A young lady at a box party one night defined a chaperon as "one who got out of the way whenever there was a chap around."

The Washington newspapers announce that the capital is seething in all kinds of wickedness. Congress cannot be blamed for it this time.

Notwithstanding the evident desire of both parties to handle the liquor question carefully, the rush for drinks at the candidate's expense continues.

It may not be invariably true that fine feathers make fine birds, but in the case of the parrot they certainly do make a brilliant conversationalist.

Personal investigation has assured the agricultural editor of one of our New York city dailies that the story that watermelons grow on water lily stems is a canard.

An electrical type-setting machine has been invented in Italy by a Dominican friar, which is said to produce words in type faster than the linotype can make them in metal.

Mrs. Alva Vanderbilt, the divorced wife of Willie K., for years has not addressed a manial directly, but has employed certain persons to take from her the royal commands. To talk to a tradesman or to order anything out of a shop is too much for her nerves. On one occasion, two summers ago, she had a list written and given to the lodge-keeper at Newport of the people who were to be admitted and those who were not.

The Spanish authorities in Cuba continue to affirm that the insurrection is practically crushed, and at the same time to send vehement appeals to Madrid for more men and money. It is hopeless to expect anything like accurate details of military movements in Cuba, as neither party is scrupulous about telling the exact truth; but measured solely by the efforts which are made to suppress it, the insurrection clearly is a formidable affair.

The new portable Maxim gun, a small innocent-looking affair weighing but forty-five pounds, bids fair to revolutionize modern methods of war. Its muzzle can be moved out by the bearer in all directions, and it will fire 600 bullets a minute, sending them through forty inches of oak. It is estimated that an army of 10,000 men equipped with this death-dealing terror would be equal to an army of 1,000,000 men with the present weapons.

Lady Churchill's achievements in English politics first showed the energy of American women abroad. Now Miss Mary Leiter and Miss Jane Chamberlain, who were, are going to give an exhibition of their political fitness. Politics in Great Britain and the United States are entirely different. It is likely that the young wives could not be tempted to electioneer on the American plan, and at the same time the sort of feminine stumping done in the United States would not capture a vote in England.

Professor Wiley, the chemist of the Agricultural Department, has initiated a series of experiments to determine the relative fertility of typical soils of the United States. The ultimate object of the investigation appears to be to determine the nature of the fertilizers necessary to restore the fertility of any particular soil, and thus to save the farmers thousands of dollars annually spent for fertilizers which do not meet the necessities of the soil to which they are applied.

Two tons of pig-iron have been purchased by the Lancashire, Pa., authorities for the physical culture of tramps. Each convicted tourist will be compelled to take five hours' active exercise by carrying this iron from one end of the prison yard to the other under penalty of stoppage of rations. The method has nothing to commend it but its utter uselessness as a productive factor and its aggravation to the tramp. The infliction of misery without some compensating benefit is the most diabolical of reform measures.

We are threatened with a hotel building age. Architects and engineers say that never to their knowledge was there as much projected hotel and apartment house construction as now. What is the reason? It is this, that electric buttons, electric cookery, electric travel, and electric action of all kinds, concentrates advantages, and helps to multiply opportunities for association. The social side of life is being developed. People want to be more together instead of divided. Theaters, churches, clubs, associations, tours, travels, lectures, reading of papers, books, magazines, cable, telephones, and what not, are springing up right and left.

That was a grateful surprise which met the Iowa school teacher who was engaged to a nobleman. For her courageous devotion to him the young woman is rewarded by the discovery that he is no nobleman at all.

The new law in Michigan forbidding the organization of military companies composed entirely of members of one religious creed is a sensible one. Religion and arms should always be separate, though it would be pleasant if laws were not needed to keep them apart.

A SPORTY individual walked into a drug store at Decatur and poured from a pitcher what he thought was water and drank a half a glass. It proved to be turpentine. A doctor was called and the chances are that he will recover.

THE Farmers' Grain and Stock company's elevator at Prayne was burned. The insurance of the elevator was \$1,500, and on the grain \$1,000. The Kaspar Bros. Milling company had about 600 bushels of rye stored in the elevator on which there was no insurance.

HENRY TEEMER lost his life in a shocking manner on the farm of J. D. Freeze near Elgin. He was bringing in horses from the pasture. He was riding and had his feet through the stirrup straps, as the stirrups were too long for him. In some way he was thrown and his feet remained in the straps. He was found alive but died soon after discovery.

THE Cattlemen's Protective association, which was organized at Alliance last fall for protection against the rustlers in the sand hills, has caused the arrest of Hank Matthews and a man by the name of Tracy. Sheriff J. W. Thompson arrested Matthews as he was boarding the west bound train. The cattlemen claim they have sufficient evidence to convict him.

FRID GILLARD, a widower about 40 years old and well known in the county, was arrested at Big Springs for outraging the person of Mary Foltz, a 15-year-old girl. The girl was injured so badly that she is in a precarious condition. She has always born a good reputation.

WE shall stand up for Nebraska this year, says the Ashland Breeze, by eating home grown potatoes at 25 cents a bushel.

A TON of flour and barrel of rice was shipped to Southern Lincoln county for the benefit of a few families who hadn't enough to bread them till after the harvest.

E. MERRILL, an inmate of the Soldiers' home, Grand Island, has invented a cultivator which has the prominent feature of enabling the rider to lift the plow without in any way affecting the tongue. This is said to be a new thing and the old soldier has applied for a patent.

Nearly a Million Dollars Short.

The State Board of Equalization has completed its laborers with the exception of Boyd county. The assessed valuation of the state is, in round numbers, \$171,000,000, as against \$183,000,000 in 1894, a falling off of \$12,000,000. It is expected that the amount realized from state assessments this year will fall between \$600,000 and \$600,000 less than the legislative appropriation of last winter, which were a total of \$2,785,000. This deficiency will, therefore, be added to the outstanding floating indebtedness, which is now about \$800,000. The school fund levy is, maximum, 1 1/2 mills; minimum, one-half of 1 mill. It is claimed that this great shortage in state valuation arises from an apparent competition between taxpayers, as to who shall make the smallest return to the assessor in proportion to the amount of property he owns.

State Horticulturists to Meet. The State Horticultural society has accepted the invitation of J. M. Russell & Son of Wymore to hold a summer meeting with them July 23, 24 and 25. Wednesday the 24th has been designated as peach day for Nebraska and the society members and those interested in horticulture are to pass the day in the Russell orchards, with thousands of bushels of peaches in sight and hundreds of bushels of early ripening varieties to eat. Nebraska has long been known to raise the best apples, cherries and grapes in the west. It is not as well known that hardy varieties of peaches are also grown with commercial profit in the state.

Passes to the State Fair. For several years the State Fair board has been wrestling with one feature of the pass question which has caused it no end of trouble and also, it is estimated, a loss of over \$10,000 per year in the matter of gate receipts. On account of the change of location of the fair this was considered a good year in which to make a reform and a radical change has been made in the form of the passes. During the last few years all of the state fair associations, with three or four exceptions, have discontinued the issuing of unlimited season passes and have adopted the coupon or punch system. So that Nebraska in adopting the coupon system this year is really somewhat behind the times. The plan of issuing two kinds of passes, a coupon pass and the old style, was discussed, but it was decided that it would cause trouble and therefore only one kind is used. It has attached to it five coupons, each one good for one admission to the grounds. The coupons are dated one for each day of the fair. Under this system the board of managers hopes to break up a "combination" which has been imposing upon it for several years.

Paroled Convicts Disappear. Warden Leidigh is looking into the question of rewards for the return of paroled convicts who have taken French leave. At least ten of the twenty-five or thirty convicts out on parole are said to have fled the state and the warden fears every one will disappear in the same way. Information from the governor's office is to the effect that a majority of the missing men skipped out last summer before Warden Leidigh came into official existence, but no one was aware of it until Warden Leidigh began to devise some way to get them back. There is a fund of \$40,000 to pay officers' fees and sheriffs for the return of fugitives from justice, but it is a question whether such a fund could be drawn upon to pay rewards for the return of paroled convicts. However, if the governor issues reward proclamations, the auditor will be obliged to pay \$200 for each convict returned.

Alfalfa in Red Willow County. Several thousand acres were sown to alfalfa in Red Willow county this spring, and many thousand more will be sown next. There are 40,000 acres of bottom land in the county, good alfalfa land, and before many years it will be in alfalfa. Last year was the driest known there, and yet alfalfa was cut three to four times and yielded five or six tons per acre. The hay found ready sale last winter at \$10 per ton. Seed runs five to eight bushels per acre, with some fields up to twelve to fourteen bushels. A 200-acre field turned off 1,700 bushels of seed, worth \$5 per bushel, \$8,500. The hay and pasturage was worth half as much, making \$12,750 for the crop on 200 acres, which is not bad for a dry year. These crops were grown without irrigation, and almost without rain. Some fields have already been cut twice, and the yield was heavy. A field cut June 6 to 8 turned off three good loads to the acre. The second crop now, July 12, is three feet high. Some sown last spring where land was clean has been cut once for hay and the second crop is a foot high.

CORBETT DIVORCE CASE.

Marie King Continues Her Testimony in the Divorce Suit. NEW YORK, July 19.—There was another hearing yesterday before Referee Jacobs in the suit for divorce brought by Mrs. Ollie Corbett against James J. Corbett. Miss Marie King, a member of the dramatic company with which Corbett traveled, continued her testimony as to the relations between Corbett and the woman known as Vera. Miss King related instances of a display of affection as the company were traveling in railway cars. In Corning, Ohio, she had seen upon the hotel register the entry "J. J. Corbett and wife." It was agreed between counsel that if the referee's report should be in favor of the plaintiff alimony should be fixed at \$100 a week. Adjournment until July 26 was taken in order that testimony might be obtained from the West.

A Decrease in Valuation. Sixty-six counties have reported to Auditor Moore a decrease of \$8,334,329.90 in assessed valuation, while ten other counties report an increase amounting to \$340,680.69. The thirteen counties which are delinquent with their abstracts of assessment are Boyd, Brown, Dawes, Douglas, Furnas, Gage, Hooker, Keith, Keya Paha, Lancaster, Nance, Saunders and Sheridan. Douglas has reported a decrease of about \$2,000,000. Lancaster county about \$100,000, and the total reduction for all counties will be about \$15,000,000.

RIDER HAGGARD MOBBED.

THE NOVELIST'S UNPLEASANT EXPERIENCE AS A PUBLIC MAN.

GIVEN ROUGH TREATMENT.

Stoned and Showered With Mud by British Electors and Finally Besieged in a Hotel—Police to the Rescue—The Wife of a Lord Knocked Down—The Latest Election Returns.

LONDON, July 22.—If further evidence was needed of the brutality of English mobs on election days it was furnished yesterday in the East Norfolk district, where H. Rider Haggard, the novelist, was the Conservative candidate. He made a tour of the district in a four horse drag and was repeatedly roughly treated, being pelted in some cases with mud and stones. Near Ladhams Miss Hartcup, who was a member of his party, was cut on the head by a flying missile and at Stratham the party was obliged to take refuge in a hotel which was besieged by a mob. Police were sent to the rescue from North Walsham, Northwick and Yarmouth, and Mr. Haggard and his friends were rescued at 2 o'clock this morning. The mob which besieged the hotel numbered about 300, and fled as soon as the police appeared, and Haggard returned to North Walsham, escorted by mounted police. Miss Hartcup, however, was too ill to be moved, and was compelled to remain at the hotel. At Walsham Haggard received an ovation and made a speech, in which he said that in all his travels he had not seen such conduct. He, however, was defeated, the vote standing as follows: R. H. Price, Liberal, sitting member, 4,608; H. Rider Haggard, Conservative, 4,408; Liberal majority, 198, a loss of 242 votes.

As Lord and Lady Mountmore were entering their carriage at the Mile End road, after the declaration of the poll, a man rushed forward calling out, "She's the one that done it," and struck Lady Mountmore in the face with his fist, knocking her down. So great was the force of the blow that her ladyship remained unconscious for some time.

At 2 o'clock this afternoon the following was the standing of the different parties: Conservatives, 293; Unionists, 47; total, 340. Liberals, 97; McCarthys, 46; Parnellites, 6; Labor, 2; total, 151; grand total, 491; net Unionist gain, 61.

Mr. McKelway of the Brooklyn Eagle, who has been studying the elections and their results, declares that the things voted down and out here are sumptuary theories of trade union politics and social experiments. The things postponed from present consideration are home rule, the disestablishment of the English church and the abolition of the house of lords. The matters brought to the front are reform in the poor laws and policy of largeness rather than thin, local liberty for Ireland, vigorous colonialism—the latter, however, in favor of the international use of silver on its value in gold. The leaders of both parties have assured Mr. McKelway that no change need be expected in the unaffected friendship of Great Britain toward the government and the people of the United States, especially as the latter, it is added, has ceased to be the recruiting ground for any political party in Great Britain.

A Prince's Reckless Betting.

LONDON, July 22.—Prince Francis of Teck, whose reckless plunging on the turf has long been notorious, has finally landed him into a scrape. Although he and his family are poor he bet 10,000 pounds (\$50,000) to one pound with a bookmaker on a horse which was generally regarded as an absolute certainty. But the horse lost and the prince was unable to pay. A great scandal followed in clubland and finally the prince of Wales, the duke of York and Prince Adolphus of Teck, who married the daughter of the duke of Westminster, paid the 10,000 pounds and Prince Francis will be sent to India.

Struck Dead by Electricity.

SEDALIA, Mo., July 22.—Guy Canfax, fireman at the Hotel Kaiser, went into the kitchen to start the fire early this morning and grasped the incandescent light globe to turn on the light, when a 1,000 volt current, which had in some way got into the incandescent circuit, struck him. He fell to the floor, carrying the light with him. He was unable to let go of the globe, and his hand was burned off and the arm was charred to the elbow. He was found about twenty minutes later with his flesh still burning. Death is supposed to have been instantaneous.

Some Cherokees Want Allotments.

SOUTH McALESTER, Ind. Ter., July 22.—At a mass meeting of Cherokees here yesterday, a petition was prepared asking the Dawes commission to aid them in securing allotments. They claim that part of the Cherokees have taken possession of and fenced in all the land, depriving others of all rights.

HIS WOUNDS EXPOSED.

Hundreds of Bulgarians Look Upon the Mangled Corpse of M. Stambuloff. SOFIA, July 22.—A continuous stream of persons, including many soldiers, viewed the body of M. Stambuloff at the home yesterday. The bandages had been removed from the head and the terrible wounds exposed to view. There was one great gash from the left cheek across the nose and over the right eye to the right ear. There was another from the eyebrow to the top of the head and there were other wounds on the cheek and neck, while behind the ear the neck was literally covered with a network of gashes. At the foot of the bed, on a stand, was a glass jar filled with spirits, in which the mutilated hands were displayed. Prince Ferdinand has telegraphed that in view of the attitude of Stambuloff's family, and being unwilling to expose his faithful servants to insult, he is compelled to forbid any state official from taking part in the funeral. Prince Ferdinand's decision is due to the widow of Stambuloff having refused the wreaths he sent.

Canada Retaliates on Lumber.

OTTAWA, July 22.—The attention of the government being drawn to a recent ruling of the United States treasury department increasing the rate of duty on Canadian dressed lumber, the minister of finance has given notice of a resolution raising the duty from 20 to 25 per cent on sawed boards, planks and deals, planed or dressed on one or both sides. If, however, the United States government places these items on the free list, then such lumber imported from the United States into Canada will be admitted free of duty.

Chinese in Formosa Fighters.

YOKOHAMA, July 22.—An official dispatch received here from the island of Formosa says that the Chinese are making a stubborn defense. After the capture of Lung Taupao, on June 14, an attempt was made to affect a junction between two Japanese battalions at the river Takukas, but the attempt failed, and a squadron of Japanese cavalry, which was suddenly attacked by a superior force of Chinese, was cut to pieces, only three troopers escaping. The junction of the two battalions was affected on July 16.

The Topeka conference is to be composed of the representative men of the transmississippi country and will largely decide the course of the exposition which will follow at Galveston.

Spiritualistic Evidence Worthless.

LIBERTY, Mo., July 22.—The preliminary examination of William Asher, arrested on the charge of murdering Daniel Stone, the bachelor farmer, was concluded at Smithville last night and resulted in his being discharged. Asher found the body and Dr. Lillard, a spiritualist, was the prosecuting witness, who claimed that he obtained evidence through spirits. Prosecuting Attorney W. H. Woodson of this city represented the state.

Five Outlaws Captured.

MILAN, Mo., July 23.—A band of five outlaws that has been troubling Putnam county for a long time was captured and taken to Unionville yesterday, where each member will answer for his crimes. A separate crime is charged against each, as follows: John Alexander, horse stealing; Grant Joyce, cattle stealing; Clark Spencer, colored, forgery; H. Dodd, grand larceny; John Stokes, burglary and larceny.

Freight Cars Blown Over.

There was considerable damage to grain in the fields and stacks.

THE PRETZEL CHILD.

Holmes Virtually Confesses that he Mugged Them. PHILADELPHIA, July 18.—Mudgett, alias H. H. Holmes, a notorious insurance swindler in prison, has virtually confessed the murder of two Pictel children, whose bodies were found in the cellar of a Toronto house Monday. During the two hours view he had yesterday with members of the district attorney's staff he said: "I suppose you know this." The district attorney thinks this is a practical admission of guilt. Notwithstanding Holmes' mark, his counsel says that he proves an alibi in his client's case when the Pictel children were murdered. This, he says, can be proved by Mrs. Howard, Holmes' mother, who is at present living with her mother in Franklin, Ind. The authorities place but little confidence in the alibi story and confessed Holmes is the murderer.

SILVER REPUBLICAN.

Candidate Will Be Pledged to Congress, Says Gov. McConnell. PORTLAND, Ore., July 18.—Gov. W. J. McConnell of Idaho, in view of the policy of the silver Republican next year, said: "The friends of silver will not force the financial issue of national Republican convention a year further than to secure a platform in the platform that the platform of that party shall sign any measure that passes congress that affects the financial system of the country, but also the pension of soldiers of the rebellion, the construction of the Hawaiian islands and issues of paramount interest to the country. The individual who has the ticket is of little consequence as long, of course, as he is a protectionist. I don't care what views on the financial question he stands on as long as he stands on the platform of the party and that platform is the declaration we propose."

No Redemption in Gold.

WASHINGTON, July 18.—For the first time during recent years the notes received at the treasury yesterday show no redemptions of the States notes in gold. All the notes, however, do not cover the day's operations. The redemptions during the last few months have averaged about \$1,000,000 a month. The fact has no particular significance, the treasury officials call attention to it as a very unusual circumstance.

Six Thousand Dollars Disappeared.
