Admis- been filled with workman from all over sion 25 cents.

The remains of Mrs. Mary McGuey were brought up from California Junction last Friday and buried in the cemetery in the evening, the funeral occuring from the Catholic church. Mrs. Mc-Guey's home was in Charlatte, Io , but at the time of her death she was visiting friends at the Junction. It was at her request that she was buried in O'Neill. She had a son buried here some years ago and it was her desire that they be remain yours in distress, the starving near one another in the last long sleep.

The little daughter of Mr. and Mrs. Wm. Bethea died last Monday noon of cholera infantum. The child was one year and six months old. She was in perfect health Sunday but was taken sick Sunday night and died as above stated on Monday. Mr. Bethea was on his way to Broken Bow to attend the independent state convention and was telegraphed. He received the telegram at Burwell and started for home immediately, arriving here at 6 o'clock Tuesday morning. The funeral took place Tuesday afternoon at 2 o'clock,

The teachers institute now in session in this city is one of the largest ever held in the county. This is the third session of our city this week and the day and there are 151 now enrolled and young men can be seen on Prof. Jackson informs us that there will the streets every evening, wearing the be at least thirty more teachers come in during the week. The instructors are: Pres. H. K. Warren, of Gates college, Neligh, Prof. A. R. Wightman, of Ewing, Prof. J. A. Pease, of Stuart, and Superintendent Jackson, of this city. This promises to be one of the most succeseful institutes ever held in the county and the superintendent is to be congratulated upon having secured such an able corps of instructors. We will give a our next issue.

> An exchange tells its readers how to mind their own p's in the following paragraph: "Persons who patronize papers should pay promptly, for pecuniary prospects of the press have a peculiar power in pushing forward public prosperity. If the printer is paid promptly and his pocket-book kept plethoric by prompt paying patrons, he puts his pen to his paper in peace, his paragraphs are more pointed, he paints pictures of passing events in more pleasing colors and the perusal of his paper is a pleasure to the reader. Paste this piece of proverbial philosophy in some place where

> Somebody who wants to explain what the editorial "we" signifies, says that it has a variety of meanings, and varies to suit the circumstances. For example: wife home today," "we" refers to the whole office force even to the devil and the towel; in "we are having a great boom," the town is meant: "we received over 700,000 immigrants last year," that embraces the nation; but "we have the hog cholera in our midst," only means the man who takes the paper and never pays for it, is very ill.

August 9, at 9 P. M. Rev. Bert A. Rayson and Miss Ella M. Perkins. Rev. Dr. heautiful and accomplished daughter of Mr. and Mrs. J. W. Perkins and is nominated. well and favorably known in church and social circles. Rev. Rayson is a senior of McCormack theologocal semmary, Chicago, and is a gentleman of marked ability. He supplied the pulpits of the Presbyterian church at Blunt. Onida and Canning last year and this, where he made a host of friends. A substantial repast was served by the genial host and hostess to the friends assembled to which all done ample recently to enjoy a short vacation with justice. The happy pair will leave for friends. Instrumental music, singing, Chicago in a few weeks to remain until the groom completes his course of study guests retired to their homes, all feeling wishes of a host of friends will follow

> Judging from a telegram received by Governor Altgeld, of Illinois, Pullman Company have the tables turned on them and are now in a far worse condition than they were before the strike We do not doubt but that the strikers had grievances and that they had a right to make them known, but there can be no good come to themselves or anyone else from the violent means employed to redress their wrongs. The telegram reads: "To his Excellency, the Governor of Illinois: We, the people of Pullman, who, by the greed of oppression of George Pullman, have been brought means of leaving this vicinity, and our families are starving. Our places have the United States, brought here by the Pullman Company, and the surplus were turned away to walk the streets and starve. Also there are over 1,600 families here in destitution and want, and their condition is pitiful. We have exhausted all the means at our command to feed them, and now make this appeal to you as a last resource. Trusting that God will influence you and that you will

The Nehema Statesman Gets There On the First Ballot

ENTHUSIASTIC CONVENTION.

Joe Bartley, of Holt, and Eugene Moore, of Madison renominated.

Last night's Sioux City Tribune contains the following report of the convention at Cmaha: "It looked like old times when the Nebraska republican state convention got together in Exposition hall this morning. Ex-Governor Thayer, ex-Governor Saunders and a score of other old wheel horses of the party were present on the platform. The room was crowded to suffocation and shirt sleeves was the style of costume. Banners and bunting were draped about the walls, but these did not attract the attention that a series of caricatures of Congressman Bryan did. 'He was presented in all sorts of ridiculous ways. Several country bands were present and all tried to play. A glee club sang a song coupmore extended account of the session in ling President Cleveland's name in a scandalous way with that of "Queen Lily, Lily, of the Cannibal Isles." The MacColl and Majors factions were strongly represented in the audience as as well as the delegations and there was evidence that a hot battle was in pros-

"After a prayer by the Rev. Dr. Brooker, of Kearney, Brad Slaughter, the chairman of the state central committee, introduced C. E. Adams, of Superior, who had been selected as temporary chairman. Mr. Adams made a short speech in which he attributed everything the country was afflicted with, except the drought, to the democractic party. He made a scathing reference to the tariff bill and the action of the democrats in congress. H. M. Waring, C. H. Brainard and C. E. White were made secretaries. After another song, the temporary organization was made permanent and a committee on resolutions appointed.

"After a good deal of wrangling an informal vote was taken. It resulted as follows: Majors, 4801; MacColl, 4311; Crounse, 40; Cady, 6. The Douglas county delegation (Omaha) gave 108 votes for MacColl, the entire vote. There was a scene of great enthusiasm

in Canning, S. D., on Thursday evening, tion was made to adjourn and another latter was put and declared carried. A Blackburn officiating. The bride is the fierce fight ensued, but the ballot went

"Editor Rosewater resigned as national committeemsn because of Major's nom- propriating the waters to the use

The following telegram was received from the junior editor this afternoon: "Governor, Thomas J. Majors, of Nemaha; lieutenant governor, R. E. Moore, of Lancaster; secretary of state, J. A. Piper, of Howard; auditor of public accounts, Eugene Moore, of Madison; treasurer, J. S. Bartley, of Holt; commissioner of public lands and buildings, H. C. Russell, of Colfax; attorney general, A. S. Churchill, of Douglas: superintendent of public instruction, H. R. Corbett, of York."

Bountiful Crops In Indiana.

Franklin (Ind.) Democrat: This year will be memorable for its great harvests. The yeild of wheat in Indiana will probably exceed that of any former year. Just at this time it is especially inviting for one to drive into the country and visit some of the threshers at work.

We had the pleasure, one day this week, of, witnessing five machines in operation. The first was John Baker's outfit on the farm of Cornelius Ditmars, whose crop of fifty-five acres averaged 37 bushels per acre, this being no exceptional yield in the county this year. Improvements in farm machinery have been varied and rapid but none more forcibly impresses one than the scene here witnessed. There were no men on the straw stack and yet there had arisen civilians for their gentlemanly bea high, well rounded stack of straw, more pefect in outline than could be made by hand. Ten teams were kept busy bringing the wheat to the machine and the Farmers' Friend stacker was stacking the straw. We were told by Mr. Baker that the stacker was doing its work perfectly and enabled him not boys also received many compliments by the old method, but gave better such a young company. The boys satisfaction to farmers. This statement stayed in Norfolk Monday night and was corroborated by every one with whom we conversed.

across George Banta's outfit. This is Norfolk will long be remembered by the his fourth season and with each recur- Bartley Guards.

ring year he finds the stacker more popular. Here it has been fully tested and Inman last Friday and assisted in the the points of superiority demonstrated initiation ceremonies by which eight may be briefly summarized as follows: More work can be accomplished in one rolling fraternity: O. F. Biglin, Nell day; fewer sittings of the machine are required; straw is stacked more evenly than by hand and turns water better; fewer hands are required and the labor diminished not only for the farmer but his wife as well; chaff and dust are entirely removed by the blower; the expense of threshing has been greatly diminished.

One man has been offered 2 cents per bushel less for threshing by the old nethod but refused, saying he preferred Farmers' Friend even at 2 cents a bushel more for threshing.

The stacker, we are glad to know, is the product of a Hoosier brain, the patentee being James Buchanan, of Indianapolis, where it is manufactured by the Indiana Manufacturing company. All the leading separator manufacturers now use it. The stacker is aptly named 'The Farmers' Friend." It is without question a wonderful invention and we speak of it because of its practical value and worth.

May Be a Party Issue.

A Washington correspondent to the World-Herald has the following to offer upon the subject of irrigation:

One of the most important measures passed by this congress has attracted comparatively slight attention, although it is one of the most far reaching in principle that has been enacted by congress since the construction of the Union Pacific. That is the measure providing for the allotment of arid lands to the states in which they are located and which will improve them. This is regarded as the first terms of the states. garded as the first step toward the practical solution of the irrigation quesion. The results of irrigation in the desert regions have been so phenomenal that the matter is regarded by ex-perienced men as certain to attain to the importance of a party policy which will have a strong effect in the west. It is estimated that it costs about \$10 per acre to introduce a successful system of irrigation. The average cost has been known to run as high as \$20. The measure allots 1,000,000 acres to each state which implies an expenditure of from \$10,000,000 to \$20,000,000 in each state having arid lands.

A member of congress discussing the matter yesterday said that if there was a fair revival of confidence to induce investors to look into irrigation as a source of investment, this action of congress would do more to return prosperity to desert land states than anything that could happen. It would not only lead to the first heavy disbursements, but on the part of Majors friends when the vote was announced.

"No sooner had the result of the vote been announced than the MacColl men of substancial benefits to the whole countries." would leave the states in the possession

MR. EDITORS: We have a water right worth millions of dollars to Holt and on and Thomas J. Majors was declared adjoining counties. We have a legal claim to it which we can hold, but which can be held only by actually apclaimed, viz, irrigation. We must put in bons fide work right along and prosecute the digging of the canal and the storage of the water, and the distribution of the same, or we will lose our right and others can take it, and it will be lost to us forever. Holt county must not fool with this fortune. A glance at the msp will show that the natural course of those waters could easily be diverted towards the south and we would be left to eternal aridity. I believe this water right is more valuable than a gold mine or a coal find, for it is lasting as time and gold and coal mines are liable to become unproductive. Besides gold mines, and indeed all kinds of mines, bring in a very undesirable kind of people, while irrigated lands will bring in farmers and well-to-do people which will build up churches. schools and society, and make this a paradise to live in. 500,000 acres divided into 40 acre farms would give us over 12,000 families, about 60,000 along the line of the canal. If we fail our towns will decline, our population decrease and our county go back to desert land, the abode of cowboys and coyotes.

Camp at Lincoln Tuesday evening. While there the boys received many compliments from both officers and haivor. Captain Marlow, although he was the youngest comander in the regiment, was eagerly sought after by desired to secure information about military matters, and they always secured the desired information. The were given dinner Tuesday by the citizens of that place. The members of Passing on one mile further we came the Moore Rifles and the citizens of

The Bartley guards returned from

The following named citizens visited good men became members of the log Brnenan, A. H. Corbet, R. J. Hayes, T. V. Golden, J. F. Pfunder, C. W. Hegensic, Henry Zimmerman, Bennet Martin, Fred Alm. Thomas Tierney. A. J. Meals, J. P. Gilligan, Peter Donohoe, Ed Mc-Bride, John Mullen. Diamond Willow Lodge, No. 2150, Modern Woodmen of America, will long te remembered by the visiting neighbors for many acts of kindness shown them and hope to return the same at some future period.

Last June Dick Crawford brought his twelve-months-old child suffering from infantile diarrhoes, to me. It had been weaned at four months old and had always been sickly. I gave it the usual in such cases but without benefit. The child kept growing thinner untill it weighed but little more than it did when born, or perhaps ten pounds. I then started the father to giving Chamberlain's Colic Cholers and Diarrhoes Remedy. Before one bottle of the 25 cent size had been used a marked improvement was seen and its continued use cured the child. Its weakness 'and puny constitution disappeared and its father and myself believe the child's life was saved by this Remedy. J. T. Marlow, M. D., Tamaros, Ill. For sale by P. C. Corrigan Druggist.

Will Pay Cash, Poultry, game, furs. skins, wool, butter, eggs. HIRAM P. BALLARD & Co. 89 E 88th St., Chicago.

Irrigation.

President Warren and others will address an irrigation meeting in the courthouse next Wednesday evening, August T. V. GOLDEN, Secretary.

Letter List.

Following is the list of letters remaining in the postoffice at O'Neill, Neb., unclaimed, for the week ending August 22, 1894: R G Adams Peter John In calling for the above please say "adver-

tised." If not called for in two weeks they will be sent to the dead letter office. J. H. Riggs P. M.

For The Campaign.

The campaign this fall will be of the greatest interest to all the citizens of Nebraska. The Omaha Weekly Bee will handle all the issues of importance during the campaign in its usual able manner and proposes to make a price of 20 cents for the balance of this year to all Nebraska subscribers who may desire to keep thoroughly posted on the important issues that will be discussed. Send us 20 cents in silver or stamps

for the 12-page Weekly Bee up to J uary 1, 1895. Address, The Omaha Bee,

There's Always a Reason

It is an easy thing to account for the wonderful growth of the Daily State Journal recently. Its price has been reduced to 50 cents per month without Sunday or 65 cents with Sunday. The Journal has always been reliable and honest, printing the news without fear or favor. The people of Nebraska realize that they need a paper published at the capital, and when the price of the Journal was reduced the subscription list grew at a phenomenal rate. The Journal is a Nebraska paper through and through.

Notice.

All personal taxes due Holt county for years prior to 1893, will be collected by distress after twenty days from this notice in compliance with an order from the county board as tollows:

"I move you that the county treasurer be and hereby is instructed to place warrants in the hands of the county sheriff for the collection of all personal delinquent taxes up to 1893, after giving twenty days notice through the papers.' Moved by J. H. Wilson, seconded by

D. G. Roll. J. P. Mullen, County treasurer.

Will Winter Horses.

The undersigned will take in 200 head of horses to winter at \$10 per head, and will take good care of them. Will winter them without grain and they will run with my own horses and fare the same as they. We have fortyfive head of our own and a bigger part of them are thoroughbred. Your horses will fare the same as our and run commanders of other companies who in the same herd. We will winter them eight months and a half for \$10 per head, \$2.50 payable when we receive the horses, beginning Sept. 1, and ending May 15, 1895. Stock received on our only to do more work in one day than on the profeciency they displayed for ranch 12 miles southwest of Stuart, and will be delivered at the same place.

We will not be responsible for death or accidents, but will use the best of our knowledge to prevent the same.

Please get your stock on above men-tioned ranch by September 1. All stock must be marked F. L. ADAMS & SON.
