Mrs. Kittwell and the child escaped uninjured, but Miss Higginbotham was quite badly hurt, being unconscious when picked up. Her injuries, however, are not of a serious nature.

SHERIEF HOOKS of Hyannis made an important capture last week in the way of a horse thief. He gives his name as Wagner and he is suspected of being one of the bandits who helped to hold up the passenger train a week ago, as he answers the description of one of the men who boarded the train and told the engineer to stop. The horse was found in his possession and he is now in the custody of the sheriff of Hyannis.

Fire in Oakland last week destroyed the butcher shop of J. D. Mann, law office of W. G. Sears, tailor shop of M. Swanson and damaged the saloon building of A. D. Peterson and the Hotel Clifton, the furniture of the latter being broken up by carrying it out. The stocks of goods were saved in a damaged condition. The total loss will probably be \$2,500, with one-third that amount of insurance. A family lived over the meat market and barely escaped in their nightelothes.

THE parties who have the contract for building the government bridge across the Running Water at Niobrara are on the ground and expect to com-mence work at once. The bridge is to be built by the government and \$7,000 has been appropriated for its construc-tion. The total length will be 960 feet.

A BARN belonging to W. Fontz in Superior, containing nine head of horses, one cow, some hogs and a number of farming implements, burned. It is believed to be the work of an incendiary, as this is the third fire which has been started during the past six weeks, and what looks strange is that they have all been discovered at 3 a. m. Sunday morning, exactly two weeks apart. The loss falls very heavily upon Mr Fontz, as all he had was in the

barn, with no insurance. THE residence of Fred Hanaford of Grand Island took fire from the exploding of a lamp and was completely de-stroyed with all the contents. Mrs. Hanaford and the children were alone at the time. After bringing two of her children out of the building the woman rushed through the flames back to the second floor, and taking her youngest child in her arms started back. Escape by the stairway was cut off. She then jumped from the second-story window. Her right ankle was broken by the fall, but the child was uninjured.

WHILE descending the main stairway from the second floor to the office of the Windsor hotel in Lincoln Wm. Ellis, the engineer who has charge of Ellis, the engineer who has charge of the engine and heating plant of the house, slipped and fell, rolling over and over until the lower floor was reached. The injuries were so serious that he was unable to rise, and when assisted to a bed and a doctor summonassisted to a bed and a decorsumon-ed it was found that he was possibly fatally hurt. As he tumbled down his back struck the corner of the steps and an injury to the spine is thought to

PORT ARTHUR HAS FALLEN.

JAPS CAPTURE IT AFTER EIGH-TEEN HOURS OF FIGHTING.

THREE ATTACKS MADE ON THE PLACE

Brilliant Generalship Displayed by the Japanese Commander in Leading His Army of 30,000 on to Victory Cut Roads Through Forests to Avoid Chinese Powder

CHEE Foo, Nov. 26.-Dispatches have been received here stating that the Japanese captured Port Arthur on Wednesday last, after eighteen hours fighting.

The second Japanese army, under the command of Field Marshal Count Oyama, minister of war, consisted of about 30,000 men, and when this force arrived off the Regents' Sword promontory it was divided into two detachments, one of which, aided by part of the Japanese fleet, operated against Talienwan, while the other directed its movements against Kin Chow, on the western side of the promontory, some miles north of Port Arthur. Talienwan and Kin Chow were both captured, after which the army again combined and the march on Port Arthur was com menced. Several engagements of menced. Several engagements of minor importance took place along the route, but according to the re-ports the Japanese were invariably successful. The roads leading north-ward from Port Arthur were supposed to have been mined by the Chinese and the Japanese commander therefore declined to take the risk of marching his troops along them. Consequently, they were compelled to cut roads through the forests to allow the passage of their artillery, ammunition trains, etc. The march

was thus necessarily slow.
Dispatches received a few days ago stated that the Japanese were close to the city, and had attacked the Chinese outposts, driving them back to their entrenchments. It was also said that the Japanese attacked the entrenchments three times, but were repulsed each time. It is evi-dent that later attacks must have been made and that the outposts were compelled to fall back upon Port Arthur. Several times the town is reported to have been captured, but later dispatches have shown that these reports were inaccurate, and that the Japanese were conducting their operations against the place with great carefulness, and that they with great carefulness, and that they intended when the real attack was made that it should be successful. Che Foo, from which place the dispatch announcing the fall of Port Arthur is sent, is a Chinese city on the north coast of Shang Tung Promontory, some ninety miles south of Port Arthur, from which it is separated by the Gulf of Pe Chi Li.

CHILD EATEN BY A HOG. Mrs. Goloble of Olelahoma Battles for Her Infant Offspring.

GUTHRIE, Ok., Nov. 26.—As Mrs. Golobie of Sacred Heart, placed her 14-months-old babe on a blanket near where she was washing clothes yesterday, and her attention having been attracted elsewhere for a molittle one, and to her horror found it in the mouth of a wild hog. The mother started to rescue her child, but the animal having got a taste of human blood, started for the woods, dragging the child with it. The mother followed and gave battle for the possession of her child. After a terrible struggle Mrs. Golobie succeeded in striking the ferocious animal with a stone and regained possession of the child, but it was so badly injured that it died. The hog had tusks three inches long, and was a most ferocious animal.

to Exterminate the Desperadoes.

WASHINGTON, Nov. 26.-It has been decided that the present situation in the Indian Territory is not such as to warrant the secretary of war in calling out United States troops and the authorities in the territory have been so notified. This, however, does not mean that the government is to abandon or in any degree relax its efforts to bring the Cook gang of outlaws to justice. On the contrary, United States Marshal Crump of Arkansas, who has made a reputation for himself in dealing with the tough element in the Southwest, will continue with increased vigor his pursuit of the marauders, and it is believed that with the liberal instructions which have been given him as to the employing of deputies he will not fail in his mis-The presence of any considerable military force it is not doubted would have a salutary effect in quieting the fears of the inhabitants, yet it is thought it might defeat the ends sought by scattering the outlaws and thus making their capture difficult, if not impossible. Trade Improvement Still Continues,

Though Slowly. NEW YORK, Nov. 26.-R. G. Dun & Co.'s Weekly Review of Trade says: There is some change for the better. The gain is slow and in some directions not very distinct, but the signs of it are a little more definite than last week. The most important of them is the larger employment of labor, answering a better demand on

the whole for manufactured products.

The wheat market has lost this The wheat market has lost this week the cent it gained last week, receipts being larger and the Atlantic exports are also larger, 576, 771 bushels, against 703,026 last year, but these are of small account compared with the great visible supply. Foreign reports this week have been rather more promising, though the fact remains that the world's crop outside the United world's crop outside the United States is probably the largest ever grown. Corn has declined half a ent, receipts having much increased.

CHINA WANTS PEACE.

The Amount is Regarded as Large-Now that the Downfall of Port Arthur is But a Question of Hours the Powers at the Celestial Kingdom Hasten Negotiations With Japan-Records of Ministers Dun and Denby.

China's Peace Offering.

WASHINGTON, Nov. 23. - A cable from Hiroschima, Japan, where the mikado has established headquarters, states that China has intimated her willingness to pay a war indemnity of 100,000,000 tuels and, in addition, to pay all the war expenses incurred by Japan. As the war expenses reach 150,000,000 taels, the total offer of China would be 250,000,000 taels. The tael is a Chinese silver coin worth about seventy-five cents at the present exchange, so that the whole payment would be, approximately, \$175,000,000, American money. The amount is regarded here as quite large, and it is believed arrangements between the two nations could be effected on terms providing for a small-

er war indemnity.

Diplomatists here say that under ordinary circumstances it would take some time for China to formally present its offer to United States Minister Denby, but, owing to the fact that the Japanese are now at the walls of Port Arthur about to make the last blow at China's greatest fortress. China may hurry the negotiations to a conclusion. It is expected that Minister Denby will transmit the offer by telegraph to Tien Tsin and Shanghai and thence by cable to Yokohama. The understanding is that China and Japan will pay the expenses of the American ministers incident to the

In accordance with the suggestion of Japan the state department has notified Ministers Dun at Tokio and Denby at Pekin to transmit such direct word as China may wish to make to Japan. The cable directions were sent Tuesday.

The advance on Port Arthur is re-

garded as having an important bearing on the peace negotiations. Lieutenant Mioyaka, naval attache of the Japanese legation here, says that the advance movement has been most cautious, as the ground for forty miles around Port Arthur has been found fairly alive with pow-der mines connected with electric wires to Port Arthur. Three days ago the Japanese were within a day's march of the fortress, but it was necessary to send ahead small scouting parties to pick a route away from the mines and electric wires. The regular roads could not be used for the artillery, as it would have been blown up, and accordingly the big guns have been moved in circuitous routes through woods and morasses. It is regarded as likely that this caution march will have been completed to-day, and the Jananese legation is hourly expect. Japanese legation is hourly expect-ing word that the decisive blow has been struck, though a long siege may be necessary, as the fortress has one of the strongest defenses of modern times. Officials and diplomats are scanning the records of Messrs. Dun and Denby to ascertain their capacity to deal with the questions committed to them. Mr. Dun has had unusual ex-General Capron. who built the Japanese legation in Washington, wished to send a con-signment of fine Merino sheep to Japan. The Duns had a stock to Japan. The Duns had a stock farm in Ohio, and the minister's sheep were bought and he went to Japan with them. He remained there some time and finally married a Japsome time and finally married a Jap-anese lady of high family, by whom he had a daughter. This attached him to the Japanese and made him a fixture there. President Arthur first appointed him as second secretary of e United States legation at Tokio. When President Cleveland's ad-ministration began two years ago, California made cure the appointment of minister to Japan for one of her favored sons. At an opportune time, how-ever, Judge Thurman, who had been on the presidential ticket with Mr. Cleveland four years befroe, asked the president as the only favor he had to request, that Mr. Dun be promoted to minister. The request was complied with. Mr. Dun's Japanese wife is dead, but his relations with the Japanese are very cordial, which, with his long experience, well fits him for the present negotiations. Minister Denby is a lawyer of ability, who has served through three administrations, being appointed during Mr. Cleveland's first term, rotained by Mr. Harrison owing to their personal associations in Indiana and the objection of China to Senator Blair, and again retained by Mr. Cleveland. He has an outward austerity which has not, however, prevented his being most acceptable to
