Hill and Onay Said to Be All Ready to Block the Income Tax Collection Appropriation _ The Financial Measure Also in Peril-Both Are Likely to Be Defeated at This Session.

WASHINGTON, Dec. 31.-The talk of an early extra session of the Fiftyfourth congress has been revived at the capitol by the contingencies which may arise growing out of the failure of necessary legislation at the present session. Upon two pending bills, it is generally believed, hinges the question of whether Mr. Cleveland will convoke the new congress soon after the death of the Fifty-third, March 4. These two are the urgent deficiency appropriation bill, which contains the appropriation for carrying the income tax into effect and which is pending in the senate, and the Carlisle currency bill, which is under debate in the house, and the fate of which will be decided soon after the house convenes January 3.

The opponents of the income tax, led, it is understood, by Senators Hill and Quay, will make a desperate fight in the senate and will exhaust every parliamentary expedient to defeat it. Mr. Quay, it is said, has added largely to the accumulated speech with which he proposed talking the tariff bill to death at the last session, unless certain changes were made in the wool sched-ule, and is prepared for a long siege. He has already enough manusiege. He has already enough manu-script, it is said, to consume a month's time of the senate, and with proper support he believes the efforts of the supporters of the income tax will not be successful. The New York members of the senate affect to believe in the ultimate defeat of the bill.

CORRUPTION IN ST. JOSEPH. The Police Charged With Standing in

With Gamblers and Bad Classes.

ST. JOSEPH, Mo., Dec. 31.-City Attorney James Mytton has made formal charges against the police force and the police judge that, if proved, will not only call for a public investigation, but may cause Governor Stone to haul Police Commissioners Van Natta, Ryan and Trice over the coals. He charges that gambling houses run wide open all over the city; that the police visit them and watch the playing at the same time accepting drinks and cigars from the proprietors, and when compelled to make arrests take into custody only the keeper, letting the players continue the game and re-leasing the proprietor on his own recognizance; that the police judge and captain of police hold star chamber sessions of the police court, admitting no one but arrested gamblers and keeping the city attorney in ignor-ance of the trial and imposing the lowest possible fine on the gamblers. without compelling them to appear.

NEW YORK FIREMEN KILLED.

THE NEW DIPHTHERIA CURE.

Dr. Kinyoun's Report on His Researches -Dangers From Spurious Anti-Toxine. WASHINGTON, Dec. 31.-The officials

of the United States Marine Hospital service are watching with interest the results obtained from the new diphtheria cure. They have just made public the report made by Dr. J.* J. Kinyoun of his visit to the Children's hospital at Berlin where the larger portion of cases suffering from diphtheria are treated. There were about thirty-five cases in the hospital at the time of his visit and their ages were The usually from three to five years. death rate was slightly lower than in the Paris hospitals for the reason that the patients were sent to the hospital sooner and the children received better care than was accorded them in like institutions in Paris. Dr. Kinyoun elaborately describes the methods and practices employed in the hospitals in treatment of the disease.

The matter of the control or supervision of the use of anti-toxine was engaging the attention of the Berlin authorities. While Dr. Kinyoun was there, November 4, Professor Koch convened a meeting of the Prussian board of health for determining what should be taken. Professor action Koch had expressed the opinion that there should be some government supervision of the serum so that it could always be relied upon. there was no such supervision, it would not be long before spurious articles would be put on the market and not only would a good remedy be brought into disrepute, but lives might be sacrificed when they might be saved. It was decided at the meeting of the board that all serum intended for use in Prussia should be inspected and tested for its purity and strength before it would be allowed to be used. This was satisfac tory to all the parties concerned and be the means of insuring a good article of standard strength at all times for Prussia.

In this connection Dr. Kinyoun calls attention to what he says will evidently occur in this country. Many persons, will during the coming year, prepare the serum as a business enterprise, and there will, with-out doubt, be many worthless articles called anti-toxine thrown upon the market. All of the serum intended for sale, he believes, should be made or tested by competent persons. The testing, in fact, should be done by disinterested parties. The anti-toxine, he says, will never work miracles. having its limits like any other agents, and like a perfect piece of machinery, will not accomplish the full result unless directed by a skillful hand. "Some persons affected with this dread disease," he declares, "Some persons affected will succomb, it matters not how soon we apply the remedy. The majority will, however, I am sure, recover if the anti-toxine is given early and properly.'

In closing, the report expresses the hope that soon every state and munic-ipality will take the proper steps to provide facilities for supplying the remedy to the people.

Opiates and stimulants only quieted temporarily, and all treatments failed him. Only his love of family and friends prevented suicide. He told a reporter the following interesting

story: "I kept at my work as long as I could, but nature gave way at last and I suc-cumbed to the inevitable. My entire nervenmbed to the inevitable. My entire nerv-ous system had been shattered by the stimulants and opiates I had taken, my blood had actually turned to water, my weight had dropped from 173 pounds to 123 and it seemed to everybody that the end was in sight. THE CURRENCY BILL.

Mr. Springer Gives Another Explanation of Its I rovisions.

WASHINGTON, Dec. 29.-Representative Springer said to-day in partial explanation of the currency bill as modified by the Carlisie amendments: "In the first place the Carlisle bill proposes a radical change in the manner of securing the bond note circulation. The rapid payment of the public debt, the limited number of bonds now outstanding and the further fact that many of them are held in trust ca-pacities in this country and as permanent investments by persons re-siding abroad, have rendered the kind of security now required impracticable. The Carlisle bill propose for security for the circulating notes of the national banks, instead of United States bonds a guarantee fund con-sisting of legal tender notes or currency certificates to the amount of 30 per cent of the circulatio association, which began to night also a safety fund to be raised by a continues until Friday. tax of one-half of 1 per cent per an-num upon the circulating notes until LIVE STOCK AND PRODUCE MARK it reach 5 per cent of the whole circulation, and as a further security a first Quotations from New York, Chicago lien upon all the assets of the bank and upon the amount which may be realized by the double liability feature the national banking law. The guarantee fund of thirty per cent, the assets of the bank and the personal liability of the stockholders can only go to the payment of the circulating notes of the bank, which is the custom; but the five per cent guarantee fund raised by a tax upon all the eirculation of the country is a common fund out of which the notes of any failed bank may be paid, if the guar antee fund, the assets and personal liabilities of the stockholders are not sufficient. Thus, on a circulation of 200 million dollars, the present national bank circulation, the safety fund would amount to \$10,000,000, and this whole fund could be drawn upon to pay the notes of any bank that failed. This security is considered ample by the safest financiers and bankers of the country. The currency

When the Burlington lines were extended west of the Missouri river he was made the general attorney of the sys-tem in Nebraska. This position he held up to the time of his death.

A BALTIMORE dispatch says: In view of the great distress reported from Nebraska because of the almost total loss of the corn crop, which according to the United States agricultural depart-ment, averaged this year only six bushels per acre for the entire state, the Manufacturers' Record suggests that a solid train of corn and meat be contributed by the south and shipped to Nebraska. Mr. Edmunds, the editor of the Manufacturers' Record, says that the south has been blessed with an enormous corn crop this year and that its meat houses are filled to overflowing. Out of this abundance the south should gladly avail the opportunity of sending Christmas greeting to those who are in dire distress in the northwest.

AFTER next week, says a Lincoln correspondent, there will be considerable changing in the offices at the state house between the present incumbents of the clerical positions and the numerous candidates for these places. In the governor's office, the place of private ccretary having been filled, there remains those of a stenographer and record clerk, this is assuming that there will be no messenger. If these two places are to be filled at once there has been no authoritative announcement of the lucky ones. It is currently rumored that the stenographer in the gover-nor's office will be Miss Birdie Johnson of Lexington and Jule Schonheit, an attorney of Falls City, is credited with a strong pull on one of the positions. Miss Johnson was employed in the last campaign as stenographer for the chairman of the independent state central committee. The place of chief oil inspector is conceded to J. H. Edmiston, the chairman of the state central committee.

A RELIEF committee was organized in Papillion last week to solicit aid for the drouth sufferers in western Nebraska, with branches at Gretna and at Springfield. At the committee meeting it was found that subscriptions had been coming in wonderfully, as each of the towns mentioned will be able to load a car of provisions, which will be shipped to different destinations and be distributed under the direction of committeemen from Sarpy county, who will accompany each car.
