

OVER THE STATE.

GERMAN day was celebrated in Fremont.

KNOX county farmers are fattening their hogs on wheat.

FULLERTON is threatened with an epidemic of diphtheria.

SEVEN cases of diphtheria are reported from Battle Creek, one death having occurred.

A SHERMAN county farmer clubbed a coyote to death that insisted upon killing a pig.

F. E. BIRD has harvested 300 bushels of splendid apples from his orchard in Saunders county.

A BROTHER of Richard Yates, the old war governor of Illinois, lives on a farm near Cambridge.

STRICT quarantine measures stopped the spread of diphtheria at Tekamah, and the public schools were opened on Monday.

The Craig creamery is nearly completed, and operations will begin as soon as the milk routes can be laid out.

The prices of cows have gone up and cows are in far better demand.

At Nebraska City a young son of Al Irwin attempted to board a moving freight train and was thrown under the wheels.

One foot was so badly mangled that amputation was necessary.

The Sutton postoffice was robbed last week and about \$50 in money and \$900 worth of stamps, besides money orders and records taken.

The safe was drilled into and the lock crushed in.

TROOP K, Ninth cavalry, arrived in Fort Robinson last week from Fort Meyer, Va.

This brings again to regiment headquarters Captain M. H. Hughes and Lieutenants Benton and Perry.

A LITTLE son of Thomas Stewart of Bloomfield was accidentally shot in the side by a schoolmate, who was toying with a .22-calibre revolver.

The bullet lodged in the abdominal cavity and serious results are feared.

GEO. W. GILES, of Wyoming precinct, Otoe county, one of the best hog men in the country, shipped three head of fine Poland China hogs to Kallspeil, Montana, a few days ago.

Nebraska hogs are in demand.

GUY BOYER of North Platte was found in a deserted house with two girls, all sleeping off the effects of a spree.

He was arrested, charged with the crime of rape, and is now in jail, not being able to secure the required bond of \$1,000.

The large hay barn of J. H. Pope & Co., at Silver Creek, was discovered in flames.

It contained about 400 tons of choice baled hay. Nothing was saved.

Loss, \$5,000; insurance on barn, \$800, and \$1,000 on the hay. The origin of the fire is unknown.

The churches of Wilsonville, says the Review, continue to take up collections for foreign missionary work.

but we have heard of none so far having taken up a collection for the purpose of helping their neighboring brother through the hard winter before him.

EIGHT of Hastings' society young ladies started out last week to count the ties between that city and Juniata, six miles west.

As the wager was small five of the ladies dropped out, and left three to continue, which they did, and came home on a cattle train.

At present, says the Nebraska City News, there are on an average five cars of apples shipped from this point per day and this has been the case for the past thirty days and from the prospects the shipments will be even greater than that during the next ten days.

As JOHN N. KING, who resides adjoining David City, was walking on the Elkhorn track he was struck by the engine of a freight train, and thrown under the wheels of the engine.

His right arm and left leg were frightfully crushed and his recovery is doubtful.

HON. D. M. BROWNING, commissioner of Indian affairs, with his private secretary, arrived in Valentine and was met by United States Indian Agent Wright, of Rosebud agency, who escorted him to Rosebud.

After inspecting Rosebud agency the party will go across country to Pine Ridge agency.

It is understood Major Browning is on a tour of inspection of all the agencies.

JACK NEVILLS, of the Nebraska Harness company, Fremont, had an adventure last week.

After going home from church he had occasion to go into the back yard, when he was confronted by two men.

One of them struck him and the other threw a cloth over his head.

Jack is something of an athlete and he hit one of them a knockout blow and they fled, satisfied they had tackled the wrong man.

TWO FORGED checks, each for \$12, were passed on saloonkeepers in Fremont.

Both bore the forged signature of Frank Hammond, one of the proprietors of the Tribune.

The checks were offered for deposit at the Fremont National bank when it was discovered that they were forgeries.

The party who uttered the forged checks was a smooth-faced young man who was in the city a few days, but who has now disappeared.

When the wife of a laboring man or farmer buys Nebraska goods she increases the demand for labor, makes it easier to obtain profitable employment and makes a better market for the products of the farm.

Nebraska made goods are the best in the market. Farrell & Co's brand of syrups, jellies, preserves and mince meat; Morse-Coe boots and shoes for men, women and children; American Biscuit & Manufacturing Co., Omaha, crackers.

NORTH PLATTE voters are again agitating the question of bonding the city for a \$30,000 high school building.

It is thought the proposition will carry.

MIKE C. MALONEY, at one time editor of the Hartington Herald, is on a trip to Alaska as special correspondent for a New York daily.

WHILE the oldest son of Sheriff Harris, of Adams county, was attempting to feed the prisoners in the county jail at Hastings three of the inmates made their escape, but one returned after a short absence.

The other two, Ellis who was in for horse stealing, and Veehom for burglary, have not been recaptured.

GRANGER post No. 119 of Decatur and the Decatur Silver Cornet band tendered James McAllister, an old veteran of the Third Wisconsin infantry, Twenty-third corps, a surprise party Saturday evening.

He was presented with a fine photograph album from his comrades of the post. The old fellow was completely taken aback and could say nothing but "Thank you, boys." It was his 51st birthday anniversary.

At Fremont Judge Marshall sentenced two prisoners to terms in the penitentiary. Dave Etherton, who was convicted of stealing a buggy from John Bauman, at the same time that he stole a team from A. H. Swartz, got four years. E. Ackerman, the young man who forged a check for fifteen dollars in the name of H. E. Griswold, was sentenced to pay a fine of \$10, the cost of prosecution, and to serve one year in the penitentiary.

LINCOLN county is moving in irrigation work this fall. Fully 100 miles of main ditch lines are now under construction. Arrangements have been perfected whereby the irrigation ditch of John Bratt & Co., which taps the North Platte river three miles from the mouth of the Birdwood, will be completed this year.

This will bring all the land on the north side of the Platte under irrigation, leaving very little valley land within the county which may not be irrigated next year from ditches completed or under construction.

A CLAIM has been brought against the estate of Phillip Meehan, deceased, by Andrew Pearson for \$10,375 damages. Some time ago Meehan, Pearson and another workman were at work on the orphan's home at York, putting up machinery and, when at a height of fifty-six feet, the scaffolding they were on gave way.

Meehan was killed outright and Pearson so badly hurt that he did not recover consciousness for several days. The other workman escaped by hanging onto the ledge of the building. Pearson claims that the scaffolding was carelessly and negligently erected.

IRVINE CAMERON, a young man who has been wanted for a long time for statutory criminal assault, walked into the county attorney's office in Lincoln last week and gave himself up. If he had only done this twelve months ago the state of Nebraska would have been saved much expense, and Sheriff Miller much anxiety of mind.

He is the young man who caused Sheriff Miller to go on an expensive trip to California, only to find that he had flown to parts unknown. At one time he was said to be a student of the state university, and it was while his time was thus employed that he effected the ruin of the young woman.

WILLIAM REECE of Falls City, chairman of the Nebraska state delegation to the third international irrigation congress, held at Denver, September 3 to 10, has made a report to Governor Crouse. His report reviews the work of the congress and tells of an examination of soil and irrigation ditches at Greeley, Ft. Collins, Longmont, Boulder, La Junta and Rocky Ford.

At the latter place Mr. Reece found the grandest triumph of irrigation in the midst of what he says has justly been called the great American desert. He goes into extasies over the growing crops and fruit which he saw.

A MAN giving his name as Cunningham was found in a boxcar of merchandise at Paxton. The seal of the car was broken and Conductor Lawrence arrested the man and took him to Ogalala and turned him over to Night Clerk Hamilton, who turned him over to Sheriff Camp.

Upon being searched, two razors, two gold cravat pins, one pocket knife, one pair of nail scissors, four large brass rings, two pairs of cheap cuff buttons, \$2 in pennies and nickels, two tax receipts for \$2 each and a pass box were found. As the goods in the car had not been tampered with the fellow was discharged.

HUMBOLDT has a horse society for recovery of stolen horses which held its annual meeting last week. The society was organized in 1880 by the leading farmers of the community for their own protection. If a member of the organization has a horse or mule stolen the society defrays the expense of hunting the thief, besides offering a reward for his capture and recovery of the horse.

During the first year of its existence one span of horses was stolen and the thief was pursued, captured and sent to the penitentiary. Since that time not a horse has been stolen from any member of the society, although several have been stolen from farmers not members of the organization.

J. N. LEONARD of this county, says the Lincoln Journal, who is a member of the state horticultural society, reports that the flat-headed borer is doing greater damage to young orchards at this time than at any time during the past twenty-five years.

He says prompt and thorough action will save many orchards from almost entire ruin. The remedy is to cut out the borers, and where the insect has embedded itself deeply in the bodies of the tree to follow up the excavation with small wire probes then cover the wound with mineral paint made as thick as it can be spread with a small brush.

Pure linseed oil thickened with oxide of iron makes the most practical paint he has found.

WHAT might have resulted in a serious, if not fatal, accident, says a Scribner dispatch, occurred at the Main street crossing Saturday evening as the Omaha and Norfolk passenger was pulling into the station.

Heinrich Wandel was returning from a trip south of town, driving at a lively gait over the crossing, and did not see the train in time to prevent being caught. The engine struck the rig between the horses and carriage, dragging the carriage on one side and the horses on the opposite, until the train was brought to a stop.

Both horses were almost instantly killed, one being terribly mangled, the carriage overturned and the front wheels smashed, but Mr. Wandel escaped almost miraculously unhurt, save a few slight bruises.

GENEVA had a sensational shooting affray. It was the culmination of a domestic feud. A local physician, G. W. Corman, made a mortal enemy of W. T. Harris, a stenographer, by undue familiarity with his wife.

Matters came to an open rupture two weeks ago, when Corman was advised to leave town within ten days. This he was not inclined to do, and Harris, accompanied by his wife called at the doctor's office, with what intent is not known.

The conference was brief, and shooting began, both men using revolvers. Corman was shot in the back. It is thought the wound will not prove fatal. Both parties are well known and have many friends.

TWO BOLD TRAIN ROBBERS. They Hold Up Oregon Overland Express and Make Away With \$1,500.

SACRAMENTO, Cal., Oct. 13.—Two robbers captured the track-walker last night seven miles beyond Davisville and then, with his lantern, signaled to the Oregon Overland train from San Francisco, which was in sight, to stop. Two men then jumped on the locomotive and after firing several shots forced Engineer William Scott to go back and uncouple the express and mail cars. These were then taken five miles from the passenger cars.

Then the robbers, with the engineer and fireman, went to the express car. Messenger Paige at first refused to open the car and several shots were fired, one of which grazed his head. He returned the fire until Engineer Scott begged him to desist.

Then Paige opened the car and one of the outlaws covered the trainmen while the other gathered up four sacks of gold and silver, amounting to about \$1,500.

The engineer and fireman were forced to carry the treasure to the engine. Then the two robbers mounted the locomotive and rode some distance. The men then left the engine after reversing it and disappeared. The engine struck the mail cars but did no damage.

As far as can be learned more than 500 pounds of coin were taken. If all silver it would be about \$5,000; if all gold, about \$75,000. It is believed that one sack weighing 100 pounds carried by the engineer was gold, considering the smallness of bulk as compared to its weight. If so, that sack contained about \$25,000.

WESTERN PORK PACKING. Nearly 8,000,000 hogs Killed in the West During the Summer Season.

CINCINNATI, Ohio, Oct. 13.—Pork packing operations in the West for the summer season just ended were largely in excess of operations for the same season of 1893. From March 1 to October 10 the packing in the Western cities aggregated 7,775,000 hogs, as against 6,180,000 for the same period last year. The increase of over 1,500,000 hogs slaughtered is distributed among all the leading points. Chicago has a gain of 210,000, Kansas City 288,000, Omaha 319,000 and St. Louis 133,000.

According to the Cincinnati Price Current, the official packers' organ, the packing at the leading places from March 1 to October 10 compare as follows:

Table with 2 columns: City and 1894. Chicago 2,945,000, Kansas City 1,110,000, Omaha 802,000, St. Louis 440,000, Cincinnati 228,000, Indianapolis 249,000, Milwaukee 310,000, Cedar Rapids 171,000, St. Joseph 248,000, Sioux City 168,000, Ottumwa 191,000.

END OF SUGAR BOUNTIES. The District of Columbia Supreme Court Refuses a Writ of Mandamus.

WASHINGTON, Oct. 13.—Judge McComas of the district supreme court today denied the application of the Miles Sugar Manufacturing company of Louisiana for a mandamus to compel Secretary Carlisle to appoint inspectors to ascertain the sugar production of the company. The object of the suit, it was understood, was to test the legality of the recent repeal of the sugar bounty provision of the McKinley law and also to lay the foundation for an appeal to congress for payment of bounty for the current year.

Charged With Train Wrecking. KANSAS CITY, Mo., Oct. 13.—John Rodwidge, a freeman on the Santa Fe railway, was arrested at Argentine yesterday on the charge of train wrecking. He was arrested by Chief of Police Richardson of Argentine and Charles Deveroux, a Grand Trunk railway detective, from Chicago, and is wanted for the wrecking of a passenger train on that road at Battle Creek, Mich., early in last July, during the Debs strike.

Howard Had Many Passes. CHICAGO, Oct. 13.—Vice President Howard of the American Railway Union, who was Debs' prime minister in the great railway strike, shocked labor circles today by reporting to the police the loss of about twenty railway passes. Howard was the victim of a pickpocket, and reported at police headquarters that a score of annual trip passes and other railway transportation over many roads had been stolen.

Campaign Assessors Under Fire. WASHINGTON, Oct. 13.—Investigations will soon be made by the civil service commission of charges of assessment of office holders for campaign purposes in San Francisco, Chicago and Pittsburg. The order for investigation of alleged assessments in the Philadelphia mint has already been announced and the commission will detail agents to make investigations in each of the cases where complaints have been made.

Morton's Imported Coachman. WASHINGTON, Oct. 13.—The immigration bureau officials have as yet received no notice of the arrest of John James Howard, said to be ex-Vice President Levi P. Morton's second coachman, as an alien contract laborer. They do not, however, question the accuracy of the statement of the case, as when Inspector Dodge left here a few days ago he had a warrant for Howard's arrest signed by Secretary Carlisle. Whether Mr. Morton will also be proceeded against for violation of the alien contract labor law treasury officials can not yet say.

Methodists on a Pilgrimage. BALTIMORE, Md., Oct. 13.—A special train, containing many Methodists, left this morning to visit the site of the old Strawbridge log meeting house, on Pike creek, Frederick. The old church was founded in 1760, and was the first Methodist church in America.

Thieves Make a Goodly Haul. CINCINNATI, Ohio, Oct. 13.—Thieves last night entered the residence of F. J. Opp of Newton, Hamilton county, and stole about \$15,000 in stocks, bonds and money.

IT MAY NOT BE PULLED OFF. DOUBT ABOUT THE BIG FIGHT AT JACKSONVILLE.

FLORIDA PEOPLE ARE STIRRED UP. Already Preparing to Make War on the Corbett-Fitzsimmons "Scientific" Contest.—The Legislature Will Be Asked to Pass an Iron-Clad Anti-Prize Fight Law.—Fitz Refuses to Sign.

JACKSONVILLE, Fla., Oct. 15.—Unless there shall be a radical change in public sentiment there will be no opposition to the proposed fight here between Corbett and Fitzsimmons. Mr. Richardson, one of the principal backers of the Florida athletic club, is reported to have said that the new club would not have embarked in this scheme if there was any chance of opposition by the governor or hostile legislation at Tallahassee next spring so the opinion here is that the backers of the club have been given "inside" assurance that they have nothing to fear from the legislature. Some surprise is felt at the publication in the Citizen, a paper which took no stand in opposition to the Corbett-Mitchell fight when it was pending, as follows:

"Allow us to say right now that the so-called preliminaries of the so-called glove contest may as well be abandoned right now. Jacksonville is not a candidate for any further notoriety in this line. The scientific contests, as the parlance of the ring has it, are nothing less than brutal prize fights in which one of the principals undertakes to punch the other's head off, according to certain fixed rules.

"As soon as the legislature of next spring shall have been organized and some members can get the attention of the speaker, we shall have an iron-bound anti-prize fight law that will cover every phase of this subject. There is no mistake about this and Messrs. Corbett and Fitzsimmons may prepare to take their show to some less civilized and more lawless country."

FITZSIMMONS OBJECTS. He Refuses to Sign the Articles, Making All Sorts of Objections to Them.

PHILADELPHIA, Oct. 15.—After receiving by mail a copy of the fighting articles from New York yesterday, Bob Fitzsimmons declared he would not sign them in that shape. He objects to fighting for the championship belt put up by a sporting party, as he considers it put up for advertising purposes. Also to the size of the gloves, which should be five ounces, the same as used by Corbett, Sullivan, Mitchell and himself. Also to the club's naming the referee unless a clause be inserted that he shall be satisfactory to both parties. Fitzsimmons said:

"I don't know anything about the Florida club and I hear that Corbett's backers, the Dwyers, are behind it, and as he has had everything his own way so far I think I should at least have a say as to who shall be the referee."

Elliott Breaks the Shooting Record. KANSAS CITY, Mo., Oct. 15.—Never before in the history of pigeon shooting have the lovers of the sport been treated to as wonderful a contest as was given by J. A. R. Elliott and Dr. W. F. Carver at Exposition park yesterday. Mr. Elliott won by the remarkable score of 100 to 99. Mr. Elliott has probably established a record, with fifty yard boundaries, that will never be broken.

MISTAKE OF A DRUG CLERK. Gives a Man Carbolic Acid for Whisky, Which Causes His Death.

PATTONSBURG, Mo., Oct. 15.—Martin Meserver, a prominent citizen of Jamestown, about ten miles from this place, met with a sad end about 6 o'clock last evening. He is a manufacturer of buggies and just before quitting time burned his hand very badly. He went to a drug store and while the physician was preparing a prescription, Meserver asked the clerk for some whisky. Through a mistake the clerk gave him a half pint of carbolic acid, of which Meserver drank about one-half and in ten minutes afterward was a dead man. He was 36 years old and leaves a wife and four children.

Justices of the Peace Indicted. KANSAS CITY, Mo., Oct. 15.—Ross W. Latschaw, justice of the peace, was indicted by the grand jury yesterday for forgery in the fourth degree on five separate counts. Ten true bills in all were returned against him. Three true bills were returned against Justice William H. Browne—two for failure to report fines collected and one for obtaining money under false pretenses. "Bill" Adler was indicted on the charge of murder in the first degree for killing Postoffice Inspector Jesse T. McClure on Carnival night.

Reiterates the Charges. TOPEKA, Kan., Oct. 15.—Nelson F. Acers of Kansas City, has written another letter in regard to the Kansas City lottery scandals, and in answer to the letter of Attorney General John T. Little, which was published on Thursday. Mr. Acres addresses his second communication to the attorney general, and reiterates the charges made by himself and Peter W. Kline with additional circumstantiality.

Had His Skull Crushed. EMPORIA, Kan., Oct. 15.—While looking out of a car window on the Santa Fe road last evening R. A. Hilton's head was struck by the spout of a water tank west of this city, and his skull crushed so that he cannot live. He was an old resident of Linn county, and has many relatives here.

DUN'S BUSINESS REVIEW. It Says Business Is Waiting for Development of the Retail Trade.

NEW YORK, Oct. 15.—R. G. Dun & Co.'s Weekly Review of Trade says: Business is still waiting for the development of retail trade. There is a little better demand in some industries, but not so good in others. Wholesale dealers in nearly all branches are hauling because business does not yet show distinctly what it is to be. Lower prices for the great farm staples and lower wages in some establishments hinder purchases for consumption, while political interest and uncertainty also have some influence. Meanwhile large imports and small exports of merchandise, with inadequate employment for money here are raising the rates of foreign exchange, so that possibilities of gold exports somewhat affect the stock market. The halting attitude for the moment is disturbing to those who have looked for continued gain, though rightly considered, it is the natural consequence of conditions which are to be expected at this season.

The government crop reports are not greatly trusted, and yet have an influence and actually aggravate the tendency toward lower prices, because they are supposed to report all the crops too low. Men calmly reckon that if the government report indicates over 400,000,000 bushels of wheat, the crop must be over 500,000,000, and though Western receipts for the week have been only 4,469,075 bushels, against 6,335,302 last year, and Atlantic exports only 647,244 bushels, against 900,564 last year, the price is slightly lower. Corn is stronger, for receipts are hardly a quarter and exports barely an eighth of last year's, and the question whether the actual yield, if above the government estimate, may not prove lower than has been supposed.

RECIPROCITY TREATIES. Abrogation of the One With Brazil May Result in Damage Suits.

WASHINGTON, Oct. 15.—The abrogation of reciprocity between the United States and Brazil is to have a sequel in the filing of claims and the beginning of suits against this government for the total amount of duties collected on Brazilian goods covered by the reciprocity treaty from August 27 last, the date the new tariff law went into effect, up to January 1 next.

In the exchange of official notes leading up to the treaty, Minister Mendonca of Brazil wrote to Secretary Blaine that the treaty would be proclaimed, "with the understanding the commercial arrangements thus put in operation shall remain in force so long as neither government shall definitely, at least three months in advance, inform the other of its intention and decision to consider it at an end at the expiration of the time indicated, provided, however, that the termination of the commercial arrangement shall begin to take effect either on the first day of January or the first day of July."

Secretary Blaine's official note repeated the above language and stated the arrangement would not be terminated except on "at least three months' notice." The official notice was made a part of the commercial arrangement and the president's proclamation. Notwithstanding this provision, the new tariff law abrogates all reciprocity treaties, except that with Hawaii, without notice.

SHE WANTED TO DIE. A Young Emporia Bride Swallows Poison While Walking With Her Husband.

EMPORIA, Kan., Oct. 15.—While out walking with her husband last evening, Mrs. Clara Burress stepped into a store, asked for a glass of water, took a powder from her pocket and swallowed both. She then stepped out and continued her walk with her husband until she was taken very ill, when she stated she had taken a big dose of morphine and intended to die. She was immediately taken to a physician's office, where prompt remedies, it is hoped, may save her life. The cause was domestic trouble. No little sensation has been caused by the event, as both are in the teens and but a short time married.

Got Away With \$50,000. SACRAMENTO, Cal., Oct. 15.—The Southern Pacific has issued a circular offering a reward of \$10,000 for the arrest of the two robbers who held up the east bound overland express train, and the recovery of the plunder. In this circular it is stated that the bandits plundered the express car of over \$50,000 in gold.

THE MARKETS.
