### LAST OF THE DALTON GANG.

George Newcomb and Charles Pierc Wiped Out by an Oklahoma Poss

Guthrie, Ok., May 4.—The Dalton gang of outlaws, the worst banditti that ever cursed Oklahoma and the Indian Territory, has been exterminated Yesterday at 3 o'clock the mutilated bodies of George Newcomb, alias "Bit-ter Creek," alias "Slaughter Kid," and Charles Pierce, alias 'Saughter Kid, and Charles Pierce, alias 'Cockeye Char-ley," were brought to this city. These men were killed by Deputy Marshal Shaffer and four picked men, who have been on the trail of the outlaws ever since the hold-up of the Rock Island train at Dover, Ok. The killing oc-curred at the Dunn farm, thirty-five miles east of this city. Tulsa Jack and George Newcomb planned the robbery at Dover. In the chase after the rob-bers Tulsa Jack was killed, but Newcomb, Pierce, Gyp Wyatt, Henry Sawyer and two others escaped. Wednes-day night Shaffer and posse went to the Dunn farm. Newcomb with gun in hand came out of the house, calling to Pierce to follow him with Sallie Mills, the sweetheart of Bill Dalton. As Newcomb spoke a volley of shot was poured into him. A fusillade followed. Al-though mortally wounded Newcomb crawled to a window through which he repeatedly fired his rifle. A stray ball struck Sallie Mills, dangerously wounding her. In ten minutes more one of the Dunn boys was wounded and Newcomb and Pierce dead. Newcomb had long been the teror of the west. He

was in the Ingalls battle in which nine deputies were killed and wounded, led the Sylva (Kas.) train robbery, the Dover (Ok.) Rock Island robbery, the Red Rock looting, Cimarron (Kas.) Santa Fe robbery, and Marshal Nix has evidence he has looted eighteen banks and postoffices.

### More Than Two Did the Murder.

Ashland, Wis., May 4 .- The actions of Mrs. Martin Thrush since the murder of her husband have been strange. She was overheard in a conversation with Casper Emmert yesterday, in which she said: "Well, there's one thing cer-tain, I'll not go to state's prison alone." The bloody chisel was brought before the grand jury and it fitted exactly into the wound which caused Thrush's death. Sensational testimony suggests that others besides Mrs. Thrush and Casper Emmert were accessories in the crime. The bullet which was cut from the ceiling of the murdered man's room weighs only forty grains. A bullet shot from the navy revolver thrown near Thrush's body as a blind would weigh over 100 grains.

## CULLOM IS FOR WAR.

SAYS THE BRITISH MUST LEAVE NICARAGUA.

Thinks the United States Should Use Force If Necessary-Revolution Predicted in Nicaragua-Not a Case for Arbitration.

### San Diego, Cal., May 3 .- Senator Cul-

lom of Illinois arrived by private car from Los Angeles last night, accompanied by Mrs. Cullom and friends. In an interview on the forcible occupation of Corinto by British forces Senator Cullom said: "There are two things upon which the people of the United States have set their hearts, and they are the enforcement of the Monroe doctrine and the building of the Nicaragua canal. I do not apprehend that England will go to such steps as is prophesied, yet we do not know what her insolent and dictatorial policy may lead her to attempt. One thing is certain, that she must get away from Nicaragua or there will be war between the United States and England."

### NICARAGUANS CUT WIRES.

### Landing of the British Might Have

Been Delayed. Washington, May 3 .- State department officials say they have heard nothing of the condition of affairs in Nicaragua, or of the progress of the attempt to effect a settlement of the difficulty between Great Britain and Nicaragua at London through the good offices of the Salvadorean minister at that post.

Some facts are just coming to light respecting the earlier stages of the negotiations, which explain in a measure the confidence expressed by our govern-ment that the British troops would not be landed at Corinto, and the surprise felt when the news of the actual land-ing came to Washington. It is now said that orders have been cabled to Admiral Stephenson, commanding the British fleet off Corinto, to deter the execution of his orders to land the forces until he had heard further from the British government. By cutting the telegraph lines connecting Corinto with San Juan del Sur, the nearest cable port, the Nicaraguans, it is asserted, stopped this message in transit, and the admiral had no other course open to him than to carry out his original or-

New York, May 3.—Passengers on the steamship Colombia, which has reached here from Colon, report that Nicaragua is in a ferment over President Zelaya's arbitrary rule. One passenger, who proposes to return to Nicaragua and therefore does not wish to have his name used, says: "A revolution is preparing in Nicaragua. Plans for Zelaya's overthrow are well under way, and when the coffee crop is harvested there will be an uprising throughout the country. Zelaya's pol-lcy in the expulsion of Hatch was outrageous. Even when British warships were moving toward Corinto Zelava had hoodwinked the people, who derided the report that the British intended to occupy the town. When the British warships did arrive they were amazed." Other passengers say two agents of the revolutionary party on their way to France were on the Colombia. They also declared that the shipment of 140,000 cartridges on the City of Para to Guatemala was significant, in view of the present situa-

### SHOT THE ENGINEER.

Five Men Attack an Alton Train Near Carlinville, fil.

Bloomington, Ill., May 8 .- The St. Louis & Chicago express, due here at 3 a. m., was held up by robbers half a mile north of Carlinville, Macoupin county, last night. Three men board-ed the locomotive and ordered the engineer, Frank Holmes of this city, to hold up his bands. He refused, and was shot and instatuly killed. Three shots were fired. All the robbers were caught and jailed at Carlinville. No one else was hurt.

Holmes was aged about 42, and was known as one of the most daring and successful engineers in the West. He was a son of Judge Holmes, who was one of the pioneer lawyers of Bloomington. Holmes was connected with the Alton road for a quarter of a century. He leaves a wife, whom he recently married here, and a son by a former marriage.

Fireman Frank Tuggle es-caped injury. Fireman Tuggle then ran the train back to Carlinville. It is not known whether robbery was intended or not. Engineer Holmes in the morning when going south at Carlinville compelled some tramps to get off the train and also ran some tramps off that were burning cars on a "Y," and it is thought that some of these men are his murderers. Holmes' home is in Bloomington.

### GREAT BRITAIN ACCEPTS NIC-ARAGUA'S PROPOSITION.

The Proposed Guaranty for the Payment of the Indemnity Demanded Is Satisfactory-Guatemalan Government Displeased.

London, May 2 .- In spite of the statement which had emanated from the foreign office saying that there had been no change in the attitude of Great Britain toward Nicaragua, it is learned that Great Britain has agreed to the proposed settlement of the dispute with Nicaragua if the payment of the indemnity is guaranteed. In this case the British fleet will immediately withdraw from Corinto. It is not known what guaranty Great Britain demands for the payment of the indemnity, but it is believed in official circles that the af-

fair is practically settled. Washington, May 1.—The guaranty of the payment by Nicaragua of the indemnity as required by Great Britain will be made in the amplest manner pos-tuble so that there appears to be no sible, so that there appears to be no further obstacle between the two countries as to a final adjustment. The guaranty will be in one of several forms, as follows:

1. The promise of the Nicaraguan government, which, in view of the fact that the government has never defaulted on its obligations, is of itself regarded as a guaranty. 2. The Bank of Nicaragua, a national

institution with recognized standing in London, will, if need be, give the guaranty. 3. The republic of Guatemala, one of

the richest of the Central American states, stands ready to deposit £150,000 in a London bank if Nicaragua desires the favor.
