The populists have nominated Mose Campbell for city supervisor and O. E. Davidson for city assessor. We are informed that Mr. Davidson says he is no pop and when he wants anything from them he will ask for it. Mr. Bacon, of Springfield, O, who was transacting business in this city last week, left Saturday for his home. He spent Friday afternoon in company with a party of O'Neill sports hunting the festive prairie chicken and jack snipe. Although Mr. Bacon is along in the sixties he can walk farther and faster than most of our young blood to try "what the covert, what the open yeild." He has a cold storage trunk, of his own invention, that he carries with him on his periodical visits to the lands is largely interested in Holt county school lands.

O'NEILL GROCERY CO. Review of Reviews, October: The irrigation movement is accumulating a tremendous impetus, which is visible not alone in the west, but throught the country. The work of organization and agitation, though national, inter-state, state and county associations, will go forward with renewed energy from now until the next great international concongress assembles at Albuquerque, N. M., in the autumn of 1895. That this movement is the hope of prosperity for millions and that it will safeguard our institutions with a new bulwark of liberty, in the form of small landed proprietors, is the confident expectation of western men. Their appeal is to patriotism and the best spirit of humanity. They seek to build to the credit of their country, to the good of their race, to the glory of God.

They have hied themselves off to the Lord only knows where. The return of the hubby was indeed sad, the kiss of a joyful wife did not great him, and the prattle of the' baby was not heard. The "soddy" was as bare as was that of the famous mother Hubbard cupboard. With vengeful wrath and fire flashing from his eyes, he has started in pursuit. Gore, deep bloody gore will only satisfy him." So says the Spencer Advocate. The gentleman referred to was in O'Neill Monday looking for the runaway couple, and the swears that he swore bode no good to the truants should they be treed.

The dictator, Debs, has been driven from his palace and he and his ministers are now hiding in the mountains. The greatest trouble has been experienced in the capital of Chicago, where Grover Cleveland, the ring leader of the rebels, has obtained complete control. The track at that place was torn up and thrown into the Mississippi river, a stream considerably longer than the Severn, and the stock yards, where the government palaces are situated, have been burned to the ground. The trouble was started by a man named Pulman, who has a strong hold in the mountains of Illinois, one of the most considerable provinces of the country. The man Pulman makes cattle cars."

The Rev. T. DeWitt Talamge thus sums up the newspaper man as he sees him, and his remarks are not wide off tho mark: "One of the great trials of great enjoyment. Those taking part in the newspaper profession is that its members are compelled to see more of the shams of the world than any other profession. Through every newspaper office passes day after day all the bickerings, all vanities that want to be repaid, all the mistakes that want to be thought eloquent, all the meaness that wants to get its wares noticed gratis in its editorial columns in order to save the tax of its advertising colums, all the cracked brain philosophers with stories as long as their hair and gloomy as their finger nails in mourning because bereft of soap. Through the editorial and reportorial rooms all the follies and shams of the world are seen day after day, and the temptation is to believe neither God nor man. It is no surprise to me that in this profession there are journalists believe anything."

Somewhat Skeptical.

It would seem from the following correspondence between the editor of the Sun and Barrett Scott that McHugh had some misgivings as to the genuineness skeptical men. I only wonder that of the Scott letter. In fact it would look to a man up a tree as though Mc-Hugh had hoped that the letter was written and published without Mr. Scott's knowledge or consent and that a line from him would dispel the opons why all democrats in the Sixth pressive nightmare and put THE FRON

MR. BARRETT SCOTT, Neligh, Neb.
Dear Sir: I see by the O'Neill FRONTIER of September 27, 1894, a letter over your signature in reply to an article in the Sun of the week previous. Do you claim authorship of the letter published in The FRORTIER, or did you see it before it was published?

Please answer by return mall and oblige. Yours, C. C. McHUGH. (Enclosed please find stamped envelope for reply.)

He made an impotent attempt to deny everything and in his effort convicted himself in the minds of his readers.

Bryan Becomes Editor.

By a master stroke of enterprise the Omaha World-Herald, ever in the front rank of western journalism, has made the popular young congressman, W. J. Bryan, its editor-in-chief, the change taking place September 1. Mr. Bryan's political convictions are clearly defined and well known. The paper will vigorously advocate has views.

A fluent writer of vast resources, and a candidate at this time for election to the United States senate, his paper will be read during the coming campaign with peculiar interest. People of all parties will seek the World-Herald first will handle all the issues of importance for political information. No Idea of Withdrawing.

The following letter appeared in last weeks' Ewing Democrat: Mr. Editor: The article which appeared in THE FRONTIER of September 27, stating that some of the republicans were talking of pulling Jake Roll off the ticket for county attorney and putting on Rhody Hayes, was somewhat of a surprise to me, as this was the first intimation I had heard of such a move, and I believe that in such matters I should have been consulted before the thing was publicly announced. That is, it would seem but fair treatment to a loyal republican, and to my knowledge my loyalty to the party has never been questioned. The only cause that I can give for such action is some remarks I made on being questioned why I was not out working. I told them that I didn't think the people of Holt county cared to be bothered with candidates all summer and fall, owing to the existing state of affairs. I also told them I would not spend any money in the campaign, and if my election depended on my treating men to beer, whisky and cigars, I would not be elected, but in time I would go out and criminal code, and upon that ground show the people a sample of the goods

My position is this: if a candidate cannot go before the people with clean never can redeem and be free to do jussome acts.

If these ideas are not consistent with republican doctrine and I have offended the party, come to me in a business like manner so that I will labor under no misunderstanding, then I will step down and out, and give place to the more honored members of our party.

Democracy's Record. Elliot Lord, in October Donahoe's: Is there any footing of reason for the appeal of a party with a record of colossal pretence and ignominious fizzle, to command the faith and the votes of the people in November? Will the democratic majority in the house that voted to substitute the Bland act, and the demmajority in the senate that voted for immediate free silver coinage, collect a tribute of credit for the repeal of the Sherman act? Was it a republican majority in the house that voted for the unconditional repeal of the state bank tax, or a republican congress that revived the odious income tax and made greenbacks the nation's money, subject to both state and municipal taxation? Who pressed for the coinage of the illegitimate seigniorage into dishonest dollars, and blocked the issue of bonds called for to preserve the solvency and honor of the republic? What party was it that dawdled through the worst panic that ever affected this country, reckless of the people's pain, and acheived the reputation of doing only one thing thoroughly-the torturing of the business interests of the nation amid univer-

sal execration and dismay? Charity forbids all but the briefest reference to its crowning work in the present congress. It has enacted a tariff so rotten in its groundless discrimmations and servility to the trusts, that a democratic president has denounced it as conceived in perfidy, and brought forth in dishonor. Will the democratic party hold up a measure which its own leader refused to sign, as a recommendation for a vote of confidence from the

The present campaign is of unusual interest to Nebraskans. Not only will a full set of state officers be elected, but a legislature will be elected that will choose a United States senator. The State Journal, located at the capital, can give you all this news more fully and more reliably than any other paper. It comes twice a week and will be sent until after election for only 25 cents.
