The accounts furnished by the winners of the Chicago road race of the way they won are good enough sermons in brief for any young man in any walk (or ride) of life. "I got right at it and plugged," they each say in substance, "and every man I saw ahead of me I passed." That is the formula of success.

It made little difference to Lord Rosebery that the house of commons expressed its contempt for a sporting premier, otherwise good for nothing, by refusing for the second time in its history to adjourn for Derby day. So long as Lord Rosebery wins racing stakes it is of no moment to him what his party or the country loses.

The city of Glasgow, Scotland, proposes to build a home for widows and widowers with children. In this new home a man or a woman with children may find comfortable lodgings at a cost of about 16 cents a day, and children will be fed at a cost of about 35 cents a week. The people of Glasgow have reduced their charities to a businesslike basis, where they cease to be charities and become self-supporting institutions that do not pauperize the peo-

Carey Lea's experiment in chemical action may have a practical value. He recently obtained metallic mercury from corrosive sublimate by triturating the sublimate in thin powder until mechanical force became chemical action and the sublimate was resolved into its elements. The experiment may have a bearing on the reduction of metallic ores, especially those of the precious metals. It is possible that a strong electric current may be successfully substituted for the trituration.

The Railroad Gazette in its next issue will publish a tabulation of orders for freight cars placed by railroad companies this year, which places the number at 22,029. Besides cars ordered, bids are out now for an additional 3,000 cars approximately. The passenger cars ordered amount to seventy-two, with contracts for thirteen more to be given out shortly. This represents an investment of over ten million dollars. The Railroad Gazette says that the total output of the contracting car shops for five months of this year exceeds that of the entire year 1884 by over 5,000

A Washington dispatch says that large opportunities for the introduction of American machinery and the investment of American capital are offered by the peace agreement Japan vision is made that China shall hereafter be open to the introduction of all forms of modern machinery, and that such machinery shall be admitted free of duty. American cotton machinery should benefit specially from the new opening presented, as should also telephones, electric lights, printing presses, and many other devices of civilization which heretofore have been kept out of

Eight hundred school children in New York went on a rampage last week because the proprietor of an entertainment advertised to give each child a handsome present and then distributed brass rings that they didn't like. They tore the interior decorations of the hall to pieces, smashed the windows, broke chairs, and did other damage, amounting in all to about \$300. A number of arrests were made. Little folk are fast acquiring big folks' tempers and bad habits. With the pace set by Chicago's Industrial Home girls and the New York school children the regular, oldfashioned rioters will have to hump themselves to keep up.

Musical stockings are among the latest freaks of fashion. They are not audibly musical, however, merely visibly so. Their openwork bands, running perpendicularly up the ankles. are patterned in the notes and bars of the musical clef. Of course, different tunes are used for different occasions. Upon full dress hosiery grand opera arias are appropriately inscribed. Lighter compositions appear upon those dedicated to functions less important, and for every-day stockings quite every-day dittles are used. Stockings to be worn upon Sunday alone are an interesting phase of the fashion. These are, of course, embellished with bymn tunes and other sacred music.

David Weaver of Cairo, Ritchie county, W. Va., on whose land a big 240barrels-a-day oil well was struck one day, last week, died the next day of heart disease resulting from excitement over his stroke of good fortune. He had been a poor man all his life and the prospect of sudden wealth was too much for him.

Draws on the Government.

There are some nineteen thousand and odd hundreds of dollars which the national government owes to the state of Nebraska under the act of congress providing for returning to the several states the amount collected by the former in direct taxes during war times The last legislature by joint resolution authorized the governor to receive this money from the federal authorities and turn it over to the state treasury. Governor Holcomb has procured from the secretary of state a certified copy of this joint resolution and forwarded it with a letter to the secretary of the treasury at Washington, requesting that official to send on the money due Nebraska.

Settlers Will Decide at Once.

At a meeting of the reservation settlers called at Winnebago agency by Special Government Inspector Mc-Laughlin, Agent Beck declared he would give them until July 1 to come with their bondsmen and cash in hand for the rent and make new leases with him, or they must vacate their farms and lose their crops. As every one of the renters have already given notes for their year's rent to the Flournoy company and secured them with mort rages on their crops, it is not likely they will make new leases, nor will they yield peaceable possession on the lst of July without an order from the courts. They will hold a meeting either at the Flournoy school house or in the one about two miles east of Flournoy and decide what course to pursue.

To Advertise Nebraska Products.

The committee appointed by Governor Holcomb to make arrangements for a suitable display of Nebraska products at the Cotton States and International exposition to be held at Atlanta in September, has issued the following

Evictions Have Begun.

A Pender dispatch says: Captain William H. Beck served notice on thirty renters occupying Winnebago lands to vacate inside of three days. Fred Smith, a Flournoy county tenant, was visited Friday at 5:30 p. m. by thirteen Indian police with directions from Captain Beck for him to immediately va-cate. Smith resisted the police, whereupon they proceeded to load his house-hold effects, turned out his stock and by physical strength loaded Smith him-self into the wagon. The party then started for the agency. A heavy wind and rain storm came up about 8 o'clock and the Indian police left Smith and his wife to the storm. MADRID, July 1 .- General Antonio Maceo, the Cuban insurgent leader, has been captured by Spanish troops and consigned to prison pending orders from Captain General Martinez de Campos. There is no question but that he will be tried at once by a court martial and summarily shot. This is regarded here as the best news from Cuba. which could be received at present, except, of course, the collapse of the revolution. Maceo's capture, it held, means even more than the death of Marti, the so-called president of the republic of Cuba, for Maceo has been acknowledged by everybody as the master spirit of the active rebellion and has on more than one occasion shown himself a clever general, especially of such undisciplined forces as he has had.

A NEW PRESIDENT.

General Bartholomew Masso Succeeds the Late President Marti.

PHILADELPHIA, Pa., July 1-Word was received in this city yesterday from Cuba that General Bartholomew Masso, in all probability, had been elected provisional president of the republic of Cuba in place of the late President Marti. The election was begun Tuesday and ended yesterday. The vote was cast by the men in the field and forwarded to General Gomez as fast as the balloting was completed. Up to the time the news was sent from Cuba in was learned that a practically unanimous vote was being cast for

Marti, prior to his departure Cuba, was also the head of the revolutionary party in this country, with the title of "delegate." His death, therefore, necessitates an election to 'fill that vacancy. To accomplish this a convention will be held in New York July 10, at which there will be fiftytwo delegates present from all parts of the United States. In addition to the election of a delegate this convention will also provide for the creation of a loan to help the insurgents. It is expected that Senor Thomas Estral de Palma, son of the president of Cuba during the former revolution, will be placed at the head of the party.

Prominent Families Wish to Avoid the Annovance of War Methods.

NEW YORK, July 1 .- Among the pas sengers of the war-line steamer Santiago which arrived this morning from Sanitago, Cienfugos and Nassau, are fifty-eight passengers from Santiago, many of whom are of the best Cuban families of that place. They are leaving Santiago because of the disturbed condition of that country. The insurgents are so busy in the vicinity of Santiago that the Spanish authorities are placing all of the inhabitants under strict surveillance. Many are leaving to avoid the annoyance and discomforts brought upon them by the enforcement of these measures.

Gould Denies Everything.

TRENTON, N. J., July 1 .- George G. Gould, through his counsel, S. V. Lindabury, has filed an answer to the suit brought against him in the supreme court by Zella Nicolaus Ruhman to recover \$40,000, the amount of a check which she says Mr. Gould took from her.

The answer declares the defendant not guilty of the alleged grievances or any part of them. It is sworn to by Mr. Lindabury, who sets out that Gould is out of the country, but he says that Gould will be on hand when the case is ready for trial.

LETTER FROM FARRIS.

The Laclede County Chairman Refuses to

Comply With Mr. Maffltt's Request. LEBANON, Mo., July 1 .- Hon. J. W Farris, chairman of the Laclede county Democratic committee, has addressed the following open letter to Hon. C. C. Maffitt, chairman of the Democratic state committee, which explains itself: Hon. C. C. Maffit, Chairman Demo-cratic State Committee: Dear Sir-I

am in receipt of your letter on the subject of a state convention, and the blank certificate prepared by you for a return of the vote of the county committee. As the Democrats of this county, in a mass convention, regularly called by the county committee, and held on the eighteenth day of May, declared in favor of a state convention. and the same was certified to you, I shall decline to take further expression of the party or its committee on that question. It seems to me a little remarkable at this late day, after seventy-three counties in the state have acted on this proposition through conventions or committee meetings; after more than 60 counties have joined in a call for a convention, independent of the state committee if the body refuses to call it; after 63 chairmen have emphatically voted for a convention through the call of the Sedalia Democrat, and after formal requests, addressed to you to gratify your own personal desire, have been called for through the Planters Hotel conference, with a majority practically in hand, that you should now require, as an entire new proceeding, that the committees be reconvened to act upon a question which has been passed upon.
You cannot contrast this position

with the demand now being made on the state committee to reconsider its action. Committeemen in the counties know the sentiment of the party, and voted that sentiment by their ac-

The state committee at its meeting, June 1, claimed to be ignorant of any general sentiment in favor of a convention and assumed a willingness to carry out the will of the party. That will has now been abundantly registered in favor of calling a state convention, and the most recreant public servant cannot be oblivious to that demand and longer enjoy the confi-

dence of honest people.

As I intimated to you in our interview that my rule of action was to believe all men true until they had proved the contrary, and thought the state committee had amply shown, by the utterance of its majority, that no state convention would be held, your statements to majority would be statements to me, if sincere, would have removed such conclusions, so far as applicable to you, for you admitted to me that you were now convinced that a majority of the party wanted a convention, and, that while you thought it bad policy, if a majority of the county chairmen requested you would call the committee together for a convention.

You also stated the number of counties that had sent you the proceedings of conventions and committees, and that you would accept such action as the demand from such counties. You were candid with me in these state-I cannot understand the ob ject of now calling for a new expres-sion. It looks to me too much like trifling with a sacred trust; like playing upon the supposed credulity of a people wise enough to give us lessons on the relations of master and servant, or, if you prefer, employer and employe. If, to the contrary, you were insincere and therefore untrustworthy in your proposition to me, my first criticisms were justified and the party en masse should move to get rid of your management at the earliest opportunity and look with suspicion and rigid scrutiny upon all of your acts while its official head. require this plain statement, but I am a plain man and do not desire to be misunderstood, whether the communication be friendly or otherwise. respectfully.
