had a narrow escape from death at Santa Monica beach on Wednesday.

"Mrs. Beale, her husband and a ty of friends have been at Santa Monica during the past two weeks and have spent much time at the North beach bath house, where they indulged in bathing in the big plunge. Not one of the party can swim. Mrs. Beale being bolder than any of the others took it upon herself to teach them. Yesterday three or four were in the water when Mrs. Beale ventured beyond her depth and went under.

PUSH AN AGREEMENT.

THE PRESIDENT SOLICITOUS FOR THE TARIFF BILL.

HOLDS CONFERENCES WITH LEADERS

Mr. Cleveland Sends for Representative McMillin Immediately After the Senate Voted to Send the Tariff Bill Back to Conference-Speaker Crisp Also Visits the President-Washington News.

Washington, July 30 .- A messenger from the executive mansion reached the house of representatives half an hour after the senate had voted to send the tariff bill back to conference, with a note for Representative McMillin, the ranking house conferree in the absence of Mr. Wilson, asking him to call at the White house. This following the conference between the president and Speaker Crisp earlier in the day, was taken to indicate the solicitude the president felt on the outcome of the second conference. Mr. McMillin declined to talk of his call on the president.

Messrs. McMillin and Turner are

the only house conferees in town, but Speaker Crisp has word that Mr. Montgomery and Chairman Wilson would be here to-day. The Democratic conferees will hold an informal meeting to-day, and Senator Jones said the full conference, including Republican members, would probably be called together on Monday. The general impression about the senate is that the conference now agreed on will not be as prolonged as the former one, as senators are of the opinion the committee either will agree on a report within two or three days after the sittings begin or within that time to report another disagreement. The preponderance of opinion is, however, that there will not be another disagreement. In fact, the Democratic conferrees assert another disagreement means the defeat of the

The indications all point to the probability that the sugar schedule again will be the principal point of conten-tion, and that but for the differences on this point an agreement would be reached after a very brief sitting. The Democratic members of the conference went through the bill very carefully during their former sitting and agreed on a vast amount of the items in it, so that they will not need to consider these points again very fully. It is probable, however, that the Republican members of the committee will ask for an explanation of the many charges, and this action, of course, would have the effect of de-laying the conference report.

Trouble Over Indian Lands.

WASHINGTON, July 30 .- The long pending proposition to open to settlement the Fort Sill country, the garden spot of the Indian territory, goes to the courts. The house committee on Indian affairs has reported a bill to that effect. The committee expresses the opinion that the question the claim of the Choctaws and Chickasaws to an equity in this great region, as well as the lands occupied the Wichitas, must be determined before the opening.

FOREST FIRES RACING.

Towns Burning Up and Lumber Mills Destroyed in Wisconsin. ASHLAND, Wis., July 30 .- Forest

fires are producing great suffering and loss throughout this vicinity, and

railroad companies have never before experienced such damage from fires. On the Wisconsin Central railroad it is impossible to move trains. Phillips, the headquarters of the John Davis Lumber company, manufacturing town of 2,500, is destroyed by fire and only a few buildings remain standing. dispatch just received from Fifield, a small station a few miles this side of Phillips, says that 500 women and children from Phillips are in the woods there without shelter. They sent a request for food and supplies as the supply at Fifield is very short. The train that started from here last evening was obliged to return as the bridges are totally destroyed a few

miles south. Communication with

Fifield is now shut off and it is feared

that town is also on fire. Along the Omaha line the fires are raging with terrible fierceness. raging Shore's Crossing, a little village eight miles west of Ashland, was destroyed yesterday afternoon, not a building remaining standing and the homeles families were brought to Ashland. The railroad bridges near there were destroyed, and at 4 o'clock yesterday afternoon a fast Omaha freight and sixteen loaded cars were entirely burned. Both the engineer and firemen were injured, and the brakemen are missing. Loss to cars and freight many thousand dollars. Mason, a small town south of the Omaha line, caught fire yesterday afternoon. The White River Lumber company's mill, with 40,000,000 feet of lumber in the yards, was destroyed, and at 6 o'clock, the latest report received here, says the entire town was threatened.

The Omaha bridge across the White river at Mason is burned. Railroad officials say the loss at Mason is fully \$1,000,000. with \$250,000 insurance.

Homesteaders in the outlying districts are all fleeing into the nearest towns, leaving their homes to the fury of the flames. So far no loss of life is reported. The fire department is carefully guarding the outside limits of Ashland and the city is not in any immediate danger. For two hours yesterday afternoon

150 men, women and children were confined on five acres of ground, sur-rounded by one seething mass of flames, and one must see a forest fire to realize how much danger there is with stifling couds of smoke, and all communication or means escape cut off. It was a case of pump or take to the mill pond.

BUSINESS REVIEW.

A Temporary Improvement Noted Lowest Price for Wheat. NEW YORK, July 30 .- R. G. Dun &

Co.'s Weekly Review of Trade, which issues to-day, says; "The heavy outgo of gold, the fall of the treasury reserve and of the price of wheat to the lowest point on record and the increasing uncertainty about the tariff have entirely overshadowed other industries. Business delayed for months by two great strikes now crowds the railroads and swells returns, and gives the impression of a revival in business. But it is not yet clear how far there is an increase in new traffic, distinguished from that which has been merely blockaded or deferred. In some branches there has been more activity, but in others less, because events early this week led many to infer that no change of tariff would be made. The internal revenue re-ceipts on whisky suddenly dropped more than half, and sales of wool greatly increased. But the unceris not removed, and much of the business seems to be in the nature

of insurance against possibilities.
Wheat has found its way to the lowest depths, and has sold below fifty-five cents, making the monthly average at New York the lowest ever known. Corn was stronger, with accounts of injury to part of the crop, and the exports are trifling.

For the week failures have been 249

DEBS' CASE CONTINUED.

Judge Grosscap Refuses to Sit-District Attorney to Go Out of Office Se

CHICAGO, July 26. - In the Debs contempt case to-day Judge Woods de-livered a brief opinion formally overruling the motion of the defense to quash the informa-tions against the American Railway union officers. Judge Grosscup then announced that he had taken no part in the decision on the motion to quash and he announced further that he would take no part in the contempt proceedings for the reason that the defendants are under indictment in the United States disrict court over which he presides, and the same questions of law will be raised under the indictments, in fairness to the defendants, Judge Crosscup said, he would not sit any longer in the investigation of the charge of contempt. After making this announcement he left the bench.

District Attorney Milebrist

District Attorney Milchrist an-nounced that Special Counsel Edwin Walker was ill and could not attend the hearing. He said that he, Milchrist, will go out of office on August 2, and Mr. Walker will be left the sole counsel in the case, and suggested that the hearing be postponed until Mr. Walker is able to take charge of it. After considering the district at-

torney's suggestion, the court announced that the case would be continued until September 5. Debs and his associates went into consultation regarding the giving of bail and the court adjourned.

By order of the court the bail of the

four prisoners was reduced to \$7,000 cach to-day. The bonds first required were \$10,000 each.

LAND LAW AMENDMENTS.

Hall of Minnesota Introduces a Bill of Interest to Public Land Settlers.

WASHINGTON, July 26.-Representative Hall of Minnesota to-day reported to the house a bill amending the existing law regarding public lands Provision is made whereby settlers in townships, not mineral or reserved by the government or persons and associations lawfully possessed of coal lands, or owners of grantees of pub-lic lands, shall have the right to have such lands surveyed under certain conditions..

This feature of the bill has in view the enlargement of the facilities contained in the coal land laws, by permitting such lands to be surveyed as can now be done in the case of agricultural lands required for actual settlement.

The discoverer of a valuable deposit of coal upon the unsurveyed public domain may now take possession of and hold his mine, yet there is no provision of law under which a patent can issue therefor until the public surveys have been so extended as to embrace it.

Another feature of the bill provides that when settlers or owners or grantees of public lands make deposits in payment of the cost of surveys certificates shall be issued therefor and these may be used in part payment for the lands settled upon.

PULLMAN'S HOUSE ATTACKED.

An Anarchist Throws Stones Through Plate Glass Windows and Is Arrested CHICAGO, July 26.-Simon Reskins, a Russian, made an assault upon the residence of George M. Pullman to day. He hurled many stones at the

building, breaking out ten or a dozen large plate glass windows, and was arrested. In the pockets of his overcoat were found several more good sized stones, but no other weapons, and in his coat were found preliminary naturaliza-

When questioned he delivered him-self of enrses against the United States government and George M. Pullman. He said Pullman had Pullman. He said Pullman had thrown him out of work, and that this was not the last Pullman would see of him. Later he admitted that he was a tailor by trade and had not been working at anything for a year. George M. Pullman and his entire family are in the East; no one butthe servants occupying the house.

The Allen Paper Car Wheel Works Start Up-Pullman's Men Hold Out-

CHICAGO, July 26 .- The Allen paper car wheel works at Pullman started up to-day with about a dozen new men. The officials of the company say they have no connection with the say they have no connection with the Pullman company beyond renting power from it; that they have notified their employes to return to work, guaranteeing them protection, and that unless they return the company proposes to go ahead and operate the works with new men. There is no evidence of weakening among the Pullman strikers.
