Three pails of candy and all the tobacco and cigars were taken.

THE Twelfth Biennial Report of the

THE DIPHTHERIA CURE.

lisport of J. J. Kinyoun to Surgeon General Wyman of the Navy.

WASHINGTON, Dec. 8. -Of particular Interest at this time is the report made to Surgeon General Wyman of the navy by Dr. J. J. Kinyoun, the marine hospital surgeon, who, at the invitation of Professor Roux, investigated the methods employed at the Pasteur institution, Paris, in the preparation of the new cure for diphtheria.

Dr. Kinyoun says that after spending a month at the institute he had seen sufficient to enable him to form an intelligent estimate of the value of the discovery. More is to be said in its favor than was claimed for it by Professor Roux in his paper on the subject before the international congress of hygiene and demography, held at Euda Pesth in September.

The report gives in detail the steps necessary in the preparation of the serum antitoxine which include, first, the preparation of the toxines of diphtheria; second, the immunization of animals; third, preservation of and conservation of the serum. The man-ner of producing immunity in an animal may be performed in one or two ways-by injections of the toxines or by inocculations of the bacilli. The former method has been found to be the best and at present is the only one in use. In the experiments of Professor Roux inocculations of the bacilli. and Dr. Martin, animals of all kinds were used, but now they use the horse, as it has been found to be the most satisfactory. Of the eighty-two cases which came

under Dr. Kinyoun's observation three died. The statistics show that there has been a gradual diminuition of mortality since last May.

The report continuing, says: "The flicacy of the serum is better shown in the tracheotomies than in all others. The mortality under the usual conditions has been from 1889 others. to 1894, something frightful to con-template. Fully eighty-five per cent of the little patients have succumbed. Since the commencement of the serum treatment the death rate has been lowered to less that forty-seven per cent and the cases upon which tracheotomy must be per-formed are fewer and fewer. It is now possible to immunize the reagents of the disease. Unfortunately the immunity is not of long duration. The longest time in which it is thought to be protective is six weeks, one injection being sufficient. The future possibilities in this condi-tion cannot be overestimated, as we have in the serum the almost absolute preventive of epidemics of diphtheria."

edgwick County's, Kansas, Prosecuting Officer Charged With Accepting Bribes. Misappropriating ' Lines and Doubly Collecting Costs - He Denounces the Charges as 'Blackmail.

WICHITA, Kan., Dec. 10.-Last evening County Attorney Willard Boone and Attorney W. J. Skelton engaged in a fistic encounter, in which Boone punished Skelton for alleged blackmail. To-day Skelton filed proceedings for disbarment against Boone and Judge Reed set the case for hearing on December 19.

Skelton charges that County Attorney Boone has collected and retained for his own use, by virtue of his office, numerous sums of money to dismiss cases pending against criminals, and has collected costs in cases from defendauts on promises to dismiss crim-inal charges against them, has appropriated such costs to his own uses and has caused the county to also pay the same costs: that Boone has accepted money and payment of costs from persons convicted of misdemeanors in justices courts who appealed to the district court, to dismiss the cause in the higher court and afterwards indorsed the bills for the same costs against the county and himself retained the amounts paid to him personally, that Boone began a number of liquor prose-cutions and afterward entered into a compact with the defendants to dismiss the charges on payment of the costs and \$25 attorney's fee in each case and the payments de-manded were made and the cases dropped, the money collected being appropriated by Boone to his own uses; that on one Sunday, Boone got drunk in a saloon and when the police officers ordered the place closed countermanded the order and agreed to protect the violators of the law. and that he became so noisy that the police officers threw him out of the saloon into the gutter; that he is a frequenter of joints and is constantly found in them drunk and disorderly, and that he is in the habit of order ing wines and liquors and telling the jointists they would be credited for the same on their fines.

The charges are all definite and the names of those with whom Boone is alleged to have entered into these deals are given. Boone denies the charges in toto

and he says that he will have Skelton arrested on a charge of blackmail.

A BUTTE dispatch says: The preliminary hearing in the case against Whit-ing. Storms and Kloke, the Spencer election board accused of fraudulently voting ficticious ballots at the bond election October 16, was taken up in the county court Friday, before Judge Skuse. After the introduction of about twenty-five witnesses, who testified that they had voted in favor of the proposition (the returns showed only eighteen) the state rested, and the de-fense moved to dismiss, because the prosecution had failed to show that fictitious ballots were cast, as charged in the complaint. Judge Skuse overruied the motion for the reason that although the state had failed to make a case on the complaint, there was still a "prob-able cause" for holding them to the district court, which was done. The bail was fixed at \$500 each, which was The quickly furnished.

CINCINNATI (O.) dispatch: The pa-thetic wedding of Lillian R. Kellogg of Peru, Neb., and Dr. Elton B. Crowell of Syracuse, N. Y., yesterday, is the talk of the town. A Loss of Over a Million and a Half in One Day.

WASHINGTON, Dec. 8.-The cash balance in the treasury yesterday was \$154,727,085, of which \$109,560,123 was net gold. This is a loss in gold since

Wednesday's report of \$1,581,597. The treasury officials offer no ex-planation of this increase, but the information comes from New York that during the last three days the subtreasury has several times been obliged to meet demands for gold in exchange for legal tenders, but so far as known here none of the gold withdrawn has been exported. The present high rate of sterling exchange (\$4.88) makes it probable, however, that before the close of the present week considerable amounts will be withdrawn for export to France, where the demand just now is greater than in England. The treasury offi-cials decline to discuss the probability of extensive withdrawals, but it is believed that they feel apprehensivo of still further losses.
