TO GIVE ALL SATISFACTION.

Allianca Affair Will Be Settled as the United States Demand.

Washington, April 26.-Secretary Gresham has received a dispatch from Mr. Hannis Taylor, United States min-ister at Madrid, assuring h.m that Spain would accede to the demand of the United States in the Allianca affair, and that the captain of the Conde de Venadito would be put on trial for his offense for firing at an American vessel outside the zone. The tone of the dispatch is such that the state department feels its course will be absolutely vin-dicated by the result. One of the principal missions with which Mr. De Lome, the new minister of Spain to the United States, was charged was the investi-gation of the affair. The new minister proceeded to Havana instead of coming direct to the United States, and it is presumed his report influences the action of the Spanish government.

The only objection to the proposal is based upon the fact that Pittsburg has no hall large enough to entertain so large an assemblage and that it would be no sary to rent one of the theaters.

GOOD TONE TO TRADE.

FEWER SIGNS OF HESITATION NOTICED.

Wholesome Gains Notwithstanding that Sales Are Behind Production in Som Branches-Good Trade in Dry Goods-Week's Failures.

Co.'s weekly review of trade says: "Neither the rising speculative markets nor the steady gain in industries

New York, April 29 .- R. G. Dun &

has ceased, and it is wholesome that there are fewer sgns of hesitation in the productive industries than in spec-ulative prices. Wage strikes grow more numerous and cause some trouble, and retail demand lags behind wholesale and jobbing purchases behind production in some branches, but through many conflicting reports the fact shines out that the industries are gaining, not with a rush and a whirl but more safe-ly. Cotton mills are getting more money for goods and have quite generally advanced wages. Consumption of northern spinners at the maximum would be in eight months 1,350,000 bales, but they have actually taken 1,950,000 and have a profit on 600,000 bales controlled of over \$4,000,000. The consumption is large and advances seem to be warranted. Iron production, stimulated because ore, coke and oil were to be dearer, is retarded by shrinking mand for products, for on the whole new business is said to be smaller than in February or March.

"The structural demand for buildings throughout the country was never larger; the frenzy in oil has started a large demand for pipe and sheets at slight advances. Bessemer pig is lower and sales of southern pig in northern markets have been large at 25 cents advance. Finished products are nearly all at their lowest price.

"Wool has sold at the lowest price on

record this week, 16 cents for Ohio and 9 cents for Texas, and offers to clear off stocks before new supplies come forward tempt manufacturers to purchase beyond present needs. Sales of foreign, 8,117,300 pounds in three weeks of April, against 9,292,500 domestic, made the total 17,409,800, against 15,-906,100 in 1892, and less of course in '93 and '94.

"The demand for dress goods continues large and improving, but uncer-tainty in men's wear goods continues, and is somewhat increased by more numerous strikes. Colored flannels are 5 to 7½ per cent lower, and an auction sale is to be held and some irregularity

appears in prices for fine fancy goods.
"Higher prices for wheat—nearly 3 cents above last week's—tend to check Atlantic exports which, flour included, were only 1,868,873 bushels for the week against 2,620,445 last year, though for the previous two weeks about equal to

last year's. "Cotton touched 7 cents, receding to 6.93; 1,312,306 bales had come into sight last week, and British exports of goods were 120,000,000 yards less in the first quarter this year than last. With such

southern acreage. "The failures for the week have been 230 in the United States against 179 last year, and 37 in Canada against 26 last

facts the rise does not help to lessen

Will Evict the Flouroy Tenants.

Omaha, Neb., April 27.—Capt. Gov. Evans has said he will not obey the injunction, and has instructed the constabulary to

Durrant's Attorneys Try to Bring Wolfe Into the Murder Case.

San Francisco, Cal., April 29.—During the early days of Durrant's trial an attempt was made by his counsel to cast suspicions upon the Rev. George Gibson, pastor of Emanuel church. His attorneys have so far failed in develop-ing any tangible evidence. Elmer A. Wolfe, a witness of the prosecution, who corroborated previous testimony concerning Durrant's tardiness and disheveled appearance at the Christian Endeavor meeting of Good Friday evening, yesterday was cross-examined by the defendant's attorney, who en-deavored to show that a similarity between the shoes and overcoats of Wolfe and Durrant and the resemblance in statue had led to Durrant's mistaken identification by persons who had really seen Wolfe. He accounted for all his movements. Chief Crowley said in the Lamont case the police would present an even stronger chain of circumstantial evidence against Durrant than in the present case.

CHARGES BIG CANAL STEAL.

Scandal Involving \$3,000,000 to Come Up at Ottawa, Canada.

Ottawa, Ont., April 29.-Signs of an impending storm in the house of commons equal to the scandal session of 1891 are not wanting. Mr. Choquette, a promient Liberal member, has discovered irregularities connected with the new Sault Ste. Marie canal. The amount involved is over \$3,000,000. Mr. Choquette says the walls of the new canal already show signs of disintegra tion and are bulging inwards. He also alleges a considerable portion of the original appropriation for the Soo canal was diverted to other purposes. Mr. Choquette declares he is prepared to make the most sweeping charges of political jobbery and corruption against the government. There is considerable anxiety manifest among government supporters as to what stand the government will take when the matter comes up in the bouse part will take the matter comes up in the house next week.
